Questioning Media Ethics:

Questioning Media Ethics Bernard Rubin, 1978 **Questioning Media Ethics** Bernard Rubin, 1978 **Online Journalism Ethics** Cecilia Friend, Jane Singer, 2015-03-26 Online media present both old and new ethical issues for journalists who must make decisions in an interactive instantaneous environment short on normative standards or guidelines This user friendly book guides prospective and professional journalists through ethical questions encountered only online Including real life examples and perspectives from online journalists in every chapter the book examines the issues of gathering information reporting interviewing and writing for mainstream news organizations on the Web It considers the ethical implications of linking interactivity verification transparency and Web advertising as well as the effects of convergence on newsrooms It also addresses the question of who is a journalist and what is journalism in an age when anyone can be a publisher Each chapter includes a complex case study that promotes critical thinking and classroom discussion about how to apply the ethical issues covered Media Ethics and Accountability Systems Claude-Jean Bertrand, 2018-04-17 Over the last few years the O J Simpson case then the Lewinsky Clinton affair and scores of minor scandals have dominated the US press often taking precedence over important domestic and international issues This tabloidization of the news media both here and abroad has proved that the market cannot insure media quality In a democracy for media to function well they must be free of both political and economic muzzling The only solution is to add self regulation or quality control by professionals and public to the other two forces the market and state regulation In this controversial volume Claude Jean Bertrand sets out to define a set of accountability systems democratic efficient and harmless to insure true freedom and quality of media This brief highly literate volume focuses not on philosophical foundations of media ethics or case stories but on what is now missing in the codes Many books deal with media ethics but few deal with accountability Media Ethics and Accountability Systems zeroes in on the many nongovernmental methods of enforcing quality control and on the difficulty of getting the media microcosm to accept such accountability To remedy this lack Bertrand proposes rethinking existing media accountability systems some 30 to 40 in number and creation of new ones He observes that existing systems are rooted in four basic approaches training the education of citizens in media use and the incorporation of ethics courses in journalistic education evaluation criticism positive and negative not only from politicians consumerists and intellectuals but from media professionals themselves monitoring by independent academic experts over extended periods of time into the long term effects and feedback giving ear to the various segments of media users and their needs and tastes rather than scrutinizing sales and ratings Media Ethics will be of particular interest to academics in the fields of communication and journalism as well as to the general reader with an interest in public issues and a civic concern for society *Ethical Issues in Journalism and the Media* Andrew Belsey, Ruth Chadwick, 2002-09-11 This book examines the ethical concepts which lie at the heart of journalism including freedom democracy truth objectivity honesty and privacy The
