## **Rubia In The Age Of Enlightenment:**

**Eve's Enlightenment** Catherine M. Jaffe, Elizabeth Franklin Lewis, 2009-04-01 Eve's portrayal in the Bible as a sinner and a temptress seemed to represent and justify women's inferior position in society for much of history. During the Enlightenment, women challenged these traditional gender roles by joining the public sphere as writers, intellectuals, philanthropists, artists, and patrons of the arts. Some sought to reclaim Eve by recasting her as a positive symbol of women's abilities and intellectual curiosity. In *Eve's Enlightenment*, leading scholars in the fields of history, art history, literature, and psychology discuss how Enlightenment philosophies compared to women's actual experiences in Spain and Spanish America during the period. Relying on newspaper accounts, poetry, polemic paintings, and saints' lives, this diverse group of contributors discusses how evolving legal, social, and medical norms affected Hispanic women and how art and literature portrayed them. Contributors such as historians Mónica Bolufer Peruga and María Victoria López Cordón, art historian Janis A. Tomlinson, and literary critic Rebecca Haidt also examine the contributions these women's experiences make to a transatlantic understanding of the Enlightenment. A common theme unites many of the essays: while Enlightenment reformers demanded rational equality for men and women, society increasingly emphasized sentiment and passion as defining characteristics of the female sex, leading to deepening contradictions. Despite clear gaps between Enlightenment ideals and women's experiences, however, the contributors agree that the women of Spain and Spanish America not only took part in the social and cultural transformations of the time but also exerted their own power and influence to help guide the Spanish-speaking world toward modernity. The first interdisciplinary collection published in English, *Eve's Enlightenment* offers a wealth of information for scholars of eighteenth-century Spanish history, literature, art history, and women's studies. An introduction by editors Catherine M. Jaffe and Elizabeth Franklin Lewis provides helpful historical and contextual information.

*Erasmus Darwin's Enlightenment Epic* Stuart Harris, 2002      **A Vanished World** Christopher Lowney, 2012-12-04 In a world troubled by religious strife and division, Chris Lowney's vividly written book offers a hopeful historical reminder: Muslims, Christians, and Jews once lived together in Spain, creating a centuries-long flowering of commerce, culture, art, and architecture. In 711, a ragtag army of Muslim North Africans conquered Christian Spain and launched Western Europe's first Islamic state. In 1492, Ferdinand and Isabella vanquished Spain's last Muslim kingdom, forced Jews to convert or emigrate, and dispatched Christopher Columbus to the New World. In the years between Spain's Muslims, Christians, and Jews forged a golden age for each faith and distanced Spain from a Europe mired in the Dark Ages. Medieval Spain's pioneering innovations touched every dimension of Western life: Spaniards introduced Europeans to paper manufacture and to the Hindu-Arabic numerals that supplanted the Roman numeral system; Spain's farmers adopted irrigation technology from the Near East to nurture Europe's first crops of citrus and cotton; Spain's religious scholars authored works that still profoundly influence their respective faiths, from the masterpiece of the Jewish kabbalah to the meditations of Sufism's greatest master to the

eloquent arguments of Maimonides that humans can successfully marry religious faith and reasoned philosophical inquiry No less astonishing than medieval Spain's wide ranging accomplishments was the simple fact its Muslims Christians and Jews often managed to live and work side by side bestowing tolerance and freedom of worship on the religious minorities in their midst A Vanished World chronicles this impossibly panoramic sweep of human history and achievement encompassing both the agony of jihad Crusades and Inquisition and the glory of a multicultural civilization that forever changed the West One gnarled root of today's religious animosities stretches back to medieval Spain but so does a more nourishing root of much modern religious wisdom

Writing the Americas in Enlightenment Spain Thomas C. Neal, 1931-07-31 How did literary discourse about empire contribute to discussions about the implications of modernity and progress in eighteenth century Spain Writing the Americas seeks to answer this question by examining how novels plays and short stories imagined and contested core notions about enlightened knowledge Expanding upon recent transatlantic and postcolonial approaches to Spain's Enlightenment that have focused mostly on historiographical and scientific texts this book disputes the long standing perception of the Spanish Enlightenment as an imitative movement best defined best by its similarities with French and British contexts Instead through readings of major and minor texts by authors such as Jos Cadalso Gaspar Melchor Jovellanos Pedro Monteng n and Jos Mar a Blanco White Writing the Americas argues that literary texts advanced a unique exploration of the compatibility between supposed universal principles and local histories one which often diverged noticeably from dominant trends and patterns in Enlightenment thought elsewhere The authors studied often drew directly from Spain's own imperial experiences to submit prevailing ideas about culture commerce education and political organization to scrutiny Writing the Americas provides a new critical lens through which to reexamine the aesthetic and political content of eighteenth century Spanish cultural production While in the past much of the debate about whether Spanish neoclassicism was modern literature has centered on formalistic qualities or romantic notions of originality or subjectivity ultimately Writing the Americas locates the modernity of these literary works within the very ideological tensions they display towards the prevailing intellectual trends of the time The interdisciplinary content and approach of Writing the Americas make it a valuable resource for a broad range of scholars including specialists in eighteenth century and modern Hispanic literature and culture colonial Hispanic literature and culture transatlantic American studies European Enlightenment studies and modernity studies

McMahan,2023 Mindfulness practices derived from Buddhist sources have become ubiquitous Meditation teachers will sometimes say that this is the same practice that the Buddha taught over 2500 years ago David McMahan shows that the standard articulation of mindfulness is rather a distillation of particular strands of Buddhist thought that have combined with western ideas to create a unique practice tailored to modern life Rethinking Meditation asks how and why these practices coalesced into the version we have today
