Gems, 2017-02-01 Vietnam and the Colonial Condition of French Literature explores an aspect of modern French literature that has been consistently overlooked in literary histories the relationship between the colonies their cultures languages and people and formal shifts in French literary production Starting from the premise that neither cultural identity nor cultural production can be pure or homogenous Leslie Barnes initiates a new discourse on the French literary canon by examining the work of three iconic French writers with personal connections to Vietnam Andr Malraux Marguerite Duras and Linda L In a thorough investigation of the authors linguistic metaphysical and textual experiences of colonialism Barnes articulates a new way of reading French literature not as an inward looking homogenous monolingual tradition but rather as a tradition of intersecting and interdependent peoples cultures and experiences One of the few books to focus on Vietnam's position within francophone literary scholarship Barnes challenges traditional concepts of French cultural identity and offers a new perspective on canonicity and the division between French and francophone literature Bessie Coleman Trina Robbins, 2007 In graphic novel format tells the story of Bessie Coleman the daring stunt pilot Provided by publisher *In Their Own Words* Fred Erisman, 2021-01-15 Amelia Earhart's prominence in American aviation during the 1930s obscures a crucial point she was but one of a closely knit community of women pilots Although the women were well known in the profession and widely publicized in the press at the time they are largely overlooked today Like Earhart they wrote extensively about aviation and women's causes producing an absorbing record of the life of women fliers during the emergence and peak of the Golden Age of Aviation 1925 1940 Earhart and her contemporaries however were only the most recent in a long line of women pilots whose activities reached back to the earliest days of aviation These women too wrote about aviation speaking out for new and progressive technology and its potential for the advancement of the status of women With those of their more recent counterparts their writings form a long sustained text that documents the maturation of the

airplane aviation and women's growing desire for equality in American society *In Their Own Words* takes up the writings of eight women pilots as evidence of the ties between the growth of American aviation and the changing role of women Harriet Quimby 1875-1912 Ruth Law 1887-1970 and the sisters Katherine and Marjorie Stinson 1893-1977 1896-1975 came to prominence in the years between the Wright brothers and World War I Earhart 1897-1937 Louise Thaden 1905-1979 and Ruth Nichols 1901-1960 were the voices of women in aviation during the Golden Age of Aviation Anne Morrow Lindbergh 1906-2001 the only one of the eight who legitimately can be called an artist bridges the time from her husband's 1927 flight through the World War II years and the coming of the Space Age Each of them confronts issues relating to the developing technology and possibilities of aviation Each speaks to the importance of assimilating aviation into daily life Each details the part that women might and should play in advancing aviation Each talks about how aviation may enhance women's participation in contemporary American society making their works significant documents in the history of American culture

Performing Flight Scott Magelssen,2020-01-01 Performing Flight sheds new light on moments in the history of US aviation and spaceflight through the lens of performance studies From pioneering aviator Bessie Coleman to the emerging industry of space tourism performance has consistently shaped public perception of the enterprise of flight and has guaranteed its success as a mode of entertainment travel research and warfare The book reveals fundamental connections between performance and human aviation and space travel over the past 100 years beginning with the early aerial entertainers known as barnstormers named after itinerant 19th century theater troupes to the performative history of the

Enola Gay and its pilot Paul Tibbets who dropped the bomb on Hiroshima thus ushering in the atomic age The book also explores the phenomenon of the pilot voice the creation of the American Astronaut on whose performative success the Cold War the Space Race and funding of the US Space Program all depended and the performative strategies employed to cement notions of space tourism as both manifest destiny and an escape route from a failed planet A final chapter addresses the four hijacked flights of 9 11 and their representations in discourse and in memorials Performing Flight effectively and imaginatively demonstrates the ways in which performance and flight in the United States have been inextricably linked for more than a century

Realizing the Dream of Flight National Aeronautics and Space Administration,2005-12-31 These essays in celebration of the Wright brothers first flight 100 years ago grew out of presentations by a group of prominent scholars in 2003 at a conference sponsored by the NASA History Division and held at the Great Lakes Science Center in Cleveland Ohio The volume focuses on the careers of some of the many men and women who helped to realize the dream of flight both through the atmosphere and beyond These accounts are original and compelling because they examine the history of flight through the lens of biography

Marie Meyer Fower Christine Montgomery,2015-08-01 When Marie Meyer got her pilot s license in 1921 she was one of the first women in Missouri to qualify to fly an airplane But Marie was not just a pilot she was a barnstormer and wing walker Marie and her Flying Circus traveled around the Midwest performing daring aerial stunts for eager crowds She would stand on the wings of a plane while it flew at 100 miles per hour or jump from a plane with a parachute In a time when few women ran their own businesses Marie ran her Flying Circus for seven years and was active in the early years of aviation Most importantly Marie showed people that women could do anything

A Pair of Wings Carole Hopson,2024-08-20 An airline captain crafts a riveting adventurous novel inspired by the remarkable true life of pioneer aviatrix Bessie Coleman a Black woman who learned to fly at the dawn of aviation and found freedom in the air A few years after the Wright brothers first flight Bessie was working the Texas cotton fields with her family when an airplane flew over their heads It buzzed so low she thought she could catch it in her hands Bessie was fearless She knew there was freedom in those wings The daughter of a woman born into slavery Bessie answers the call of the Great Migration She moves to Chicago where she wins the backing of two wealthy powerful Black men Robert Abbott creator and publisher of the Chicago Defender and Jesse Binga the founder of Chicago s first Black bank Abbott becomes her mentor while Binga becomes her lover Her

true first love though remains flying But in 1920 no one in the United States will train a Black woman to fly So twenty eight year old Bessie learns to speak French and sets off for Europe Two years ahead of Amelia Earhart Bessie earns her pilot s license and later she learns death defying stunts from French and German dogfighting combat pilots While she finds no prejudice in the air Bessie wrestles with other challenges on the ground A plane crash nearly kills her her brothers seem to be crumbling under the weight of Jim Crow and while grappling with tough truths about Binga Bessie begins to wonder if the freedom she finds in the sky means she must otherwise fly solo With tenderness and mastery Carole Hopson imagines the breathtaking moxie Bessie Coleman harnessed in order to lift herself out of poverty and become known as Queen Bess
