Queer Media Images Theresa Carilli, Jane Campbell, 2013-05-16 Queer Media Images LGBT Perspectives presents fifteen chapters that address how the gay lesbian bisexual and transgendered communities are depicted in the media This collection focuses on how the LGBT community has been silenced or given voice through the media Through a study of queer media images this book scrutinizes LGBT media representations and how these representations contribute to a dialogue about civil rights for this marginalized community While the communication discipline has been open to the LGBT community there has been an absence of published research and a marginalizing or tokenizing of the queer voice Through a study of media representations this unique collection provides a snapshot into the issues surrounding LGBT identity during a time when the Defense of Marriage Act is called into question and explores what it means to study images through a queer lens

Censoring Sex John E. Semonche, 2007-07-20 In this gracefully written accessible and entertaining volume John Semonche surveys censorship for reasons of sex from the nineteenth century up to the present He covers the various forms of American media books and periodicals pictorial art motion pictures music and dance and radio television and the Internet The tale is varied and interesting replete with a stock of colorful characters such as Anthony Comstock Mae West Theodore Dreiser Marcel Duchamp Opie and Anthony Judy Blume

Jerry Falwell Alfred Kinsey Hugh Hefner and the Guerilla Girls Covering the history of censorship of sexual ideas and images is one way of telling the story of modern America and Semonche tells that tale with insight and flair Despite the varieties of censorship running from self censorship to government bans a common story is told Censorship whether undertaken to ward off government regulation to help preserve the social order or to protect the weak and vulnerable proceeds on the assumption that the censor knows best and that limiting the choices of media consumers is justified At various times all of the following groups were perceived as needing protection from sexually explicit materials children women the lower classes and foreigners As social and political conditions changed however the simple fact that someone was a woman or a day laborer did not support stereotyping that person as weak or impressionable What would remain as the only acceptable rationale for censorship of sexual materials was the protection of children and unconsenting adults For each mode of media Semonche explains via abundant examples how and why censorship took place in America Censoring Sex also traces the story of how the cultural territory contested by those advocating and opposing censorship has diminished over the course of the last two centuries Yet Semonche argues the censorship of sexual materials that continues in the United States poses a challenge to the free speech that is part of the foundation upon which the nation is built Indeed in an era in which sexual images are pervasive and the need for reliable information about sex and sexuality is growing he questions the remaining rationales for censorship and the justification for placing obscenity outside the protection of the U S Constitution

Gender and Sexual Dissidence on Catalan and Spanish Television Series Silvia Grassi, 2016-09-23 Taking as a starting point an interpretation of the television medium as an Ideological State Apparatus this book examines how gender roles and non heteronormative sexualities are constructed in Spanish and Catalan television series In the first part which focuses on the construction of gender roles in Catalan soap operas it applies the analytical paradigms founded by Anglo Saxon feminist scholars for the content of soap operas to a corpus of material which has rarely been analysed through this perspective In the second part

which focuses on the construction of non heteronormative sexualities in Spanish and Catalan television series the book challenges the rhetoric of normalisation and the essentialist paradigms which have so far dominated the examination of the construction of sexuality in television series As such this book addresses the role performed by television in the construction of meanings which surround gender issues and non heteronormative sexualities This is a timely exercise because gender studies and studies of sexual dissidence are fairly recent fields in Spanish and Catalan academia and television has been largely disregarded especially as far as the analysis of characters and storylines is concerned As a result this book represents a major contribution to these fields in the Spanish and Catalan contexts

Sounds of Change Christopher H. Sterling, Michael C. Keith, 2009-09-15 When it first appeared in the 1930s FM radio was a

technological marvel providing better sound and nearly eliminating the static that plagued AM stations. It took another forty years, however, for FM's popularity to surpass that of AM. In *Sounds of Change*, Christopher Sterling and Michael Keith detail the history of FM from its inception to its dominance for now at least of the airwaves. Initially FM's identity as a separate service was stifled since most FM outlets were AM owned and simply simulcast AM programming and advertising. A wartime hiatus followed by the rise of television precipitated the failure of hundreds of FM stations. As Sterling and Keith explain, the 1960s brought FCC regulations allowing stereo transmission and requiring FM programs to differ from those broadcast on co-owned AM stations. Forced nonduplication led some FM stations to branch out into experimental programming which attracted the counterculture movement, minority groups, and noncommercial public and college radio. By 1979 mainstream commercial FM was finally reaching larger audiences than AM. The story of FM since 1980, the authors say, is the story of radio especially in its many musical formats. But trouble looms. Sterling and Keith conclude by looking ahead to the age of digital radio which includes satellite and internet stations as well as terrestrial stations, suggesting that FM's decline will be partly a result of self-inflicted wounds: bland programming, excessive advertising, and little variety.
