Learning Bodies Julia Coffey, Shelley Budgeon, Helen Cahill, 2016-02-03 Learning Bodies addresses the lack of attention paid to the body in youth and childhood studies Whilst a significant range of work on this area has explored gender class race and ethnicity and sexualities all of which have bodily dimensions the body is generally studied indirectly rather than being the central focus This collection of papers brings together a scholarly range of international interdisciplinary work on youth with a specific focus on the body The authors engage with conceptual empirical and pedagogical approaches which counteract perspectives that view young people's bodies primarily as problems to be managed or as sites of risk or deviance The authors demonstrate that a focus on the body allows us to explore a range of additional dimensions in seeking to understand the experiences of young people The research is situated across a range of sites in Australia North America Britain Canada Asia and Africa drawing on a range of

disciplines including sociology education and cultural studies in the process This collection aims to demonstrate theoretically empirically and pedagogically the implications that emerge from a reframed approach to understanding children and youth by focusing on the body and embodiment

The Many Passions of Michael Hardwick Martin Padgett, 2025-06-03 The little known story of the man who sparked a groundswell of gay activism after a wrongly decided Supreme Court decision Michael Hardwick had no idea that when a police officer stood at his bedroom door on August 3 1982 he would become a face of the gay rights movement Arrested for sodomy Hardwick sued for his right to privacy all the way to the Supreme Court even as the HIV AIDS epidemic began its toll When he lost his era defining case inspired a half million people to protest and the ruling became one of the most reviled of its time Today *Bowers v Hardwick* reverberates again as the rights of privacy underpinning legal abortion contraception and same sex relationships come under fire But the individual Michael Hardwick has faded from memory his story has been relegated to legal arcana with only a pale rendering of his life outside of the Supreme Court case In *The Many Passions of Michael Hardwick* Martin Padgett assembles the complete kaleidoscope of Hardwick's life as a child of Stonewall as an artist and as one of many thousands claimed by the HIV AIDS epidemic Blending biography and history Padgett traces how Hardwick became a political symbol first by chance then by his own choice even when it made him an object of derision and scrutiny From the then unopened archives of legal scholar Laurence Tribe who argued Hardwick's case alongside the ACLU to hours of new interviews with Hardwick's surviving family and friends Padgett emerges with a story of someone who stood up for equality despite the infamy he knew would attach to him He reveals how Hardwick forced America to come to grips with queer people and to acknowledge its moral failures toward some of its most marginalized citizens In *The Many Passions of Michael Hardwick* Martin Padgett reveals the halting shifts in American sexual politics over the last half century posing urgent questions about the deliberations of the Supreme Court and returning to Hardwick the humanity stolen from him decades ago
