The Self, the Individual, and the Community Brian

Lee Crowley, 1987 Traditional political theory has placed the individualist libertarian F A Hayek and utilitarian socialist planners Sidney and Beatrice Webb at opposite ends of the political spectrum This book argues that far from being mutually antagonistic the philosophies of Hayek and the Webbs are subtly different aspects of a single tradition Drawing attention to the underlying sympathies and affinities linking their work and viewing all three as bona fide bearers of the liberal banner Dr Crowley explores the relationship between politics economics and sociology in the liberal intellectual tradition Liberalism he concludes fails to take into account the idea of community and in its search for objective knowledge is essentially anti political and therefore removed from the real world

the impact of location on the LSE Government Department the professionalisation of academia in Britain and the microcosm the Department presents of British political life during each time period The conflicts between progressive and conservative forces are a recurring theme which helps link the internal dynamics of the Department with the wider social and political contexts that occurred from the beginning of the School to its 125th anniversary The volume uses detailed archival research particularly in the early chapters as well as over thirty interviews with a range of individuals with unique perspectives on the Department These include current and former faculty and students ranging from academics such as Christopher Hood Anne Phillips and Tony Travers to graduates who have subsequently become politicians such as Anneliese Dodds former UK Shadow Chancellor of the Exchequer and Kennedy Stewart and Michael Fougere both mayors in Canada as well as others with strong links to the Department such as Meghnad Baron Desai and Professors Tim Besley and Nick Barr This monograph offers a wealth of insights on the history of political science not only at the LSE but in British academia more broadly It speaks to a wide historical and social science audience concerned with Fabian and socialist history the history of politics and education and the development of British political science Of course it also offers appeal to more immediate audiences such as prospective and current students alumni and others throughout the wider LSE community As a history of the LSE as well as of the development of British higher education it serves as both a specific case study and a general representative of wider trends within universities during the twentieth and early twentieth first centuries A unique feature of this monograph is that it represents the collective efforts of students from the LSE Government Department including undergraduate MSc and PhD who worked under the leadership of Professor Cheryl Schonhardt Bailey Head of Government Department and Dr Gordon Bannerman British Historian This collaboration has enabled a rich array of perspectives on the history of the Department but has also brought the monograph to life with personal ties to the Department itself
