families fabricating stories about infants origins and destinations then closing the door firmly between the parties forever Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific assessments and shamed millions of women into surrendering their children The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files Gabrielle Glaser dramatically illustrates in Margaret and David s tale one they share with millions of Americans a story of loss love and the search for identity **American Indians and Native Alaskans** ,1998 Healthy Mothers, Healthy Babies ,1990
