Rubian Drawings 18th To Early 20th Century:

Primitivism and Twentieth-century Art Jack D. Flam, Miriam Deutch, 2003 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa* **Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 *The First Moderns* William R. Review In this truly exciting study of the origins of modernist thought poet and teacher Everdell roams freely across disciplinary lines A brilliant book that will prove useful to scholars and generalists for years to come enthusiastically recommended Library Journal starred review Everdell has performed a rare service for his readers Dispelling much of the current nonsense about postmodernism this book belongs on the very short list of profound works of cultural analysis Booklist Innovative and impressive Everdell has written a marvelous erudite and readable study Mark Bevir Spectator A richly eclectic history of the dawn of a new era in painting music literature mathematics physics genetics neuroscience psychiatry and philosophy Margaret Wertheim New Scientist Everdell has himself recombined the parts of our era s intellectual history in new and startling ways shedding light for which the reader of *The First Moderns* will be eternally grateful Hugh Kenner The New York Times Book Review Everdell shows how the idea of modernity arose before the First World War by telling the stories of heroes such as T S Eliot Max Planck and Georges Serault with such a lively eye for detail irony and ambiance that you feel as if you re reliving those miraculous years Jon Spayde Utne Reader [Modern Art and the Remaking of Human Disposition](#) Emmelyn Butterfield-Rosen,2021-11-09 Figures of Thought Poseuses and the Controversy of the Grande Jatte Beethoven s Farewell The Creative Genius in the Claws of the Secession The Mise en sc ne of Dreams L Apr s midi d un faune *Race-ing Art History* Kymberly N.
