Royal Flea:

All the World's a Stage Joann Leonard,1997 **The Royal Flea** Rolf Heimann,2010-10-10 The king woke up one morning with an itch on his chest He had been bitten by a flea On the one hand the insect should be executed for biting the king on the other hand it now has royal blood running through its veins What should you do with a flea that has royal blood For the answer to this and many more crucial questions like Why shouldn t Pirates wear earplugs Will Antarctic Snake Oil make you smarter What should you do if an alien lands in your backyard and needs to use the toilet but there s no toilet paper only your homework Read this book Some of the answers will surprise you **Insects, Hygiene and History** James Ronald Busvine,2015-11-19 Busvine s introductory account of the evolutionary histories of insects and mites leads on to a fascinating study of human reactions to ectoparasites It shows how the extent of man s curiosity about them and references to their prevalence provide a continuous commentary both on the history of biological science from Aristotle to the present day and on the modes and manners of ages past Subjects of ribald verse quack medicine and morbid imagination as well as literary symbols of piety love and human insignificance this is also the history of how medicine discovered that ectoparasites acted as transmitters for epidemic diseases **Motorcycle** Steven E. Alford,Suzanne Ferriss,2008-01-03 A highly illustrated account of the history design and culture of the motorbike Motorcycle is essential reading for the Harley Davidson roadhog bike collector or anyone who s felt the power of the unmistakable king of the road **The Dogs and the Fleas** Frederic Scrimshaw,2021-11-05 In The Dogs and the Fleas Frederic Scrimshaw crafts a poignant exploration of the symbiotic relationships that exist within societal hierarchies Through a blend of acerbic wit and lyrical prose Scrimshaw delves into the lives of marginalized individuals and the often exploitative dynamics they face in their struggle for autonomy The narrative rich with symbolism utilizes canine imagery to represent both loyalty and dependence while the fleas embody the pervasive forces of oppression Set against the backdrop of a contemporary urban landscape the book critiques systemic inequalities with a sharp observant lens reflective of postmodern literature s thematic complexity Frederic Scrimshaw a novelist and social critic draws from his own experiences of growing up in a predominantly working class neighborhood His keen insight into the human condition and acute awareness of societal constructs inform this work as he deftly weaves together personal narratives and broader social commentaries Scrimshaw s diverse literary background and engagement with themes of class struggle and identity permeate this novel lending it emotional depth and intellectual rigor This compelling read is recommended for anyone who seeks to understand the intricacies of social dynamics and the human spirit The Dogs and the Fleas challenges readers to reflect on their own positions within the societal framework while offering a narrative that is both engaging and thought provoking It is a timeless reminder of resilience amid adversity making it essential for contemporary literature enthusiasts **The Summer We Lost Alice** Jan Strnad,2014-05-11 The defining moments of young Ethan Opochensky s life occurred during the summer he spent with his cousin Alice in the small rural town of Meddersville Three

children disappeared that summer his cousin among them Nine year old Ethan believes he knows the killer but his story is so fanciful it is dismissed out of hand Twenty five years later children are once again disappearing in Meddersville Ethan returns to Meddersville to separate fact from childish fantasy to discover the truth behind Alice s disappearance and to bring her killer to justice The Summer We Lost Alice is a story of loss and grief of courage of family and ultimately of healing and the triumph of an enduring spirit Full length novel Contains paranormal elements a trace of mild language no explicit sex No child violence Keywords witch reincarnation dog psychic skeptic murder evil love family mystery death afterlife From the author My mother s name was Alice She grew up dirt poor on a small Kansas farm We don t have too many photos from that time but we do have two that stand out The first is a snapshot of my mother as a little girl with her older sister and a dog My mother wears a cereal box on her head like a crown This photo inspired the scene in the book where Alice crowns herself Queen of Bohemia My family on my father s side came from Bohemia so there s another family connection and the explanation for my strangely vowel impoverished last name The second photo shows my mother probably about age five with her two older sisters The sisters stand behind her in their black dresses looking very dour while my mother in her light colored dress plays with her fingers and smiles winsomely at the camera That s the spirit I wanted to capture in my fictional Alice My first book Risen is a supernatural thriller about people coming back from the dead not as zombies but perfectly healthy The idea was to explore the question What is the value of life without death The Summer We Lost Alice a more mainstream book not a horror novel is also about rebirth I was able to play with differing viewpoints about the afterlife from the skeptic s point of view Ethan in the story to the spiritual believer s Heather with a touch of traditional faith Flo It s a story of loss and how it destroys a family and how that family manages to come together to heal itself All wrapped in the guise of a paranormal mystery thriller And there s a dog of course Old Boo Got to have a dog

Royal's Child Sharon Sala,2017-12-18 Revisit a fan favorite Justice Brothers romance from New York Times best selling author Sharon Sala Was she their angel Five year old Maddie seemed to think so But to her exasperated father rancher Royal Justice Angel Rojas the beautiful hitchhiker who got into their car that stormy night was nothing but an unwelcome distraction When infuriatingly handsome Royal opened his car door for on the run Angel that night she thought of him and his adorable daughter as a temporary reprieve But suddenly the comfort of a little girl s embrace not to mention that of her rugged rancher father felt like more than a makeshift shelter Was she finally coming home Originally published in 1998

A Manual of Materia Medica and Pharmacology David Marvel Reynolds Culbreth,1910 [Getting Under Our Skin](#) Lisa T. Sarasohn,2021-09-21

How vermin went from being part of everyone s life to a mark of disease filth and lower status For most of our time on this planet vermin were considered humanity s common inheritance Fleas lice bedbugs and rats were universal scourges as pervasive as hunger or cold at home in both palaces and hovels But with the spread of microscopic close ups of these creatures the beginnings of sanitary standards and the rising belief that cleanliness equaled class vermin began to provide a

way to scratch a different itch the need to feel superior and to justify the exploitation of those pronounced ethnically and entomologically inferior In *Getting Under Our Skin* Lisa T Sarasohn tells the fascinating story of how vermin came to signify the individuals and classes that society impugns and ostracizes How did these creatures go from annoyance to social stigma And how did people thought verminous become considered almost a species of vermin themselves Focusing on Great Britain and North America Sarasohn explains how the label vermin makes dehumanization and violence possible She describes how Cromwellians in Ireland and US cavalry on the American frontier both justified slaughter by warning Nits grow into lice Nazis not only labeled Jews as vermin they used insecticides in the gas chambers to kill them during the Holocaust Concentrating on the insects living in our bodies clothes and beds Sarasohn also looks at rats and their social impact Besides their powerful symbolic status in all cultures rats endurance challenges all human pretensions From eighteenth century London merchants anointing their carved bedsteads with roasted cat to repel bedbugs to modern day hedge fund managers hoping neighbors won't notice exterminators in their penthouses the studies in this book reveal that vermin continue to fuel our prejudices and threaten our status *Getting Under Our Skin* will appeal to cultural historians naturalists and to anyone who has ever scratched and then gazed in horror

Classic Starts®: Animal Stories, 2010-12-07 Here come the animals From Rudyard Kipling's most popular Just So Stories to Jack London's Brown Wolf this collection features some of the best loved animal tales of all time They include Kipling's How the Elephant Got His Trunk Hans Christian Andersen's The Wild Swans Mark Twain's A Dog's Tale Harriet Beecher Stowe's The Squirrels That Live in a House and more

The Last Great Plague of Colonial India Natasha Sarkar, 2024-07-12 Plague has attained pandemic proportions on three occasions in recorded history It is within the context of the third modern pandemic that this book unfolds an outbreak which took over twelve million lives in India alone Natasha Sarkar examines for the first time the full social history of this extraordinary medical crisis in India at the end of the nineteenth century detailing the nature and progress of the disease within a complex colonial environment Deep seated colonial anxieties about governing India influenced and are disclosed in responses to the pandemic Disease carriers were identified and labelled and scapegoats stigmatized Western Imperialism and its developments in biomedicine clashed with older indigenous medical systems Sarkar also considers attitudes approaches and mentalities in indigenous Indian society She explores what individuals and communities made of the disease and how social prejudices surrounding it and its sufferers became increasingly heightened in a colonial environment The plague crisis reveals disparate heterogeneous voices across communities the contradictions of a multi religious multi lingual and multi cultural society The last great plague of Colonial India is thus portrayed in all its political social economic and demographic dimensions

Flea Biology and Control Friederike Krämer, Norbert Mencke, 2012-12-06 The book describes in great detail the complex life cycle of fleas The text is based on the example of the cat flea *Ctenocephalides felis* the most important ectoparasite The cat flea parasitizes not only dogs and cats but also warm blooded animals and even humans Besides being

the cause of painfully itching bites and allergic skin diseases it is also a vector for viruses bacteria nematodes and cestodes Over the years the market for insecticide use in small animals has become a major segment of the chemical pharmaceutical industry Insecticides of the new generation should not only fight the existing infestation therapy but should also effectively prevent new infestations for weeks prophylaxis The latest class of chemicals developed to this effect are chloronicotinyls syn neonicotinoides Imidacloprid is the first member of this class of insecticides with a high selectivity towards the site of action within an insect Applied to the skin it combats flea infestation and prevents new infestations for at least four weeks Flea Biology and Control describes the entire development behind the compound starting with its discovery all the way to its use in the final product *Bulletin - Institut royal des sciences naturelles de Belgique* Institut royal des sciences naturelles de Belgique,1993 **The Literary Gazette and Journal of Belles Lettres, Arts, Sciences, &c** ,1836 The London Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc ,1836 *Panchatantra* ,2004-08 **The Hand that Feeds** Alexander Mullan,Riley Smallman,Herre de Bondt ,Juliette Waterman,2025-05-13 Food plays a major part in shaping human animal relations from nurturing farm and zoo animals to bringing wild birds into suburban gardens Food mediated interactions create personal interspecies bonds enrich and alter environments change species distributions enable new relationships and reconfigure social perspectives but also lead to many concerns over health and disease for example as well as conflicts over spaces and resources However previous attention has almost exclusively focused on the purpose driven utilitarian and economic aspects of feeding rather than the affective and emotional encounters that motivate many feeding practices Presenting new research and interdisciplinary case studies The Hand that Feeds considers animal feeding from historic to modern times The volume explores the nuances and complexity of non utilitarian feeding relationships across urban and rural divides in the wild on the farm at the zoo and in the garden and how our feeding relationships have altered animal distributions and behaviours The authors scrutinise contrasts between which species are promoted and which are persecuted and how the species we choose to feed reflects broader world views and cultural values Ultimately this volume engages in the discussion of how we feed why we feed which animals we deem worthy of feeding and the widespread impacts of feeding relations Praise for The Hand that Feeds An innovative and exciting collection of studies exploring the cultural phenomenon of animal feeding Drawing on cutting edge approaches and case studies from wild raptors to livestock and zoo animals The Hand that Feeds has started a new conversation on this fundamental relationship between other species and ourselves Aleks Pluskowski University of Reading This fascinating book explores the how why and consequences of people feeding other species drawing on perspectives from the historical life and social sciences Different voices bring diverse observations and viewpoints to a refreshingly lively and informative discussion of a topic that is anything but simple Terry O Connor University of York This is a fantastic interdisciplinary collection interrogating how human animal relations are mediated by food Food can be an enticement a medicine or a poison it can be a vehicle for protection and bonding or
