

The Scientific Basis of KRSNA CONSCIOUSNESS

by SVARUPA DAMODARA DASA, Ph.

It is also to be noted that so-called scientific theories are changing constantly. For example, at the beginning of the Nineteenth Century (1808), John Dalton, in developing his atomic theory, stated that atoms could not be further divided. However, toward the end of the Nineteenth Century and the beginning of the Twentieth Century, it was found that Dalton's atomic theory could no longer be considered correct.

It was observed that atoms could be further divided into fundamental particles like electrons, protons and neutrons. It was also found that some atoms could emit alpha and beta particles, thereby producing new atoms, and so on. As a matter of fact, the so-called nuclear bombs are a result of these findings. In a similar manner, during the Eighteenth and Nineteenth Centuries Newton's mechanics had a tremendous influence on the minds of scientists, since they could be applied to gross material objects. However, at the beginning of the Twentieth Century, with the discoveries of the fundamental particles, it was realized that Newton's mechanics failed in describing the motions of these particles. Thus quantum mechanics has been developed to explain the phenomena they exhibit.

These theories are filled with speculation, and they are also changing, just as past and present scientific theories are changing, so we can understand that future scientific theories will also change.

This simply shows that the brains of the highly honored material scientists are imperfect, and, as a result, the theories proposed by these brains will always be imperfect. Actually, perfect knowledge cannot be changed. In order to get perfect knowledge, one has to take knowledge from the perfect scientist, Lord Krsna, and His bona fide representative, the spiritual master.

The Scientific Basis of Kṛṣṇa Consciousness Brahmācari Svarūpa Dāmodara Dāsa, 1974 *The Scientific Basis of Kṛṣṇa Consciousness* Svarūpa Dāmodara Dāsa, 1974 *The scientific basis of Kṛṣṇa consciousness* S. D. Dasa, 1975 **The scientific basis of KṚSNA consciousness** Svarupa Damodara Dasa, 1974 *The Scientific Basis of Kṛṣṇa Consciousness* Svarupa Damodara, 1974 **The Scientific Basis of Kṛṣṇa Consciousness** Svarupa Damodara, 1977? Prophets and Photons Benjamin E Zeller, 2010-03-01 This in depth study shows how new religious movements offer a variety of strategies for reconciling science and religious faith By the twentieth century established religious traditions were forced to grapple with the challenges presented by scientific knowledge and innovation But emerging religions still led by a living founder to guide them found new ways to respond to science The Hare Krishnas the Unification Church and Heaven's Gate each found distinct ways to incorporate major findings of modern American science understanding it as central to their wider theological and social agendas In *Prophets and Photons* Benjamin Zeller examines how these New Religious Movements NRMs crafted their views on science during their founding period and how those views evolved over time These NRMs shed light on how religious groups new old alternative or mainstream could respond to the tremendous growth of power and prestige of science in late twentieth century America In this engrossing book Zeller carefully shows that religious groups had several methods of creatively responding to science and that the often assumed conflict based model of science vs religion must be replaced by a more nuanced understanding of how religions operate in our modern scientific world *Handbook of Religion and the Authority of Science* Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world **A Poor Man Reads the Bhagavatam** Satsvarūpa Dāsa Gosvāmī, 1999 **Srila Prabhupada-lilāmṛta, volume 2** Satsvarupa Dasa Goswami, Srila Prabhupada lilāmṛta tells the story of a remarkable individual and a remarkable achievement The individual is A C Bhaktivedanta Swami Prabhupada philosopher scholar religious leader saint The achievement is the revolutionary transplantation of a timeless spiritual culture from ancient India to twentieth century America This second volume begins in 1971 In the West Srila Prabhupada had firmly established the Kṛṣṇa consciousness movement which his disciples were expanding in his absence This volume chronicles Srila Prabhupada's

triumphant return to India and his plans for constructing temples in three crucial locations Bombay the center of India's wealth and business Vrindavana the sacred village where Lord Krsna lived and sported and Mayapur the holy birth site of Sri Caitanya Mahaprabhu who had inaugurated the Hare Krsna movement some five hundred years earlier These are vigorous years spent building a spiritual society in India and establishing centers around the world where people could contact the ancient orthodox faith of India in their own cities In this volume Srila Prabhupada circles the globe repeatedly speaking out on timely issues and defending his budding religious society against brainwashing charges in America and shady business practices in India Srila Prabhupada wanted to unite two worlds the lame man of India and the blind man of America A blind man can carry a lame man he said and together they can walk Similarly the combination of Indian spirituality and American technology can benefit the whole world His principal means of accomplishing this feat was to publish his books annotated translations of India's spiritual classics Under his guidance the Bhaktivedanta Book Trust was organized and by 1977 it had produced and distributed more than sixty million volumes of Srila Prabhupada's writings A final tour of India in 1977 took Srila Prabhupada eighty one and in failing health to the colossal Kumbha mela religious festival to Hrsikesha and finally back to his beloved Vrindavana The time for his passing had come he said As his anguished disciples flooded Vrindavana from all corners of the world Srila Prabhupada presented them with the greatest challenge and the greatest lesson of their young spiritual lives
