Rough Waters Silvia Marzagalli, James R. Sofka, John McCusker, 2017-10-18 This study analyses the presence of American ships, merchants, and interests in the Mediterranean region in the first decades following the independence of the United States and seeks to understand whether or not the English, Dutch, Scandinavians, and Americans invaded the region and its shipping industry in the eighteenth and nineteenth centuries. It considers the following topics: the benefit of American neutrality during the French Revolutionary wars, which enabled the growth of their shipping activities; the organisation of protection for American ships post-independence, particularly from Barbary privateers; the diplomatic efforts of John Adams and Thomas Jefferson; and the relationships of convenience fostered by American powers when requesting European assistance, the development of American consular services to assist merchants and captains, the avoidance of incidents through peace and commercial treaties, through to ship seizures and crew enslavement, and the impact of the Tripolitanian War or Barbary War on American Mediterranean shipping. The works in this volume attempt to determine whether or not these actions can be considered an invasion. They explore the mutually beneficial aspects of American Mediterranean trade whilst also considering the strength of the Mediterranean trade, particularly Greek, prior to American interference. It concludes by confirming the dual objectives of the American presence: to ensure open markets for their goods and to enhance their political and military power against British, French, and North African regencies.

Rough Waters Christine J. Walley, 2010-01-01 *Rough Waters* explores one of the most crucial problems of the contemporary era: struggles over access to and use of the environment. It combines insights from anthropology, history, and environmental studies.

mounting an interdisciplinary challenge to contemporary accounts of globalization The book focuses on Mafia Island Marine Park a national park in Tanzania that became the center of political conflict during its creation in the mid 1990s The park reflecting a new generation of internationally sponsored projects was designed to encourage environmental conservation as well as development Rather than excluding residents as had been common in East Africa's mainland wildlife parks Mafia Island was intended to represent a new type of national park that would encourage the participation of area residents and incorporate their ideas While the park had been described in the project's general management plan as for the people and by the people residents remained excluded from the most basic decisions made about the park The book details the day to day tensions and alliances that arose among Mafia residents Tanzanian government officials and representatives of international organizations as each group attempted to control and define the park Walley's analysis argues that a technocentric approach to conservation and development can work to the detriment of both poorer people and the environment It further suggests that the concept of the global may be inadequate for understanding this and other social dramas in the contemporary world

Rough Waters Rodney P Carlisle, 2017-01-15 Rough Waters traces the evolution of the role of the U S merchant ship flag and the U S merchant fleet itself Rodney Carlisle looks at conduct and commerce at sea from the earliest days of the country when battles at sea were fought over honor and the flag to the current American owned merchant fleet sailing under flags of convenience via foreign registries Carlisle examines the world wide use legality and continued acceptance of this practice as well as measures to offset its ill effects Looking at the interwar period of 1919 1939 Carlisle examines how the practice of foreign registry of American owned vessels began on a large scale led by Standard Oil with tankers under the flag of the Free City of Danzig and followed by Panama The work spells out how the United States helped further the practice of registry in Panama and Liberia after World War II Rough Waters concludes with a look at how the practice of foreign registry shapes present day commerce and labor relations

Rough Waters and Other Stories Richard Lebow,2023-11-24 Rough Waters and Other Stories is a collection of original stories addressing different ethical questions and dilemmas An introduction makes connections among the stories puts them in personal and political perspective and anchors them in a tragic understanding of life and ethics The characters in Rough Waters and Other Stories some based on real historical people must make or finesse ethical choices some of them straight forward others tragic in nature Tragic choices involve trade offs between seemingly irreconcilable but important goals Alternatively they entail committing ourselves to decisions or policies whose outcomes are uncertain We are desperate to avoid tragic choices and prone to convince ourselves often in the face of good evidence that we can satisfy all of our desires or needs instead of making difficult choices between or among them We also tend to convince ourselves that our decisions or policies will succeed in proportion to the degree that we feel compelled to commit to them A standard trope of Greek tragedy think here of Oedipus is that our choices sometimes lead directly to the outcomes we are trying desperately to avoid

Cabin Boys, Milkmaids, and Rough Seas Jessica M. Floyd, 2024-08-30 During his correspondence with erotic folklore collector Gershon Legman famed chanter singer and collector Stan Hugill 1906 1992 shared unexpurgated versions of the songs in his repertoire These bawdy songs were meant to be a part of Legman's larger project concerning erotic folksong Upon Legman's death in 1999 the unfinished and unpublished manuscript sank into obscurity and was believed by many to be permanently lost Thankfully this holy grail of chanter texts had been safe in the private collection of Legman's widow Judith Legman all along *Cabin Boys Milkmaids and Rough Seas Identity in the Unexpurgated Repertoire of Stan Hugill* is the first critical investigation of this repository reproduced here for the first time Training an interdisciplinary lens on twenty four unexpurgated texts author Jessica M. the kaleidoscopic representation of gender and sexuality in this finite repertoire Each inquiry is connected and overlapping demonstrating an ebb and flow not unlike the waters on which the songs were sung Words of warning heteronormative economies and queer undercurrents each collide to present an image of sailing life that is nuanced and complicated provocative and evocative transgressive and sometimes radical The volume allows scholars to place a finger on the pulse of maritime life feeling and experiencing one voice among the din of working class song traditions *Rough Seas Calm* Nakoa Rainfall, AI, 2025-02-27
