Pen and Pencil, 1853

The Experience of Science I.F. Goldstein, M. Goldstein, 2013-06-29 Our earlier book How We Know An Exploration of the Scientific Process was written to give some conception of what the scientific approach is like how to recognize it how to distinguish it from other approaches to understanding the world and to give some feeling for the intellectual excitement and aesthetic satisfactions of science These goals represented our concept of the term scientific literacy Though the book was written for the general reader to our surprise and gratification it was also used as a text in about forty colleges and some high schools for courses in science for

the non scientist in methodology of science for social and behavioral sciences and in the philosophy of science As a result we were encouraged to write a textbook with essentially the same purpose and basic approach but at a level appropriate to college students We have drawn up problems for those chapters that would benefit from them described laboratory experiments that illustrate important points discussed in the text and made suggestions for additional readings term papers and other projects Throughout the book we have introduced a number of chapters and appendices that provide examples of the uses of quantitative thinking in the sciences logic mathematics probability statistics and graphical representation

Reading on Cancer National Cancer Institute (U.S.),1969 **Make: Maverick Scientist** Forrest M. Mims,2024-02-14

Maverick Scientist is the memoir of Forrest Mims who forged a distinguished scientific career despite having no academic training in science Named one of the 50 Best Brains in Science by Discover magazine Forrest shares what sparked his childhood curiosity and relates a lifetime of improbable dramatic and occasionally outright dangerous experiences in the world of science At thirteen he invented a new method of rocket control At seventeen he designed and built an analog computer that could translate Russian into English and that the Smithsonian collected as an example of an early hobby computer While majoring in government at Texas A M University Forrest created a hand held radar like device to help guide the blind And during his military service he had to be given special clearance to do top secret laser research at the Air Force Weapons Lab Why Because while he lacked the required engineering degree they wanted his outside the box thinking on the project He went on to co found MITS Inc producer of the first commercially successful personal computer wrote a series of electronics books for Radio Shack that sold more than seven million copies and designed the music synthesizer circuit that became known as the infamous Atari Punk Console All this came before he started consulting for NASA s Goddard Space Flight Center and NOAA s famous Mauna Loa Observatory and earning the prestigious Rolex Award This intimate portrait of a self made scientist shares a revelatory look inside the scientific community and tells the story of a lifelong learner who stood by his convictions even when pressured by the establishment to get in line with conventional wisdom With dozens of personal photos and illustrations Maverick Scientist serves as proof that to be a scientist you simply need to do science
