A History of Prejudice Gyanendra Pandey, 2013-03-25 This is a book about prejudice and democracy and the prejudice of democracy In comparing the historical struggles of two geographically disparate populations Indian Dalits once known as Untouchables and African Americans Gyanendra Pandey the leading subaltern historian examines the multiple dimensions of prejudice in two of the world's leading democracies The juxtaposition of two very different locations and histories and within each of them of varying public and private narratives of struggle allows for an uncommon analysis of the limits of citizenship in modern societies and states Pandey with his characteristic delicacy probes the histories of his protagonists to uncover a shadowy world where intolerance and discrimination are part of both public and private lives This unusual and sobering book is revelatory in its exploration of the contradictory history of promise and denial that is common to the official narratives of nations such as India and the United States and the ideologies of many opposition movements

Remembering the Past in Contemporary African American Fiction Keith Byerman, 2006-05-18 With close readings of more than twenty novels by writers including Ernest Gaines Toni Morrison Charles Johnson Gloria Naylor and John Edgar Wideman Keith Byerman examines the trend among African American

novelists of the late twentieth century to write about black history rather than about their own present. Employing cultural criticism and trauma theory, Byerman frames these works as survivor narratives that rewrite the grand American narrative of individual achievement and the march of democracy. The choice to write historical narratives, he says, must be understood historically. These writers earned widespread recognition for their writing in the 1980s, a period of African American commercial success as well as the economic decline of the black working class and an increase in black on black crime. Byerman contends that a shared experience of suffering joins African American individuals in a group identity and writing about the past serves as an act of resistance against essentialist ideas of black experience shaping the cultural discourse of the present. Byerman demonstrates that these novels disrupt the temptation in American society to engage history only to limit its significance or to crown successful individuals while forgetting the victims.

Writers of Multicultural Fiction for Young Adults M. Daphne Kutzer, 1996-01-09 Multicultural fiction is an essential part of the American literary landscape. This reference helps scholars, teachers, and librarians choose significant texts from both the past and present and provides guidance in approaching multicultural issues as they are discussed in fiction for young adults. Included are entries for 51 writers, some of whom have nearly been forgotten, others who are just emerging. Each entry provides biographical, critical, and bibliographical information, while a general bibliography of works on multicultural literature concludes the book. Authors included range from the nearly forgotten, such as Laura Adams Armer, to the newly discovered, such as Graham Salisbury, winner of the 1994 Scott O' Dell Award for Historical Fiction. The breadth of authors covered ensures an historical context for the issues raised by multiculturalism, and the sections on the critical reception of each author address such important issues as the authority and authenticity of the writer to comment on a different culture. Contributors are of many different ethnicities and include important scholars of children's literature, lending authenticity and authority to the volume itself.

Saints, Sinners, Saviors T. Harris, 2016-04-30 *Saints Sinners Saviors: Strong Black Women in African American Literature* posits strength as a frequently contradictory and damaging trait for black women characters in several literary works of the twentieth century. Authors of these works draw upon popular images of African American women in producing what they believe to be safe literary representations. Instead, strength becomes a problematic trait at times a disease in many characters in which it appears. It has a detrimental impact on the relatives and neighbors of such women as well as on the women themselves. The pattern of portraying women characters as strong in African American literature has become so pronounced that it has stifled the literature.

Afro-American Literary Study in the 1990s Houston A. Baker (Jr.), Patricia Redmond, 1989 Featuring the work of the most distinguished scholars in the field, this volume assesses the state of Afro-American literary study and projects a vision of that study for the 1990s. A rich and rewarding collection. Choice This diverse and inspired collection testifies to the Afro-Am academy's extraordinary vitality. Voice Literary Supplement

South of Tradition Trudier Harris, 2010-04-15 With characteristic originality and insight, Trudier Harris Lopez offers a new and

challenging approach to the work of African American writers in these twelve previously unpublished essays Collectively the essays show the vibrancy of African American literary creation across several decades of the twentieth century But Harris Lopez s readings of the various texts deliberately diverge from traditional ways of viewing traditional topics South of Tradition focuses not only on well known writers such as Zora Neale Hurston Ralph Ellison James Baldwin and Richard Wright but also on up and coming writers such as Randall Kenan and less known writers such as Brent Wade and Henry Dumas Harris Lopez addresses themes of sexual and racial identity reconceptualizations of and transcendence of Christianity analyses of African American folk and cultural traditions and issues of racial justice Many of her subjects argue that geography shapes identity whether that geography is the European territory many blacks escaped to from the oppressive South or the South itself where generations of African Americans have had to come to grips with their relationship to the land and its history For Harris Lopez south of tradition refers both to geography and to readings of texts that are not in keeping with expected responses to the works She explains her point of departure for the essays as a slant an angle or a jolt below the line of what would be considered the norm for usual responses to African American literature The scope of Harris Lopez s work is tremendous From her coverage of noncanonical writers to her analysis of humor in the best selling *The Color Purple* she provides essential material that should inform all future readings of African American literature

Contemporary Black Men's Fiction and Drama Keith Clark, 2001 Demonstrating the extraordinary versatility of African American men's writing since the 1970s this forceful collection illustrates how African American male novelists and playwrights have absorbed challenged and expanded the conventions of black American writing and with it black male identity From the John Henry Syndrome a definition of black masculinity based on brute strength or violence to the submersion of black gay identity under equations of gay with white and black with straight the African American male in literature and drama has traditionally been characterized in ways that confine and silence him Contemporary Black Men's Fiction and Drama identifies the forces that limit black male discourse including traditions established by iconic African American male authors such as James Baldwin Richard Wright and Ralph Ellison This thoughtful volume also shows how contemporary black male authors use their narratives to put forward new ways of being and knowing that foster a more complete sense of self and more humane and open ways of communicating with and relating to others In the work of Charles Johnson Ernest Gaines and August Wilson contributors find paths toward broader less rigid ideas of what black literature can be what the connections among individual and communal resistance can be and how black men can transcend the imprisoning models of hyper masculinity promoted by American culture Seeking greater spiritual connection with the past John Edgar Wideman returns to the folk rituals of his family while Melvin Dixon and Brent Wade reclaim African roots and traditions Ishmael Reed struggles with a contemporary cultural oppression that he sees as an insidious echo of slavery while Clarence Major's experimental writing suggests how black men might reclaim their own voices in a culture that silences them Taking in a wide range of critical theoretical cultural gender and sexual concerns Contemporary Black Men's Fiction and Drama provides provocative new readings of a broad range of contemporary writers
