Olson, 2016-03-21 A chronological narrative of the life and an intellectual chronicle and explication of the major works of legal scholar literary critic and public intellectual Stanley Fish who is considered one of the century's most original and influential literary theorists *Stanley Fish on Philosophy, Politics and Law* Michael Robertson, 2014-08-07 This book explores Fish's unconventional positions on politics and law explaining how they flow from his positions on three philosophical issues **Reading and Writing Experimental Texts** Robin Silbergleid, Kristina Quynn, 2017-10-03 This collection of essays offers twelve innovative approaches to contemporary literary criticism The contributors women scholars who range from undergraduate students to contingent faculty to endowed chairs stage a critical dialogue that raises vital questions about the aims and forms of criticism its discourses and politics as well as the personal institutional and economic conditions of its production Offering compelling feminist and queer readings of avant garde twentieth and twenty first century texts the essays included here are playful performative and theoretically savvy Written for students scholars and professors in literature and creative writing *Reading and Writing Experimental Texts* provides examples for doing literary scholarship in innovative ways These provocative readings invite conversation and community reminding us that if the stakes of critical innovation are high so are the pleasures **International Law Theories** Andrea Bianchi, 2016-11-10 Two fish are swimming in a pond Do you know what the fish asks his friend No tell me I was talking to a frog the other day And he told me that we are surrounded by water His friend looks at him with great scepticism Water Whats that Show me some water International lawyers often find themselves focused on the practice of the law rather than the underlying theories This book is an attempt to stir up the water that international lawyers swim in It analyses a range of theoretical approaches to international law and invites readers to engage with different ways of legal thinking in order to familiarize themselves with the water all around us of which we hardly have any perception The main aim of this book is to provide interested scholars practitioners and students of international law and other disciplines with an introduction to various international legal theories their genealogies and possible critiques By providing an analytical approach to international legal theory the book encourages readers to enhance their sensitivity to these different approaches and to consider how the presuppositions behind each theory affect analysis research and practice in international law *International Law Theories* is intended to assist students scholars and practitioners in reflecting more generally about how knowledge is

Modern Criticism and Theory Nigel Wood, David Lodge, 2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today **Law: Metaphysics, Meaning, and Objectivity**, 2007-01-01 Papers in philosophy of law by some of the younger cutting edge contributors to the field Two sets of issues of crucial current importance are taken up The first part deals with issues of meaning and objectivity in the

metaphysics of law The second part is about rights theory This volume will be required reading for anyone interested in philosophy of law and also of use for those with broader interests in ethics metaethics and social and political philosophy

Fragmentation in International Human Rights Law Marjan Ajevski, 2017-07-14 This book explores the effects of institutional fragmentation in international human rights law by comparing the rights jurisprudence of three human rights courts and bodies namely the European Court for Human Rights the Inter American Court for Human Rights and the Human Rights Committee Contributions cover the areas of freedom of expression journalism and the media right to privacy freedom of assembly and freedom of association political parties and measure the extent of fragmentation of human rights protection Moreover the volume argues that while the conflict of laws approach favoured by the International Law Commission might work in avoiding outright conflict in obligation in practice it is not an approach that presents a viable research agenda when it comes to understanding the causes and consequences of institutional fragmentation This is especially evident in areas like international human rights where the possibility of a silent drift between the jurisprudence of the three courts is a real possibility This book was originally published as a special issue of the Nordic Journal of Human Rights Embodying Pragmatism Wojciech Małecki, 2010 Embodying Pragmatism is the first monograph in English devoted to Richard Shusterman an internationally renowned philosopher and one of today's most innovative thinkers in pragmatism and aesthetics The book presents a comprehensive account of Shusterman's principal philosophical ideas concerning pragmatism aesthetics and literary theory including such themes as interpretation aesthetic experience popular art and human embodiment culminating in his proposal of a new discipline called somaesthetics As Shusterman's philosophical writings involve a dialogue with both analytic and continental traditions this monograph not only offers a critical vision of contemporary pragmatist thought but also situates Shusterman and pragmatism within the current state of theory **New Essays on the Fish-Dworkin Debate** Thomas Bustamante, Margaret Martin, 2023-08-24 This book considers the seminal debate in jurisprudence between Ronald Dworkin and Stanley Fish It looks at the exchange between Dworkin and Fish initiated in the 1980s and analyses the role the exchange has played in the development of contemporary theories of interpretation legal reasoning and the nature of law The book encompasses 4 key themes of the debate between these authors legal theory and its critical role interpretation and critical constraints pragmatism and interpretive communities and some general implications of the debate for issues like the nature of legal theory and the possibility of objectivity The collection brings together prominent legal theorists and one of the protagonists of the debate Professor Stanley Fish who concludes the collection with an interview in which he discusses the main topics discussed in the collection **When Fiction Feels Real** Elaine Auyoung, 2018-10-24 Why do readers claim that fictional worlds feel real How can certain literary characters seem capable of leading lives of their own outside the stories in which they appear What makes the experience of reading a novel uniquely pleasurable and what do readers lose when this experience comes to an end Since their first

publication nineteenth century realist novels like *Pride and Prejudice* and *Anna Karenina* have inspired readers to describe literary experience as gaining access to vibrant fictional worlds and becoming friends with fictional characters While this effect continues to be central to the experience of reading realist fiction and later works in this tradition the capacity for novels to evoke persons and places in a reader's mind has often been taken for granted and even dismissed as a naive phenomenon unworthy of critical attention When *Fiction Feels Real* provides literary studies with new tools for thinking about the phenomenology of reading by bringing narrative techniques into conversation with psychological research on reading and cognition Through close readings of classic novels by Jane Austen Charles Dickens George Eliot and Leo Tolstoy and the elegies of Thomas Hardy Elaine Auyoung reveals what nineteenth century writers know about how reading works Building on well established research on the mind Auyoung exposes the underpinnings of the seemingly impossible achievement of realist fiction introducing new perspectives on narrative theory mimesis and fictionality When *Fiction Feels Real* changes the way we think about literary language realist aesthetics and the reading process opening up a new field of inquiry centered on the relationship between fictional representation and comprehension

Quirks of the Quantum

Samuel Coale, 2012 Episodic and disconnected much of postmodern fiction mirrors the world as quantum theorists describe it according to Samuel Chase Coale In *Quirks of the Quantum* Coale shows how the doubts misgivings and ambiguities reflected in the postmodern American novel have been influenced by the metaphors and models of quantum theory Coale explains the basic facets of quantum theory in lay terms and then applies them to a selection of texts including Don DeLillo's *Underworld* Joan Didion's *Democracy* and Thomas Pynchon's *Against the Day* Using a new approach to literature and culture this book aims to bridge the gap between science and the humanities by suggesting the many areas where they connect

Radical Feminism, Writing, and Critical Agency Jacqueline Rhodes, 2005-01-01 Links radical feminist writings of the 1960s and 1970s to contemporary online women's networks

Literary and Cultural Intersections during the Long Eighteenth Century Marianna D'Ezio, 2009-10-02 Culture and literature indeed intellectual life as a whole in eighteenth century Britain were characterized by complex internal tensions as well as influenced by the unprecedented atmosphere of major political cultural and social change which led to the revolutions at end of the century Furthermore the diffusion of periodicals and newspapers which formed the basis of public conversation in urban coffee houses functioned as a vehicle for the dispersion of works which publicly mirrored a private society in the process of transformation The focus on this change and the circulation of new ideas on taste and polite society as well as on culture and literature can be found in the continual intertwining between the public and the private spheres of society The aim of the first part of this collection of original unpublished essays by young international scholars is to investigate the dynamics of these overlapping spheres through new readings of eighteenth century literary works which not only analysed the mechanisms of the private and public spheres but also highlighted some remarkable cultural features such as clothing and fashion gossip and gender issues As suggested by

the title the second part of the collection will expand on the principal idea of intersections in eighteenth century English literature from the intersections linking the private and public spheres of British society to those between eighteenth century works within the British literary canon taking into account the influence of European thought The purpose of the second group of essays is thus that of offering fresh perspectives and a re evaluation of literary and cultural reciprocal exchanges in order to better locate or re locate canonical works and authors within the eighteenth century literary tradition

Immanent Distance Bruce Bond,2015-09-24 In these essays Bruce Bond interrogates the commonly accepted notion that all poetry since modernism tends toward one of two traditions that of a more architectural sensibility with its resistance to metaphysics and that of a latter day Romantic sensibility which finds its authority in a metaphysics authenticated by the individual imagination Poetry whether self consciously or not has always thrived on the paradox of the distant in the immanent and the other in the self as such it is driven by both a metaphysical hunger and a resistance to metaphysical certainty Hidden resources of being animate the language of the near just as near things beckon from an elusive and inarticulate distance Bond revalidates the role of poetry and more broadly of the poetic imagination as both models for and embodiments of a transfigurative process an imperfectly mimetic yet ontological engendering of consciousness at the limits of a language that must if cognizant of its psychological ethical and epistemological summons honor that which lies beyond it

Informal International Lawmaking Joost Pauwelyn,Ramses Wessel,Jan Wouters,2012-09-27 Policy makers national administrations and regulators engage in making laws without the formalities associated with treaties or customary law This book analyses this informal international lawmaking and its impact on contemporary trends in international interaction looking at the questions of accountability and effectiveness it raises *Romance for Sale in Early Modern England* Steve Mentz,2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period s narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus s *Aethiopian History* In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores

how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel

Collective Memory and the Dutch East Indies Paul Doolan, 2025-10-01 *Collective Memory and the Dutch East Indies* Unremembering Decolonization examines the afterlife of decolonization in the collective memory of the Netherlands It offers a new perspective on the cultural history of representing the decolonization of the Dutch East Indies and maps out how a contested collective memory was shaped Taking a transdisciplinary approach and applying several theoretical frames from literary studies sociology cultural anthropology and film theory the author reveals how mediated memories contributed to a process of what he calls unremembering He analyses in detail a broad variety of sources including novels films documentaries radio interviews memoirs and historical studies to reveal how five decades of representing and remembering decolonization fed into an unremembering by which some key notions were silenced or ignored The author concludes that historians or the historical guild bear much responsibility for the unremembering of decolonization in Dutch collective memory
