Fr Lance Tomas was the ideal flawless priest whose youthfulness and personality gained him favor in a small Wisconsin town that is until an act of God took his memory away and being a priest or himself was more of a challenge than a lifestyle Taking the necessary small steps to regain who he was Fr Lance Tomas goes on a journey of his past the priesthood and his region now seeing an entirely new world instead of pleasantries and smiles he now sees a world in need of God Now more determined than ever to regain his knowledge of the priesthood he struggles with his own thoughts questions while befriending a rosary maker single mother named Tammy He finds her to be a part of his past his present and his future He soon realizes that he is drawn to her almost attracted in away to her religious views and enjoyable personality Will he be forced to choose between her the priesthood or with the stroke of the Pope's pen will he be able to have both

**The Horological Journal**, 1883      **A Peddler's Tale**

Kristine Wirts, 2024-03-13 In 1685 the revocation of the Edict of Nantes made Catholicism the only recognized religion in France and criminalized the practice of Calvinism throwing the minority Protestant population into crisis A Peddler's Tale personifies these events in the story of Jean Giraud a Protestant merchant peddler and his various communities Drawing on Giraud's account book municipal parish and consistory records and death inventories Kristine Wirts ably reconstructs Giraud's familial commercial and religious circles She provides a detailed description of the persecution of Giraud and his fellow church members in La Grave France as well as their flight across the Alps to Vevey Switzerland The town's residents did not welcome all refugees equally often expelling Huguenots without social connections or financial resources Those allowed to stay worked diligently to reestablish their lives and fortunes Once settled in Vevey Giraud and his extended family supported themselves by moneylending and peddling books watch parts and lace products In contrast to past studies on the Huguenot diaspora that often depicted those fleeing France in heroic terms A Peddler's Tale exposes the harsh economic realities many exiles faced as well as the importance of social relationships and the necessity of having financial means to secure passage and sanctuary Wirts contends that Huguenot refugees who succeeded in obtaining permanent residency in Vevey shared one important element many derived their livelihood from the burgeoning economic ties and social bonds that emerged with the rise of capitalist markets A compelling microhistory A Peddler's Tale ultimately illustrates the role and power of informal networks in sustaining and fostering early modern communities

Catherine of Aragon Theresa Earenfight, 2021-12-15

Catherine of Aragon is an elusive subject Despite her status as a Spanish infanta Princess of Wales and Queen of England few of her personal letters have survived and she is obscured in the contemporary royal histories In this evocative biography Theresa Earenfight presents an intimate and engaging portrait of Catherine told through the objects that she left behind A pair of shoes a painting a rosary a fur trimmed baby blanket each of these things took meaning from the ways Catherine

experienced and perceived them Through an examination of the inventories listing the few possessions Catherine owned at her death Earenfight follows the arc of Catherine s life first as a coddled child in Castile then as a young adult alone in England after the death of her first husband a devoted wife and doting mother a patron of the arts and of universities and finally a dear friend to the women and men who stood by her after Henry VIII set her aside in favor of another woman Based on traces and fragments these portraits of Catherine are interpretations of a life lived five centuries ago Earenfight creates a compelling picture of a multifaceted intelligent woman and a queen of England Engagingly written this cultural and emotional biography of Catherine brings us closer to understanding her life from her own perspective **Theory's**

**Practice: Reflections on Technology in Germany around 1800** Jocelyn Holland,2025-06-19 What is technology When we grapple with this question we try to understand something fundamental about humanity given that technical objects and practices inform every aspect of our lives The focus in this study on late eighteenth and early nineteenth century Germany underscores a pivotal moment in technology s conceptual history and offers a fresh perspective The translations and interpretive essays in this volume show how those writers engaged with technology reflected on its history and innovations even as they engaged in more speculative thinking Their work definitive of a historical epoch can still speak to us today

**The Violin-makers of the Guarneri Family, 1626-1762** William Henry Hill,Arthur Frederick Hill,Alfred Ebsworth Hill,1989-01-01 A family history of the legendary violinmakers of Mantua Cremona and Venice and the definitive commentary on their craftsmanship Includes 131 photographs 16 in full color **Building the King's Highway** Bruce A.

Castleman,2005-04-01 The importance of the silver trade to the Spanish colonial effort is well documented as it opened up an exchange of goods with Europe and Asia Lesser known is the story of the roads on which this trade moved and the people responsible for building them Focusing on the camino real linking Mexico City and the port of Veracruz Bruce Castleman has written a social history of road construction laborers in late Bourbon Mexico He has drawn on employment and census records to study a major shift in methods used by the Spanish colonial regime to mobilize the supply of unskilled labor and concomitant changes in the identities those laborers asserted for themselves Through a close analysis of wages actually paid to named individuals from one week to the next Castleman opens a new window on Mexican history In the 1760s a free wage labor regime replaced a draft labor system and by examining records of road construction he traces both this transformation and its implications During this time free wage artisans saw their earnings reduced and they were pushed into the labor pool and Castleman reveals how a shift occurred in the way that laborers identified themselves as the Spanish casta system of racial classification became increasingly fluid In his study Castleman introduces some of the principle players of eighteenth century Mexico from viceroys to tobacco planters to military engineers He then fleshes out the lives of working persons drawing on a complete set of construction records from the construction of the Puente de Escamela at Orizaba to forge a collective biography that considers their existences apart from the workplace By linking census and employment records he

uncovers a host of social indicators such as marriage preference family structure and differences over time in how the caste system was used to classify people according to ancestry As Castleman shows roads did not so much link Mexico to the global economy as forge regional markets within New Spain and his work provides an astute analysis of struggles between the Bourbon colonial state the important consulados of Mexico City and Veracruz and more localized interests over road policy More important Building the King s Highway provides a valuable new perspective on people s lives as it advances our understanding of labor in late colonial Latin America

### **Ivory and the Elephant in Art, in Archaeology, and in Science**

George Frederick Kunz,1916 *Marine Products of Commerce* Donald Kiteley Tressler,Ward Taft Bower,1923 Excerpt from preface This book is designed for both the scientific and the practical man It attempts to give the chemist and biologist a general survey of the fishery industries pointing out their relative importance indicating their location and describing the methods in common use There has been no attempt to consider all the methods of the fisheries if this were attempted a lengthy treatise such as G Brown Goode s Fisheries and fishery industries of the United States would result By reading this book the practical man may learn how chemistry and biology are correlated with the fishery industries Simple language is used throughout But few technical terms are included and care is taken to define those terms which may not be familiar to the layman The author hopes that this book may fill the long felt need of the student of industrial biology for a concise treatise on the fishery industries These industries have been considered from a scientific viewpoint and while it is impossible to go into great detail in describing the applications of chemistry physics and biology in the preparation and preservation of marine products the applications are outlined and references to the original literature are given which should serve as a guide for study In all cases special consideration is given to American methods and processes Obviously it is impossible to treat of the technology of the marine products industries in all parts of the world however especially important foreign industries are described A special effort is made to describe carefully the manufacture and refining of solar sea salt It is hoped that the information presented will be of value not only to the student of industrial chemistry and the marine industries but also to the salt manufacturer It is hoped that the book may call attention to the great need for chemical and biological research to solve the numerous problems of the fishery industries Several of these problems are brought to the attention of the reader in the last chapter
