gaucho vegetariano and Other Plays for Students of Spanish Resurrección Espinosa, 2012-05-04 This revised edition incorporates plays accessible to students at high novice and intermediate levels while retaining dramas that challenge and heighten the proficiency of the most advanced students The new plays also extend the emotional range of the volume by providing simple light comedies that balance the depth and subtlety of the triumphant yet tragic pieces based on the lives and writings of Latin American poets Julia de Burgos and Rosario Castellanos Studying and performing these plays will not only help students to read understand and speak Spanish with greater confidence but it will also improve their capacity for mutually supportive teamwork and interaction with an audience The experience reaches beyond language study to include investigation and appreciation of the diverse literatures cultures and histories of the Spanish speaking world Professional academic and community theater groups will find these plays and related theater games instructive and enjoyable *Let's Go Peru 1st Edition* Ashley E. Isaacson, Let's Go Inc., 2004-12-13 Brand new Let's Go Peru is the only guide you'll need to South America's cultural hotspot From millennia old pre Inca sights to wild nights of salsa Let's Go's intrepid researchers have canvassed the Andes to bring you the best of Peru Combining new text and maps with Let's Go's forty five years of travel savvy this insider's guide provides extensive coverage of Lima Lake Titicaca and Cusco and the Sacred Valley while paying significant attention to less touristed destinations Valuable tips and listings deliver the know how to see the sights and make a difference and completely new features provide an in depth look at the culture So whether you'd rather spot condors soaring over fathomless canyons or bask on spectacular sun kissed beaches Let's Go can show you the way **Selected Poems of Jorge Carrera Andrade** Jorge Carrera Andrade, 1972-01-01 While Latin American poets such as Pablo Neruda Jorge Luis Borges and Octavio Paz have been receiving most of the attention of critics the Ecuadorian poet Jorge Carrera Andrade had quietly continued writing his transparent poetry Nevertheless Carrera Andrade's poems are undoubtedly some of the best ever written in the Spanish language and he has often been mentioned as a likely candidate for the Nobel Prize In his poetic exploration of what he calls the secret country of human existence Carrera Andrade marvels at the beauty of the world And this wonder is conveyed by means of dazzling descriptive metaphors Perhaps it could be said that the Ecuadorian poet always interprets the world visually but his visual images constitute merely a metaphorical technique around which he constructs his poems In his verbal structures he expresses the transitory nature of life as well as the loneliness of man in the universe He describes life in his native Ecuador contemplates with compassion the plight of the Indians of his country and denounces social injustices More recently Carrera Andrade concerned about the destiny of mankind manifests his indomitable faith in humanity in the book *Hombre planetario* 1959 imagining a social utopia Carrera Andrade has stated that his poetry is the result of the intimate union of the senses and the intellect And yet his poems remain transparent He rejects obscurity and complexity and chooses simplicity and clarity He considers that one of the essential goals of poetry is communion with other men and that if his poetry cannot communicate its emotive and sensorial content it fails to accomplish

its mission which is the interpretation of the world As to the universal meaning of his poetic work Carrera Andrade would recall Goethe's phrase All my works are fragments of a great confession He would characterize his own work as a confession of love both for humanity and for the wonders of this world Carrera Andrade must be counted among the four or five best contemporary poets of Latin America Whether he is awarded a Nobel Prize still remains to be seen but there can be no doubt that in his poems one can detect the same literary excellence as in the work of Neruda Paz or Borges Hopefully the work of this great Ecuadorian poet will soon be universally appreciated In some of his works he can be compared to T S Eliot Hlderlin or Saint Jean Perse The publication of H R Hayes translations will for the first time make available to English speaking readers all of the significant verse of Carrera Andrade beginning with some of his first pieces from *La guirnalda del silencio* 1926 and ending with translations from *Pos a ltima* 1957 1966

Visible Dissent Teresa V. Longo, 2018-05-15 As Teresa Longo's groundbreaking examination reveals North America's dissident literature has its roots in the Latin American literary tradition From Pablo Neruda's *Canto General* to Eduardo Galeano's *Open Veins of Latin America* to Gabriel Garc'a M'quez's *One Hundred Years of Solitude* among others contemporary writers throughout the Americas have forced us to reconsider the United States's relationship with Latin America and more broadly with the Global South Highlighting the importance of reading and re-reading the Latin American canon in the United States Longo finds that literature can be an instrument of progressive social change and argues that small literary presses City Lights Curbstone and Seven Stories have made that dissent visible in the United States In the book's final two chapters on the Robert F Kennedy Center's Speak Truth to Power initiative and the publication of Marc Falkoff's *Poems from Guant'namo* the author turns our attention further outward probing the role poetry theater and photography play in global human rights work Locating the work of artists and writers alongside that of scholars and legal advocates *Visible Dissent* not only unveils the staying power of committed writing it honors the cross currents and the on the ground implications of humane political engagement

Ancient Advanced Technology in South America Norah Romney, 2021-02-13 There are a host of ancient ruins in South America claimed by the Inca inherited by the Inca conquered by the Inca and built by the Inca Although one label has stuck on each monument or ancient site it is clear there are many layers of construction physically and conceptually Academics and Scholars still debate who built these monuments did they inherit them Was there a Pre Inca culture but everyone can appreciate how advanced the Inca Ancient Ruins found in the highlands of South America The Inca were largest empire ever seen in the Americas and the largest in the world at that time yet doubt is cast on their monuments and origins Tiahuanaco a region of Bolivia that holds many remnants of ancient civilizations demonstrates some of the most unique and amazingly precise examples of stonework in the world The ancient people who created these walls and buildings used such a high degree of mathematical expertise that the workmanship is astounding even to modern day people They marvel at how the stone cutters from long ago created all of it with simple hand tools The high plains of Peru and Bolivia in the Andes Mountains holds a wealth of historical

sites each one more amazing than the next Scholars and archaeologists had only seen the same type of masonry in ancient Egypt before this Although some historians call this Inca architecture this later time period civilization had little to do with creating these fantastic structures The Incas dominated this area from approximately the 13th to 14th centuries AD up until the time of the Spanish explorers conquest of the region Indeed they built some magnificent structures but the ones most interesting for their precision and longevity came from even older groups Some of these empires were called the Wari and the Tiahuanaco They existed hundreds or even thousands of years before the Inca came to power Multiple historians who specialize in architectural studies have dedicated a lot of their time and knowledge to figuring out how ancient groups of people who did not use advanced tools or even the wheel could create such structures The most advanced chisels and hammers of the time would have been created from copper stone and wood With these simple hand tools people dug granite andesite and porphyry out of quarries After transporting them to the final locations they then carved them with smooth precision so they would fit together almost seamlessly What techniques could these ancient experts use to make such flat and smooth surfaces exact angles and joints that would not allow a single blade of grass to squeeze between Historians can only guess about some of the methods that allowed for such unique stone cutting and building styles

A History of Christianity in Asia, Africa, and Latin America, 1450-1990 Klaus Koschorke, Frieder Ludwig, Mariano Delgado, Roland Spliesgart, 2007-09-14 The map of world Christianity has changed dramatically in just the last century Today the majority of Christians live in Africa Asia and Latin America making Christianity a world religion as never before in history Given that global reality Klaus Koschorke Frieder Ludwig and Mariano Delgado in cooperation with Roland Spliesgart have created the first comparative documentary history of Christianity for these regions covering the period 1450 1990 Taking the changing ecumenical conditions into account this volume enlarges the horizon of classical church historiography In contrast to the prevailing Western perspectives on the history of Christianity in Africa Asia and Latin America voice is given here to the multitude of local initiatives specific experiences and varieties of Christianity in very diverse cultural contexts addressing such questions as the colonial conquest slavery and the demand for ecclesiastical independence *Library of Congress*
