Queen Anne Community On The Hill:

Queen Anne, Community on the Hill Kay Frances Reinartz,1993 *Queen Anne Hill Community Survey* Queen Anne Community Council. Planning Committee,1991 The Love Israel Family Charles Pierce LeWarne,2015-07-21 Winner of the Malstrom Award of the League of Snohomish County Historical Organizations In 1968 a time of turbulence and countercultural movements a one time television salesman named Paul Erdmann changed his name to Love Israel and started a controversial religious commune in Seattle s middle class Queen Anne Hill neighborhood He quickly gathered a following and they too adopted the Israel surname along with biblical or virtuous first names such as Honesty Courage and Strength The burgeoning Love Israel Family lived a communal lifestyle centered on meditation and the philosophy that all persons were one and life was eternal They flourished for more than a decade owning houses and operating businesses on the Hill although rumors of drug use control of members and unconventional sexual arrangements dogged them By 1984 perceptions among many followers that some Family members especially Love Israel himself had become more equal than others led to a bitter breakup in which two thirds of the members defected The remaining faithful about a hundred strong resettled on a ranch the Family retained near the town of Arlington Washington north of Seattle There they recouped and adapted with apparent social and economic success for two more decades In *The Love Israel Family* Charles LeWarne tells the compelling story of this group of idealistic seekers whose quest for a communal life grounded in love service and obedience to a charismatic leader foundered when that leader s power distanced him from his followers LeWarne followed the Family for years attending its celebrations and interviewing the faithful and the disaffected alike He tells the Family s story with both sympathy and balance describing daily life in the urban and later the rural communes and explaining the Family s deeply felt spiritual beliefs *The Love Israel Family* is an important chapter in the history of communal experiments in the United States

Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 United States. Internal Revenue Service,2002 **Publication** ,1991 **The Politics of Community Policing** Wilson Edward Reed,2013-06-17 First published in 1999 As with the other volumes in this series readers will appreciate the clear and compelling way this case study is presented Reed critiques the way in which political and economic dynamics not only threaten but convolute the intended benefits of community policing Although you may not always agree with the author s interpretations he has given us a compelling look at the potential for corruption of model programs **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** ,1987 *Metropolitan Area Transit Plan, East Operating Base, Electric Trolley Bus System Expansion* ,1974 **The Politics of Community Policing** William (Bill) Thomas Lyons,2010-05-06 In this in depth examination of community policing in Seattle William T Lyons Jr

explores the complex issues associated with the establishment and operation of community policing an increasingly popular method for organizing law enforcement in this country Stories about community policing appeal to a nostalgic vision of traditional community life Community policing carries with it the image of a safe community in which individual citizens and businesses are protected by police they know and who know them and their needs However it also carries an image of community based in partnerships that exclude the least advantaged strengthen the police and are limited to targeting those disorders feared by more powerful parts of the community and most amenable to intervention by professional law enforcement agencies The author argues that the politics of community policing are found in the construction of competing and deeply contested stories about community and the police in environments characterized by power imbalances Community policing according to the author colonizes community life increasing the capacity of the police department to shield itself from criticism while manifesting the potential for more democratic forms of social control as evidenced by police attention to individual rights and to impartial law enforcement This book will be of interest to sociologists and political scientists interested in the study of community power and local politics as well as criminologists interested in the study of police

William T Lyons Jr is Assistant Professor of Political Science University of Akron He previously worked for the Seattle Police Department

Seattle's Women Teachers of the Interwar Years Doris Hinson Pieroth, 2012 In *Seattle's Women Teachers of the Interwar Years* Doris Pieroth describes the contributions of a remarkable group of women who dominated the Seattle public school system in the early years of the twentieth century and helped to produce well educated citizens who were responsible for the widespread philanthropic volunteer and municipal activities that came to characterize the city While most publications on the history of education have emphasized theory or administration Pieroth focuses on individual teachers Set against the backdrop of a developing city the book provides vivid portraits of educated strong ambitious women making successful careers at a time when job opportunities for women were very limited Pieroth interviewed as many of these women as she could find and quotes from the interviews enhance her lively well written narrative Using details drawn from local newspapers and school publications she demonstrates that the influence of this cohort of women made modern Seattle the livable place that it remains today *Seattle's Women Teachers of the Interwar Years* is a significant contribution to the history of Seattle and the region to women's history and to the history of education

Remaking the American Dream Vinit Mukhija, 2022-12-20 The redefinition of the single family house the urban landscape and the American Dream Sitting squarely at the center of the American Dream the detached single family home has long been the basic building block of most US cities In *Remaking the American Dream* Vinit Mukhija considers how this is changing in both the American psyche and the urban landscape In defiance of long held norms and standards single family housing is slowly but significantly transforming through incremental additions of second and third units Drawing on empirical evidence of informal and formal changes *Remaking the American Dream* documents homeowners quiet unpermitted modifications conversions and

workarounds as well as gradual institutional alterations to once rigid local land use regulations Mukhija's primary case study is Los Angeles and the role played by the State of California findings he contrasts with the experience of other cities including Santa Cruz Seattle Portland Minneapolis and Vancouver In each instance he shows how and asks why homeowners are adapting their homes and governments are changing the rules that regulate single family housing to allow for accessory dwelling units ADUs or second units Key to Mukhija's research is the question of why the idea of single family living is changing and what this means for the future of US cities The answer this book suggests heralds nothing less than a redefinition of American urbanism and the American Dream *Love Water Memory* Jennie Shortridge, 2014-01-14 Waking up knee deep in the San Francisco Bay with no memory of her past Lucie learns that she has a rare form of amnesia and reunites with a loving fiancé she does not recognize only to discover unsettling truths about her own personality **Pacific Builder & Engineer** ,1929 **Regional Transit System Plan** ,1992 Congressional Record United States.
