**The ^AOxford Handbook of Humanism** Anthony B. Pinn,2021-07-27 As a system of thought that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works

Foucault and the Politics of Rights Ben Golder,2015-10-07 This book focuses on Michel Foucault s late work on rights in order to address broader questions about the politics of rights in the contemporary era As several commentators have observed something quite remarkable happens in this late work In his early career Foucault had been a great critic of the liberal discourse of rights Suddenly from about 1976 onward he makes increasing appeals to rights in his philosophical writings political statements interviews and journalism He not only defends their importance he argues for rights new and as yet unrecognized Does Foucault simply revise his former positions and endorse a liberal politics of rights Ben Golder proposes an answer to this puzzle which is that Foucault approaches rights in a spirit of creative and critical appropriation He uses rights strategically for a range of political purposes that cannot be reduced to a simple endorsement of political liberalism Golder develops this interpretation of Foucault s work while analyzing its shortcomings and relating it to the approaches taken by a series of current thinkers also engaged in considering the place of rights in contemporary politics including Wendy Brown Judith Butler and Jacques Rancière

**The Cambridge Companion to Foucault** Gary Gutting,2005-07-18 For Michel Foucault philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental questions about the nature of human knowledge and its relation to power structures and have become major topics of discussion throughout the humanities and social sciences

The essays in this volume provide a comprehensive overview of Foucault's major themes and texts from his early work on madness through his history of sexuality. Special attention is also paid to thinkers and movements from Kant through current feminist theory that are particularly important for understanding his work and its impact. This revised edition contains five new essays and revisions of many others and the extensive bibliography has been updated. **Icons of Unbelief** S. T. Joshi, 2008-10-30

Discusses the ideas and impact of 27 atheists, agnostics and secularists whose ideas have shaped society over the last 200 years. In the opinion of many critics and philosophers we are entering an age of atheism marked by the waning of Christian fundamentalism and the flourishing of secular thought. Through alphabetically arranged entries written by expert contributors, this book profiles 27 iconic figures of unbelief whose ideas have shaped American society over the last 200 years. Included are entries on influential figures of the past such as Albert Einstein and Voltaire as well as on such contemporary figures as Richard Dawkins and Sam Harris. Each entry discusses the ideas and lasting significance of each person or group, provides sidebars of interesting information and illuminating quotations and cites works for further reading. The volume closes with a selected general bibliography. Students in social studies and history classes will welcome this reference as a guide to the ideas central to the American separation of Church and State and to many of the political debates at the heart of society today. Each entry discusses the ideas and lasting significance of the person or group, provides sidebars of interesting information and quotations and closes with a list of works for further reading. The volume ends with a selected general bibliography. Sartre and Foucault were two of the most prominent and at times mutually antagonistic philosophical figures of the twentieth century. And nowhere are the antithetical natures of their existentialist and poststructuralist philosophies more apparent than in their disparate approaches to historical understanding. A history thought Foucault should be a kind of map, a comparative charting of structural transformations and displacements. But for Sartre, authentic historical understanding demanded a much more personal and committed narrative, a kind of interpretive diary of moral choices and risks compelled by critical necessity and an exacting reality. Sartre's history, a rational history of individual lives and their intrinsic social worlds, was in essence immersed in biography. In Volume One of this authoritative two-volume work, Thomas R. Flynn conducts a pivotal and comprehensive reconstruction of Sartrean historical theory and provocatively anticipates the Foucauldian counterpoint to

*Volume 19, Tome II: Kierkegaard Bibliography* Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies

[Cross and Khôra](#) Marko Zlomislić, Neal DeRoo, 2010-01-01 This volume poses the question of the relationship between the two main influences on the thought of John D Caputo one of the most well known philosophers of religion working in North America today Jacques Derrida and Jesus Christ Given the seemingly abstract character of Derrida's account of the messianic how can one reconcile deconstruction and the concrete messianism

of Christianity as Caputo tries to do over and over again How can one hold together the love of a God willing to be crucified and the dry desert khora which doesn't care This collection of essays from world renowned scholars seeks to illuminate the difficulties inherent in this seemingly contradictory pair of influences With his trademark wit and humor Caputo responds to his interlocutors while clarifying his position on numerous matters of interest to the church and in the academy In addition to dealing with the concern for issues of hermeneutics phenomenology and negative theology for which Caputo has become famous these essays also evaluate Caputo's legacy in fields previously not thought to be affected by his deconstructive version of religion feminism sacramental theology Analytic philosophy of religion and Christology Transhumanism as a Challenge for Ethics and Religion LIT Verlag, 2021-01-01 The crucial question of our time is How to preserve humanity humanitas in a world of radical and not so long ago practically unimaginable technological possibilities The book addresses this issue through its treatment of transhumanism a diverse movement the representatives of which promise and advocate for the enhancement of human being through modern science technology and pharmacology Their views differ in the degree of extremity and they contain many ambiguities as well as pitfalls and dangers that require an answer from both ethical and religious points of view The book deepens the understanding of transhumanism in an interdisciplinary way and thus helps to form the right attitude towards it that will truly benefit human flourishing It offers a rich variety of views on transhumanism ranging from its illumination in the light of contemporary research into happiness through liberal eugenics and biopolitics all the way to its considerations in terms of religions and manifestations in concrete works of art Robert Petkov ek is Professor of Philosophy at the Faculty of Theology University of Ljubljana Professor Bojan alec is the Head of the Institute of Philosophy and Social Ethics at the Faculty of Theology University of Ljubljana **Bonhoeffer's Questions** John W. de Gruchy, 2019-11-08 While in prison during the Third Reich Dietrich Bonhoeffer raised several core questions in his correspondence with his close friend Eberhard Bethge How shall future generations live Who is Jesus Christ actually for us today What does it mean to be truly human And who am I In Bonhoeffer's Questions John W de Gruchy explores the development of each question in the course of Bonhoeffer's life how he attempted to answer them and how each prompted further questions in an ongoing conversation with himself with others and now with us today De Gruchy does this within the framework of his own life long and life changing conversation with Bonhoeffer in the context of South Africa from the beginning of the apartheid era to the present day He also describes how he has come to know Bonhoeffer as a theological witness to Christ a prophet of God's justice and a Christian humanist before proceeding with a series of questions addressed to Bonhoeffer with the reader in mind These range from the debate about God and the future of Christianity to the involvement of Christians and the church in political struggles today **Eros for the Other** Wendy Farley, 2010-11-01
