**The Riddle of the Image** Spike Bucklow, 2014-03-15 From monumental church mosaics to fresco wall paintings the medieval period produced some of the most impressive art in history But how in a world without the array of technology and access to materials that we now have did artists produce such incredible works often on an unbelievably large scale In *The Riddle of the Image* research scientist and art restorer Spike Bucklow discovers the actual materials and methods that lie behind the production of historical paintings Examining the science of the tools and resources as well as the techniques of medieval artists Bucklow adds new layers to our understanding and appreciation of paintings in particular and medieval art more generally He uses case studies including *The Wilton Diptych* one of the most popular paintings in the National Gallery in London and the altarpiece in front of which English monarchs were crowned for centuries and analyses of these works presenting previously unpublished technical details that shed new light on the mysteries of medieval artists The first account to examine this subject in depth for a general audience *The Riddle of the Image* is a beautifully illustrated look at the production of medieval paintings

**The Riddle in the Poem** Živilė Gimbutas, 2004 *The Riddle in the Poem* is a study of the ramifications of riddles and riddle elements in the context of selected twentieth century poetry It includes works by Francis Ponge Wallace Stevens

Richard Wilbur Rainer M Rilke and Henrikas Radauskas This book enlarges the scope of riddles as a root of lyric by connecting it with the folkloristic concept of riddling essentially a question and answer series and by tracing the influence of the root in poetic methodology The Riddle in the Poem may be defined as an attempt to advance the notion which has been discussed in previous folkloristic and literary studies which riddle as the root of lyric manifests itself in various ways **The Riddles of Harry Potter** Shira Wolosky,2010-12-20 The Riddles of Harry Potter draws readers into the deeper meanings of these phenomenally successful books arguing that they launch and pursue interpretive quests in an ongoing effort to understand patterns and their attendant meanings implications and consequences In Search of the Lost World: The Modernist Quest for the Thing, Matter, and Body Tsaiyi Wu,2023-05-09 From a historical perspective the book studies how modernist artists as the first generation who began to rethink intensively the legacy of German Idealism sought to recreate the self so as to recreate their relationships with the material world Theoretically the book converses with the topical de anthropocentric interests in the 21st century and proposes that the artist may escape human centeredness through the transformation of the self Part One Artificiality begins the discussion with the fin de si cle cult of artificiality where artists such as Theophile Gautier Charles Baudelaire J K Huysmans and Gustave Moreau dedicate themselves to love stony sphinxes marble statues and inorganic appearances The cult of artificiality is a mischievous subversion to Hegel s maxim that inwardness is superior to matter In the cult of artificiality art is superior to nature though art is no longer defined as immaterial imagination but rather reconfigured as mysterious appearances that defy signification and subjugate the feeling heart Part Two Auto philosophical Fiction discusses the genre where the artists Marcel Proust Walter Pater and Virginia Woolf set philosophical ideas in the laboratory of their lives and therefore translate their aesthetic ideals the way they wish to relate to the world into a journey of self examination and self cultivation In Pater s novel Marius the Epicurean the hero explores how a philosophical percept may be translated into sentiments and actions demonstrating that literature is a unique approach to truth as it renders theory into a transformative experience Exploring the latest findings of empiricist psychology the artists seek to escape the Kantian trap by cultivating their powers of reception and to register passing thoughts and sensations Together the book argues that de anthropocentrism cannot be predicated upon a metaphysics that presumes universal subjectivity but must be a form of aesthetic inquiry that recreates the self in order to recreate our relationships with the world *The Kings of the Seven Bells* Marti Talbott,2019-09-29 There was a time when the Carbollo and the Mobbox children played together in the grasslands tossing stones foot racing and solving riddles all designed to prepare them for the days of the seven bells Yet when the Carbollo grew suspicious of the Mobbox the adults no longer allowed it Had it not been so Raxton Carbollo and Nerratel Mobbox might have become fast friends Instead they were destined to be resolute rivals *Roger Bacon and the Sciences* Hackett,2021-10-25 This volume deals with the philosophy and thought of Roger Bacon It is an effort to bring Roger Bacon studies up to date Attention is given to a wide range of topics Bacon s life

and works Bacon's contribution to the trivium language studies and the quadrivium scientific mathematical studies his notion of a science his moral philosophy Bacon's contribution to medicine alchemy astrology Bacon's positions in physics and metaphysics an up dated bibliography of Bacon studies and a review of the state of Bacon Manuscripts The volume situates Roger Bacon in the context of 13th century philosophy and thought as well as demonstrating his importance for later thinkers It is expected that it will be a major new contribution to Medieval and Renaissance Studies
