**Agents for Games and Simulations II** F. Dignum, 2011-01-14 While today s game engines and multi agent platforms cross fertilize each other to some extent the technologies used in these areas are not readily compatible due to some differences in their primary concerns Where game engines prioritize efficiency and central control multi agent platforms focus on agent autonomy and sophisticated communication capabilities This volume gives an overview of the current state of the art for people wishing to combine agent technology with serious games This state of the art survey contains a collection of papers presented at AGS 2010 the Second International Workshop on Agents for Games and Simulations held on May 10 2010 in Toronto as well as extended versions of papers from other workshops and from the AAMAS conference The 14 papers are organized in three topical sections focusing on architectures combining agents and game engines on the training aspects of the games on social and organizational aspects of games and agents respectively

designers writers and narrative designers who are interested in making games with sexual content It will also appeal to artists cutscene directors audio engineers composers and programmers working on these games or really any game developer with an interest in the topic     *Africa's Social and Religious Quest* Randee Ijatuji-Morphé,2014-01-30 This well crafted book probes the key dimensions of Africa s existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa s social and religious quest Beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality politics and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re signifies life and wholeness as a true end of Africans quest today     *The Quest* ,1921     **The Hero's Quest and the Cycles of Nature** Rachel S. McCoppin,2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero s message is not to dwell on death

**Allegorical Quests from Deguileville to Spenser** Marco Nievergelt,2012 An examination of sixteenth century quest narratives focussing on their conscious use of a medieval tradition to hold a mirror up to contemporary culture Offers the first full study of the allegorical knightly quest tradition from the Middle Ages to the Renaissance Richly satisfying as impressive in the detail of its scholarship as in the elegance of its critical formulations It seamlessly moves between different literary traditions and across conventional period boundaries In Dr Nievergelt s treatment of this theme the successive retellings of the tale of the knight s quest come to stand as an emblem of shifting values and norms both religious and worldly and of our repeated failures to realise those ideals Dr Alex Davis Department of English University of St Andrews The literary motif of the allegorical knightly quest appears repeatedly in the literature of the late medieval early modern period notably in Spenser but has hitherto been little examined Here in his examination of a number of sixteenth century English allegorical chivalric quest narratives focussing on Spenser s *Faerie Queene* but including important lesser known works such as Stephen Bateman s *Travayled Pylgrime* and William Goodyear s *Voyage of the Wandering Knight* the author argues that the tradition

begins with the French writer Guillaume de Deguileville His seminal *Plerinage de la vie humaine* was composed c 1331 1355 it was widely adapted translated rewritten and printed over the next centuries Dr Nievergelt goes on to demonstrate how this essentially medieval literary form could be adapted to articulate reflections on changing patterns of identity society and religion during the early modern period and how it becomes a vehicle of self exploration and self fashioning during a period of profound cultural crisis Dr Marco Nievergelt is Lecturer Maître Assitant and SNF Swiss National Science Foundation Research Fellow in the English Department at the Université de Lausanne

**Topics in Artificial Intelligence** Riichiro Mizoguchi, John Slaney, 2007-12-07 PRICAI 2000 held in Melbourne Australia is the sixth Pacific Rim International Conference on Artificial Intelligence and is the successor to the five earlier PRICAIs held in Nagoya Japan Seoul Korea Beijing China Cairns Australia and Singapore in the years 1990 1992 1994 1996 and 1998 respectively PRICAI is the leading conference in the Pacific Rim region for the presentation of research in Artificial Intelligence including its applications to problems of social and economic importance The objectives of PRICAI are To provide a forum for the introduction and discussion of new research results concepts and technologies To provide practising engineers with exposure to and an evaluation of evolving research tools and practices To provide the research community with exposure to the problems of practical applications of AI and To encourage the exchange of AI technologies and experience within the Pacific Rim countries PRICAI 2000 is a memorial event in the sense that it is the last one in the 20 century It reflects what researchers in this region believe to be promising for their future AI research activities In fact some salient features can be seen in the papers accepted We have 12 papers on agents while PRICAI 96 and 98 had no more than

two or three This suggests to us one of the directions in which AI research is going in the next century It is true that agent research provides us with a wide range of research subjects from basic ones to applications *Death and Digital Media* Michael Arnold, Martin Gibbs, Tamara Kohn, James Meese, Bjorn Nansen, 2017-11-22 *Death and Digital Media* provides a critical overview of how people mourn commemorate and interact with the dead through digital media It maps the historical and shifting landscape of digital death considering a wide range of social commercial and institutional responses to technological innovations The authors examine multiple digital platforms and offer a series of case studies drawn from North America Europe and Australia The book delivers fresh insight and analysis from an interdisciplinary perspective drawing on anthropology sociology science and technology studies human computer interaction and media studies It is key reading for students and scholars in these disciplines as well as for professionals working in bereavement support capacities *The Holy Grail* Arthur Edward Waite, 2006-01-01 The Grail legend is the centerpiece of Arthurian literature and this classic work by the renowned scholar Arthur Edward Waite ranks among the most informative and profound books ever written on the subject While the myths surrounding the Holy Grail are seemingly in harmony with orthodox religion Waite reveals that beneath their pious surface they are as subversive as any other form of mysticism illustrating the symbolic nature of doctrinal teachings no more intended for literal interpretation than is any fiction With this informative study Waite restores the full and true meaning of the knightly quests for honor and adventure as journeys of the soul **Quests** Sylvia Hortense Bliss, 1920 Global Failure and World Literature Karen Borg Cardona, 2023-10-24 While the contemporary era has witnessed a series of spectacular failures with severe and widespread global consequences failure is still broadly understood on an individual level while its broader causes and consequences receive little attention This book reconceptualises failure as a method for characterising and critiquing systems and institutions on both a global and a local level It defines global failure as comprising global inequality economic crisis and ecological disaster and as a condition which informs and is informed by localised failure It examines the negotiation between global and local failure in narratives of failed quests by four contemporary authors Cormac McCarthy Julia Kristeva Michael Ondaatje and Basma Abdel Aziz As a genre the quest narrative is associated with the idea of hard won success The failed quest narrative or the narrative of the failed quest is therefore the ideal vehicle through which to examine the socio political and institutional conditions of failure Primarily a contribution to the field of world literature this book is also relevant to those with an interest in the contemporary novel failure studies and the quest narrative **Staging Don DeLillo** Rebecca Rey, 2016-03-31 The first book length study to focus on Don DeLillo's plays *Staging Don DeLillo* brings the author's theatre works to the forefront Rebecca Rey explores four central themes that emerge across DeLillo's theatre oeuvre the centrality of language the human fear of death the elusiveness of truth and the deceptive slippery nature of personal identity Rey examines all seven of DeLillo's plays chronologically *The Engineer of Moonlight* 1979 *The Day Room* 1986 the one minute plays *The Rapture of the Athlete*

Assumed Into Heaven 1990 and The Mystery at the Middle of Ordinary Life 2000 Valparaiso 1999 Love Lies Bleeding 2006 and The Word for Snow 2014 Written in clear accessible language and interweaving critique of DeLillo's novels throughout this book will appeal not only to DeLillo scholars but also to anyone working on contemporary literature and drama

The Aesthetics of Net Literature Peter Gendolla, Jörgen Schäfer, 2015-07-15 During recent years literary texts in electronic and networked media have been a focal point of literary scholarship using varying terminology In this book the contributions of internationally renowned scholars and authors from Germany USA France Finland Spain and Switzerland review the ruptures and upheavals of literary communication within this context The articles in the book focus on questions such as In which literary projects can we discover a new quality of literariness What are the terminological and methodological means to examine these literatures How can we productively link the logics of the play of literary texts and their reception in the reading process What is the relationship of literary writing and programming With contributions by
