

There is of course the consideration that the range of graduated sculpture in America has been limited by examples collected considerably later than the date of origin of these artisans. Likewise the body of figured sculpture collected before 1900 from Bahukiki or Bali is quite small and only represented in German collections. Perhaps our knowledge of what constitutes a Bahukiki figure style for this early period should be revised on the basis of the material at hand.

There is the likelihood that before the turn of the century the Bali themselves were the artisans for their own artistic needs. Apulemann himself mentions this as a possibility for the period of Ziegler's contact with the Bali before 1900.¹⁴ The circumstances of Bali's early contact with Europeans, furnishing carriers, workmen, and teachers to the coast, probably contributed to a rapid decline of its art. In this context it is interesting to note an entry from the Linden-Museum Stuttgart about a beaded ceremonial cloth having belonged to King George of Bali, collected by the administrator Hoyer in 1906.

Hanover, NH., Dartmouth College. Hanover, NH. Museum & Galleries, 1973 The Art of the Bambui Kingdom (Western Grassfields, Cameroon) Mathias Fubah Alubafi, 2014-03-26

Written as part of the Bambui Museum and Ecotourism Project BMEP this stunningly illustrated book introduces readers to the history of the Bambui fondom in the western Grassfields of Cameroon and presents an exhaustive interpretation of the artistic and cultural heritage of the fondom Initially conceived as part of an initiative launched in 2001 by Centro Orientamento Educativo an Italian NGO aimed at creating museums in some palaces of the Cameroon Grassfields the book serves as a pilot endeavour towards addressing problems associated with antiques and other cultural assets such as theft and the illegal traffic of objects the exploitation of poor fondoms by African art dealers and researchers from the West and the lack of education about the different ways and means the fondoms could employ to transform these resources to the benefit of all For anyone aspiring to learn about the rich and diverse art of Bambui in particular and the western Grassfields as a whole this book will prove useful especially since it is written by someone who has lived and is still living the Bambui experience Royal Art of Cameroon Tamara Northern, 1973 Bambui Arts and Culture Mathias Fubah Alubafi, 2018-11-14 This book focuses on the traditional arts and culture of Bambui a kingdom in the western Grassfields of Cameroon Although a small kingdom in comparison to much bigger kingdoms such as Mankon Banson Kom and Bali the arts and culture of this kingdom have served and continue to serve as a way of life as ritual as decoration and as a means of uniting with the sublime since pre colonial times However in presenting the arts and culture of the western Grassfields scholars have given much attention only to the dominant kingdoms As such Bambui and many other smaller kingdoms have been rendered voiceless This text brings forth the voice of one of the smallest kingdoms in the western Grassfields through the presentation of its historical arts and culture and the changes that have taken and continue to take place in the society It represents primarily an examination of the socio cultural organisation of the kingdom and the various kinds of art that are used within the different contexts These milestones are well illustrated with historical and contemporary images *Royal Art of Cameroon* Tamara Northern, 1973 Historical Dictionary of the Republic of Cameroon Mark Dike DeLancey, Mark W. Delancey, Rebecca Neh Mbuh, 2019-06-15 Cameroon is a land of much promise but a land of unfulfilled promises It has the potential to be an economically developed and democratic society but the struggle to live up to its potential has not gone well Since independence there have been only two presidents of Cameroon the current one has been in office since 1982 Endowed with a variety of climates and agricultural environments numerous minerals and substantial forests and a dynamic population this is a country that should be a leader of Africa Instead we find a country almost paralyzed by corruption and poor management a country with a low life expectancy and serious health problems and a country from which the most

talented and highly educated members of the population are emigrating in large numbers To all of this is recently added a serious terrorism problem Boko Haram in the north a separatist movement in the Anglophone west refugee influxes in the north and east and bandits from the Central African Republic attacking eastern villages This fifth edition of Historical Dictionary of the Republic of Cameroon contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Cameroon

Cameroon: The Stakes and Challenges of Governance and Development Tangie Nsoh Fonchingong, John Bobuin Gemandze, 2009 This book deals with the important subject of governance and development Even more significantly the book has the merits of critically evaluating the concept of good governance in an African context identifying the internal factors that impinge on good governance and development and proposing solutions It provides empirical evidence on the extent to which inappropriate governing strategies are the main internal obstacle to development in Cameroon The authors discuss factors contributing to precarious and problematic governance from multidisciplinary perspectives and demonstrate the extent to which such inadequacies impede positive social change To promote effective development the authors argue for the implementation of a good governance strategy that comprises inter alia adopting appropriate development strategies decentralizing administration to make for popular participation and ensure accountability taking the necessary steps to fight corruption and ensuring the enforcement of property and cultural rights

the Second World War and continues to this day The idea for this book arose from a concern to recognize the continuing influence of E M Chilver on a wide variety of social historical political and economic studies The result is a volume with a broad historical scope yet one that also focuses on major contemporary theoretical issues such as the meaning and construction of ethnic identities and the anthropological study of historical processes For more information on this title and related publications go to <http://lucy.ukc.ac.uk/Chilver/index.html>

Lela in Bali Richard Fardon, 2006 Lela in Bali tells the story of an annual festival of eighteenth century kingdoms in Northern Cameroon that was swept up in the migrations of marauding slave raiders during the nineteenth century and carried south towards the coast Lela was transformed first into a mounted durbar like those of the Muslim states before evolving in tandem with the German colonial project into a festival of arms Reinterpreted by missionaries and post colonial Cameroonians Lela has become one of the most important of Cameroonian festivals and a crucial marker of identity within the state Richard Fardon's recuperation of two hundred years of history is an essential contribution not only to Cameroonian studies but also to the broader understanding of the evolution of African cultures

Plundering Africa's Past Peter Ridgway Schmidt, Roderick J. McIntosh, 1996-08-22 An important book at a time when the booming illicit trade in African antiquities and the despoiling of some of the continent's prime archeological sites generate little concern in the art world Foreign Affairs This benchmark publication challenges all of us to be part of the solution Plundering Africa's Past cannot help but raise the level of discourse and consciousness about the looting problem what needs to be done to stop it and about the relationship between Africa and the West African Studies Review Plundering Africa's Past should be required reading for all archaeologists historians art historians museum curators and government officials involved in the cultural heritages of Africa as well as most countries and continents with a disappearing past H Net Book Review African government and museum officials members of international agencies academics and journalists examine why the African past is disappearing at a rate perhaps unmatched in any other part of the world Each looks at the international network of looting and trafficking from a different perspective Here for the first time is a frank indictment of African contributions to the problem voiced by the distinguished African essayists The book concludes with a discussion of specific steps that could halt the disappearance of Africa's art and antiquities

Heritage and History in Africa Ignatius Song Womei, 2024-11-14 There has been a long standing belief and misconception that relevant history is shelved and can only be retrieved from written documentation This conviction systematically diminished in importance with the emergence and approach of Africanist scholarship in the 1960s which increasingly exposed the pitfalls of religiously relying on paper inscribed or engraved historical sources This twist away from recorded history gave premium to a craving for the exploration and exploitation of material and immaterial heritage sources to understand and communicate

connections between heritage and history in Africa This compendium of interlacing themes on Cameroon threads the multiple but complex ways by which vestiges natural and man made and social memory merges into configuration of perspectives on historical representation of people environment and society in Africa Designed in seven grand themes with a conceptual lead on heritage and presented in sixteen chapters this book generally provides reliable non documented sources that help construct the African indigenous knowledge as experienced by themselves from their heritage This volume is highly recommended for use by scholars students practitioners promoters and lovers of heritage values **An African Journey**

Contesting Art Jeremy MacClancy,2020-08-27 Art is a major political weapon of our times Today peoples around the world use art to boost their own identity and to attack the ways others represent them At a time of increasing intercultural exchange art has become a primary means through which groups reinforce their challenged sense of culture This pioneering book breaks with the tradition of the anthropology of art as the depoliticized study of aesthetics in exotic settings Transcending artificial distinctions between the West and the Rest it examines the increasingly significant relations among art identity and politics in the modern world Among the themes investigated by the contributors how African painters undermine racist stereotypes yet remain dominated by the Western art market the role of anthropology museums in the perpetuation of the Western market in tribal art the internal and external political disputes underlying the repatriation of cultural property

Collecting and Provenance Jane Milosch,Nick Pearce,2019-10-28 The study of provenance the history of the creation and ownership of an artefact work of art or specimen provides insights into the history of taste and collecting illuminating the social economic and historic trends in which an object was created and collected It is as much a history of people as it is of objects and its study often reveals intricate networks of relationships patterns of activity and motivations This book promotes the study of the history of collecting and collections in all their variety through the lens of provenance and explores the subject as a cross disciplinary activity Perhaps

for the first time in a publication it draws on expertise ranging from art history and anthropology to natural history and law looking at periods from antiquity through the 18th century and the Holocaust era to the present and materials from Europe and the Americas to China and the Pacific The issues raised are wide ranging touching on aspects of authenticity cultural meaning and material transformation and economic and commercial drivers as well as collector and object biography The book fills a gap in the study of collecting and provenance taking the subject holistically and from multiple standpoints better to reflect the widening interest in provenance from a range of disciplinary perspectives This book will be a service to the field from established scholars and museum professionals to students of collecting history cultural heritage and museum studies
