Epistolary Practices William Merrill Decker, 2000-11-09 Letters have long been read as primary sources for biography and history, but their performative, fictive, and textual dimensions have only recently attracted serious notice. In this book, William Merrill Decker examines the place of the personal letter in American popular and literary culture from the colonial to the postmodern period. After offering an overview of the genre, Decker explores epistolary practices that coincide with American experiences of space, settlement, separation, and reunion. He discusses letters written by such well-known and well-educated persons as John Winthrop, Benjamin Franklin, Thomas Jefferson, Abigail and John Adams, Nathaniel Hawthorne, Margaret Fuller, Henry David Thoreau, Samuel Clemens, Henry James, and Alice James, but also letters by persons who, except in their correspondence, were not writers at all: indentured servants, New England factory workers, slaves, soldiers, and Western pioneers. Individual chapters explore the letter writing of Ralph Waldo Emerson, Emily Dickinson, and Henry Adams, three of America's most ambitious, accomplished, and theoretically astute letter writers. Finally, Decker considers the ongoing transformation of letter writing in the electronic age.

Dickinson Unbound Alexandra Socarides, 2014-07-01 In *Dickinson Unbound* Alexandra Socarides takes readers on a journey through the actual steps and stages of Emily Dickinson's creative process. In chapters that deftly balance attention to manuscripts, readings of poems, and a consideration of literary and material culture, Socarides takes up each of the five major stages of Dickinson's writing career: copying poems onto folded sheets of stationery; inserting and embedding poems into correspondence; sewing sheets together to make fascicles; scattering loose sheets; and copying lines on often torn and discarded pieces of household paper. In so doing, Socarides reveals a Dickinsonian poetics starkly different from those regularly narrated by literary history. Here Dickinson is transformed from an elusive poetic genius whose poems we have interpreted in a vacuum into an author who employed surprising and at times surprisingly conventional methods to wholly new effect. *Dickinson Unbound* gives us a Dickinson at once more accessible and more complex than previously imagined. As the first authoritative study of Dickinson's material and compositional methods, this book not only transforms our ways of reading Dickinson but advocates for a critical methodology that insists on the study of manuscripts, composition, and material culture for poetry of the nineteenth century and thereafter.

Research Guide to American Literature Benjamín Franklin, 2010 Presents American literature from the beginnings to the Revolutionary War, including essays, narratives, and more.

Beneath the Second Sun Adam W. Sweeting, 2003 Indian summer, the succession of warm, fair days gracing New England in autumn, is at once a flourishing period signaling the end of fall, a meteorological event, a vernacular cultural construction, and a literary metaphor. In this appealing and elegant book, Sweeting plumbs Indian summer's use in literature as a symbol of second chance, rebirth, or reprieve before the onset of a harsher season. Well researched and charmingly written, *Beneath the Second Sun* is the first book to systematically treat the history and uses of Indian summer imagery in American life. The author focuses on the ways in which New Englanders have embraced the season and he places the celebration of the season's beauty and its melancholy qualities within the context of Anglo-Native American relations. Sweeting does not try to locate the original definition of Indian summer; rather, he explores the far more interesting ways in which the season has been imagined and described in American culture. Popular authors including Philip Freneau, Susan Cooper, Lydia Sigourney, John Greenleaf Whittier, Francis Parkman, Oliver Wendell Holmes, and especially Henry David Thoreau, Emily Dickinson, and William Dean Howells freely employ Indian summer imagery in their works. In the context of modern American Studies, Sweeting's study is part of a post-modern scholarly discussion of how tangible realities such as climate are mediated, even forged, by social needs. Sweeting further investigates the imaginative, early nineteenth-century invention of New England regional identity and integrates traditional American Studies literary and historical concerns with a contemporary interest in the environment and sense of place. Sweeting's graceful, lively, and accessible style beckons not only scholars of American literature and the nineteenth century but any traveler seeking the glories of autumn in New England.
