Sounding Human Deirdre Loughridge, 2024-01-05 An expansive analysis of the relationship between human and machine in music From the mid eighteenth century on there was a logic at work in musical discourse and practice human or machine That discourse defined a boundary of absolute difference between human and machine with a recurrent practice of parsing human musicality from its merely mechanical simulations In Sounding Human Deirdre Loughridge tests and traverses these boundaries unmaking the human or machine logic and seeking out others better characterized by conjunctions such as and or with Sounding Human enters the debate on posthumanism and human machine relationships in music exploring how categories of human and machine have been continually renegotiated over the centuries Loughridge expertly traces this debate from the 1737 invention of what became the first musical android to the creation of a sound wave instrument by a British electronic music composer in the 1960s and the chopped and pitched vocals produced by sampling singers voices in modern pop music From music generating computer programs to older musical instruments and music notation Sounding Human shows how machines have always actively shaped the act of music composition In doing so Loughridge reveals how musical artifacts have been or can be used to help explain and contest what it is to be human

Saving Persuasion Bryan Garsten, 2009-03-31 In Saving Persuasion Bryan Garsten uncovers the early modern origins of today's suspicious attitude toward rhetoric and seeks to loosen its grip on contemporary political theory He argues that the artful practice of persuasion ought to be viewed as a crucial part of democratic politics

Oakeshott and His Contemporaries Wendell John Coats, 2000 Oakeshott and His Contemporaries is an exploration of the ideas of one of the most important twentieth century English political philosophers vis a vis related ideas in the thought of seven prominent European thinkers spanning a millennium and a half The intent of the exploration is not an attempt to uncover Oakeshott's intellectual influences a dubious project in the case of any original thinker but rather to show the importance and coherence of Oakeshott's various themes by showing how they modify amplify and contrast with similar and related themes in the thought of seven better known thinkers Montaigne St Augustine Hegel Hobbes Benjamin Constant Rousseau and Hume

Freedom in French Enlightenment Thought Mary Efrosini Gregory, 2010 Freedom in French Enlightenment Thought examines how five

eighteenth century French theorists Montesquieu Diderot Rousseau Voltaire and Condorcet kindled the flame of freedom in America and France Each thinker laid down a building block that would eventually inspire the language in constitutions around the world They held that citizens have certain inalienable rights that are dictated by natural law and endowed to all by our Creator that these rights include equality before the law justice safety and security of persons and property and freedom of speech press assembly and religion Montesquieu recommended three separate branches of government that function independently of each other Diderot held that there is no true sovereign except the nation that there is no true legislator except the people Rousseau advised that the individual will must be subordinate to the general will and private interest to that of the community he warned against legislators who act from their own financial interests and enact laws to aggrandize themselves Voltaire believed that selfishness greed and the desire for luxury are not only part of human nature but that they compel people to achieve trade with others search explore and invent the passions are the engine that makes capitalism run and that stimulate all human endeavor Condorcet a champion of civil rights boldly proclaimed equality for women blacks and the poor The philosophes held that free and universal public education will permit more citizens to participate in the progress of the arts and sciences and will improve the standard of living among all strata of society An unrestrained press permits citizens to make informed decisions Their polemics have indeed changed the face of the world

Constitutionalism beyond Liberalism Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 Constitutionalism beyond Liberalism bridges the gap between comparative constitutional law and constitutional theory The volume uses the constitutional experience of countries in the global South China India South Africa Pakistan Indonesia and Malaysia to transcend the liberal conceptions of constitutionalism that currently dominate contemporary comparative constitutional discourse The alternative conceptions examined include political constitutionalism societal constitutionalism state based Rousseau ian conceptions of constitutionalism and geopolitical conceptions of constitutionalism Through these examinations the volume seeks to expand our appreciation of the human possibilities of constitutionalism exploring constitutionalism not merely as a restriction on the powers of government but also as a creating collective political and social possibilities in diverse geographical and historical settings **Wordsworth and the Enlightenment Idea of Pleasure** Rowan

Boyson, 2012-11 The surprising idea of pleasure as communal provides a new way of understanding Wordsworth's poetry and the Enlightenment's critical legacy *Political Thinkers* David Boucher, Paul Kelly, 2017 The most comprehensive

Francis Hueffer, 1883 *Early Journals and Letters of Fanny Burney, Volume 4* Frances Burney, Betty Rizzo, 2003-05-21

Volume IV of *The Early Journals and Letters of Fanny Burney* covering the years 1780-1781 will be of particular interest to students of Burney as it marks the young author's introduction into the world following the astonishing success of her novel *Evelina* 1778 and includes her visits to Streatham and her encounters with Hester and Henry Thrale and Dr Johnson It was

an exciting period in her life which she managed to enjoy despite struggling to repeat her first success while avoiding the often unwelcome attention it brought But it was also a difficult period in her family life as she dealt with jealous interference by her stepmother the courtship of her sister Susan by a man she considered untrustworthy and the misbehaviour of her brothers Burney's enthusiasm makes the most of her experiences and she describes characters and scenes with all the genius displayed in her novels Her descriptions contain the four great attributes that distinguish her novels brilliant handling of detail total and full recall of conversations characteristic of the speaker sensibility and empathy for others and great relish for the ridiculous wherever it occurred *Rousseau's Hand* Angelica Goodden,2013-10-31 For all the fame he won as a writer during a brief but astonishingly fertile period in the 1750s and early 1760s Rousseau thought the making of books essentially foreign to his nature what mattered most to him was making things Descended as he was from a long line of watchmakers and raised in the artisanal heart of Geneva he helped the promotion of craft associated with his one time friend Diderot whose *Encyclopédie* proclaimed the varied virtues of manual activity Taking as its point of departure the moral and monetary economy of craftsmanship in eighteenth century Switzerland this elegant and original study shows how family tradition and his own unfinished apprenticeship to an engraver led Rousseau to a radical questioning of central issues of the day particularly in light of the moral utilitarianism of his age Rousseau's *Hand* highlights the vital place of handwork in the artistic and social writings of his middle years from novels and plays to treatises and other forms of discourse illuminating many matters traditionally seen as inconsistencies in his oeuvre as a whole Abandoning creative writing for music copying in middle life Rousseau celebrated *homo faber's* integrity along with the practicality and usefulness of handwork in the face of depersonalizing technological advance yet the writings in which he extolled these virtues won him persecution as well as European celebrity The paradox of craft's material essence in what he thought a world of abhorrent materialism and the problematic mechanization of ordinary existence exercised him throughout his life Rousseau's *Hand* explores these preoccupations The Struggle for Equal Adulthood Corinne T. Field,2014-09-02 In the fight for equality early feminists often cited the infantilization of women and men of color as a method used to keep them out of power Corinne T Field argues that attaining adulthood and the associated political rights economic opportunities and sexual power that come with it became a common goal for both white and African American feminists between the American Revolution and the Civil War The idea that black men and all women were more like children than adult white men proved difficult to overcome however and continued to serve as a foundation for racial and sexual inequality for generations In detailing the connections between the struggle for equality and concepts of adulthood Field provides an essential historical context for understanding the dilemmas black and white women still face in America today from glass ceilings and debates over welfare dependency to a culture obsessed with youth and beauty Drawn from a fascinating past this book tells the history of how maturity gender and race collided and how those affected came together to fight against injustice **The Cambridge Companion to**

Rousseau's Social Contract David Lay Williams, Matthew W.
