First Electric Guitar Nikolay Rantsev, 2019-11-14 What drives you to get your first electric guitar Who inspires you to start playing For me it was Metallica's lead guitarist Kirk Hammett I couldn't imagine that it's possible to play his solo but let's go to your motivation According to Fender's research about 90% of beginner guitarists leaving their instruments on the shelves after the first year of playing Well but this year can bring something incredible in our lives And these first steps must be cool It's so necessary to have fun and feel positive feedback from practicing at the beginning You must love your first electric guitar to feel good Your musical preferences might change during your initial education most likely your musical vocabulary will grow faster than you can afford a new instrument So the first baby is something you have to fall in love with The world of electric guitars is for the geeks now days Search a little bit about this industry you'll be surprised that industry is struggling sometimes Yes electric guitar is the live natural instrument You have to play it It doesn't play itself If you want to buy an electric guitar not a synth or software you want to join the great world of the real culture What is the future of electric guitars I don't know But I strongly believe and know that learning to play electric guitar makes our life better and richer I wish all folks reading this book to be able to buy as many electric guitars as needed but let's focus on the one Your first electric guitar Well the universe of electric guitars is mature a variety of instruments on the market is huge However the structure of this universe is pretty elegant and simple We'll be clear on that and why to buy at the beginning I've started as a student in classical guitar music school graduated Well something deep inside always told me what I wanted more and different I was too young when the first time I've discovered Metallica on my friend's older brother's cassette recorder I can't express how I was amazed No surprise that later Kirk Hammett became my guitar hero And still remains the one of the greatest on my own guitar Heroes Olympus yes not only Kirk Well I guess that there are multiple factors can influence you and inspire the start playing Dive deep into your feelings what's where My most powerful motivator my Heroes Who's yours I recommend to read and watch as many materials about your guitar hero as possible before you get your guitar Why Because you'll wish your Heroes electric guitar It's so powerful feel this Learn more and more about Hero and you'll understand why Hero plays this instrument What's interesting at first glance all electric guitars are the same instruments Body neck can plugin into an amp and play with the effects what else The physics is the same convert sound waves into electric Where is the difference I'd prefer to compare this case with cars Let's go and explore the difference
