Gulbahar H. Beckett, Gerard A. Postiglione, 2013-06-17 China has huge ethnic minorities over 40 different groups with a total population of over 100 million Over time China's policies towards minority languages have varied changing from policies which have accommodated minority languages to policies which have encouraged integration At present integrationist policies predominate notably in the education system where instruction in minority languages is being edged out in favour of instruction in Mandarin Chinese This book assesses the current state of indigenous and minority language policy in China It considers especially language policy in the education system including in higher education and provides detailed case studies of how particular ethnic minorities are being affected by the integrationist or assimilationist approach *China's National Minority Education* Gerard A. Postiglione, 2013-10-15 This volume focuses on policies and practices in the education of China's national minorities with the purpose of assessing the goals and impact of state sponsored education for China's non Han people's The essays in the four sections of this book examine cultural challenges to state schooling the extent of educational

provision in minority areas the perspectives of Tibetan and Uyghur minorities toward state education along with providing case studies of four national minorities The book makes the point that despite the authoritarian character of China's state schooling diversity reigns

Ethnicity and the State Judith D. Toland, 2017-07-28 Modern states have evolved as complex political structures in which unitary forms of government maintain an uncertain equilibrium with ethnically plural societies Historically ruling elites have tried with little success to eradicate ethnicity through genocide bury it under accusations of tribalism discredit it with the mind frame of modernization or confine it to local rather than national political arenas This broad ranging volume examines the dynamics of ethnic manipulation and accommodation by dominant and subordinate groups in the state building process Ethnicity and the State reflects the widely varying political contexts and cultures in which reasons of state contend with unyielding ethnic allegiances European South American Asian and Middle Eastern examples reveal a consistent set of themes and attitudes The authors find that while the state must realize its authority and stability through a strictly defined charter of rights and values ethnic identity exercises its power more freely and flexibly The sense of peoplehood may be artificially constructed in response to immediate need or it may be ancient and organic growing over time It has the potential to cut across race class and gender Its central tenets and myths may be reinterpreted recreated enlarged upon or modified as the political situation warrants Flexibility of belief and the need to identify with a larger group account both for the durability of ethnic loyalty and its vulnerability to manipulation This volume is particularly timely at a moment when national governments in many parts of the world must face the adoption of more equitable forms of rule to hold their ethnically diverse societies together Taken together the analyses presented here warn against institutionalizing ethnic strife and offer a vision of how the state may foster expectations and policies that serve the interests of all ethnic groups within their borders Political scientists historians and anthropologists will find this book valuable for its interpretations of forces that continue to reshape the social and political fabric of the world

Minority Rules Louisa Schein, 2000 Gender ethnicity and nation in China as seen through an ethnography of the changing cultural production of the Miao a minority population

China's Post-jiang Leadership Succession: Problems And Perspectives John Wong, Yongnian Zheng, 2002-10-25 The lack of institutionalization around China's leadership succession was brought into focus again in the run up to the 16th Congress of the Chinese Communist Party and the widespread speculation on the final leadership line up The essays in this volume take a more analytical approach This book first looks at the political structures of leadership transition in China and secondly seeks to understand the real and potential problems that China's younger fourth generation leaders will have to grapple with as they take over the reigns of power

State and Society in 21st Century China Peter Hays Gries, Stanley Rosen, 2004-08-02 Written by a team of leading China scholars this book explores the dynamics of state power and legitimation in twenty first century China and the implications of changing state society relations for the future viability of the People's Republic Key subjects covered include the legitimacy of the Communist Party

state society relations ethnic and religious resistance rural and urban contention nationalism popular and youth culture prospects for democracy *Ethnic Minority Languages in China* Qingsheng Zhou, 2020-09-21 This book describes and analyzes the situation of minority languages in China
