in some ways there were also substantial differences The propaganda formulated a narrative about what war actually was and what role the rulers and their subjects should play In the crisis of 1709 this narrative was profoundly challenged The book investigates how war events were communicated to the inhabitants of France and Sweden in the seventeenth century by the Church and especially through days of thanksgiving called Te Deum in France The Historical Novel, Transnationalism, and the Postmodern Era Susan Brantly, 2017-02-17 This volume explores the genre of the historical novel and the variety of ways in which writers choose to represent the past How does an author's nationality or gender impact their artistic choices To what extent can historical novels appeal to a transnational audience This study demonstrates how histories can communicate across national borders often by invoking or deconstructing the very notion of nationhood Furthermore it traces how the concerns of the postmodern era such as postmodern critiques of historiography colonialism identity and the Enlightenment have impacted the genre of the historical novel and shows this impact has not been uniform throughout Western culture Not all historical novels written during the postmodern era are postmodern The historical novel as a genre occupies a problematic yet significant space in Cold War literary currents torn between claims of authenticity and the impossibility of accessing the past Historical novels from England America Germany and France are compared and contrasted with historical novels from Sweden testing a variety of theoretical perspectives in the process This pitting of a center against a periphery serves to highlight traits that historical novels from the West have in common but also how they differ The historical novel is not just a local regional phenomenon but has become during the postmodern era a transnational tool for exploring how we should think of nations and nationalism and what a society should or should not look like

Structures of Influence Marilyn Johns Blackwell, 2020-05-01 This collection of essays featuring contributions from eminent Swedish and American Strindberg scholars addresses the question of how Strindberg's art collides and colludes ideologically and aesthetically with the literary doyens of the nineteenth and twentieth centuries in both the Scandinavian and the larger Western cultural context Strindberg's Dramaturgy Göran Stockenström, 1988 **History of German Speaking and Nordic Nations** Jack J Kanski, 2018-12-18 In History of German Speaking and Nordic Nations Kanski describes nine countries The first part of the book covers the frequently interwoven relationship of Germany and Austria The book also includes chapters on Switzerland and the Holy Roman Empire The second part of the book describes the Nordic countries Denmark Sweden Norway Iceland and Finland These books are designed as companion texts and when read together will give readers a good understanding of the important personalities and their contributions to European history Written in a reader friendly bullet point format accompanied by many colour images Kanski's latest books will act as a stepping stone for the general reader Plays from the Cynical Life August Strindberg, 1983 The plays in this volume are one act dramas based on human situations as conceived and interpreted by Strindberg at a time when he was convinced human beings are essentially selfish self centered creatures All of them have been presented successfully in Swedish and

other Scandinavian theaters The situations are surely typical people's willingness to claim credit for a fellow human being's success a mother's manipulation of her daughter's life a wife's indifference to her mate except when others obviously want him denigration of a mate for one's own purposes indifference to rationalization of one's sins playing with one's own and others' emotions and the unhesitant destruction of a fellow human being at least partly in the name of religion Written toward the end of his pre-Inferno period Strindberg labelled these plays one-act plays out of cynical life En aktare Ur det chniska livet Translations of two other plays The Stronger and The Bond which belong to this group were included in Pre-Inferno Plays University of Washington Press 1970 In translating these plays Walter Johnson has presented American versions faithful to the original and expressed in languages as idiomatic and natural as the original Swedish

Space and Time in Epic Theater Sarah Bryant-Bertail, 2000 The development of epic theater before during and after Brecht's time and analysis of epic productions showing the form's continued relevance Bertolt Brecht and the director Erwin Piscator developed epic theater in the 1920s because they found Western realism limited to the single perspective of an individual and thus unable to confront the new realities technological warfare revolution the metropolis and the mass media among others The epic stage juxtaposed the old media of actors and scenery with new media including film photography and electronic sound Bryant Bertail provides analyses of theatrical productions in the epic tradition from before during and after Brecht's lifetime Hasek's The Good Soldier Schwejk directed by Piscator Mother Courage written and directed by Brecht Lenz's The Tutor directed by Brecht Ibsen's Peer Gynt in productions directed by Peter Stein and Rustom Bharucha Bchner's Leon and Lena and Les Atrides The House of Atreus from Aeschylus and Euripides directed by Ariane Mnouchkine Bryant Bertail shows that epic theater's relevance for politically engaged artists lies in its discovery that history fate and human nature are spatio-temporal constructs that may be reconstructed on stage Sarah Bryant Bertail is associate professor in the School of Drama at the University of Washington
