Morrison, Carroll Spear Morrison, 1970      *Quest for the Golden Circle* Arthur R. Gómez, 2000 Until World War II the Four Corners Region where New Mexico Colorado Utah and Arizona meet was a collection of isolated rural towns In the postwar baby boom era however small communities like Farmington New Mexico became bustling municipalities with rapidly expanding economies In *Quest for the Golden Circle* Arthur Gomez traces the development of the Four Corners two industries mining and tourism to discover how each contributed to the economic and urban transformation of this region during the 1950s and 1960s Focusing on four cities Durango Colorado Moab Utah Flagstaff Arizona and Farmington New Mexico Gomez chronicles how these towns played key roles in the West's dramatic postwar expansion Cities such as Denver Albuquerque Phoenix Tucson El Paso and Salt Lake City all grew through use of the abundant petroleum uranium natural gas timber and other natural resources extracted from the Four Corners region But the energy boom in these towns was not to last With the arrival of foreign oil bringing economic growth to a halt in the early 1970s town leaders turned again to the land to stimulate their economy This time the resource was a seemingly inexhaustible one tourism Gomez examines how business minded citizens marketed the area's scenic wonders and established the entire region as a tourist destination Their efforts were further assisted by the selection of stunning federal lands Mesa Verde Grand Canyon and Arches National Parks as treasures protected and promoted by the National Park Service Both mining and tourism however were beset by complex new problems and issues Extensive highways for instance were planned to bisect a Navajo reservation As Gomez illustrates the growing cities in the Four Corners region felt tremendous competing pressures between outside business powers and local needs as their extractive economy boomed and busted and as they then struggled to attract tourism dollars In addition he highlights the prominent roles played by federal agencies like the Atomic Energy Commission and the National Park Service in shaping regional destiny An outstanding analysis of the complexities of postwar development *Quest for the Golden Circle* successfully illuminates the history of one region within the larger story of the modern American West      The Greek Civil War Spyridon Plakoudas, 2017-05-15 The Greek Civil War 1946 1949 was one of the few instances in the post World War II era of a clear cut and permanent victory by right wing government forces over an insurgent communist movement

Spyridon Plakoudas here explores the factors which ultimately caused the downfall of the communist insurgency in Greece which had at some points seemed undefeatable He questions whether the guerrilla movement fell victim to the feud between Stalin and Tito or whether the significant British and above all American aid in fact rescued the Greek monarchist regime from collapse Plakoudas explores the strategies adopted by government forces in order to counter the communist insurgency how external and internal actors influenced these policies and when how and why these policies achieved success Featuring previously unseen sources and documents this book reveals the strategy and tactics of the monarchist regime

**Natural Attachments** Pollyanna Rhee,2025-05-08 A nuanced analysis takes a California oil spill as its point of departure to show how affluent homeowners pushed for an environmentalism that would protect not only the earth but also property and community norms A massive oil spill in the Pacific Ocean near Santa Barbara California in 1969 quickly became a landmark in the history of American environmentalism helping to inspire the creation of both the Environmental Protection Agency and Earth Day But what role did the history of Santa Barbara itself play in this As Pollyanna Rhee shows the city s past and demographics were essential to the portrayal of the oil spill as momentous Moreover well off and influential Santa Barbarans were positioned to

domesticate the larger environmental movement by embodying the argument that individual homes and families not society as a whole needed protection from environmental abuses This soon would put environmental rhetoric and power to fundamentally conservative not radical ends *Cumulative Bibliography of Asian Studies, 1966-1970* Association for Asian Studies,1973 **Joe Namath, Game by Game** Bryan L.
