Scientists As Theologians Paperback:

Faith, Science and Understanding John Polkinghorne, 2008-10-01
In this captivating book one of the most highly regarded scientist theologians of our time explores aspects of the interaction of science and theology John Polkinghorne defends the place of theology in the university it is part of the human search for truth and discusses the role of revelation in religion it is a record of experience and not the communication of unchallengeable propositions Throughout his thought provoking conversation Polkinghorne speaks with an honesty and openness that derives from his many years of experience in scientific research A central concern of Polkinghorne's collection of writings is to reconcile what science can say about the processes of the universe with theology's belief in a God active within creation The author examines two related concepts in depth The first is the divine self limitation involved in creation that leads to an important reappraisal of the traditional claim that God does not act as a cause among causes The other is the nature of time and God's involvement with it an issue that Polkinghorne shows can link metascience and theological understandings In the final section of the book the author reviews three centuries of the science and theology debate and assesses the work of major contemporary contributors to the discussion Wolfhart Pannenberg Thomas Torrance and Paul Davies He also considers why the science theology discussion has for several centuries been a particular preoccupation of the English DIV DIV **The Way the World is** J. C.

Polkinghorne, 2007-01-01 In this brief and highly accessible book for general readers distinguished physicist turned theologian John Polkinghorne presents a reasoned account of the Christian view of the world as seen by the one of the world's leading interpreters of the interface between science and religion Drawing from his experiences as a scientist and a theologian Polkinghorne argues that Christianity presents a credible and compelling worldview that can be taken seriously even while fully understanding the importance of science Astrobiology and Humanism Julian Chela-Flores, 2019-06-13

This book reviews the horizons and frontiers of humanism as they interact with the science of life in the universe now generally known as astrobiology As one of the most important conversations of our time the existence of life itself raises deep questions that are meaningful to both astrobiology and humanism The text discusses current disagreements in this intercultural dialogue which are shown to be solely due to the widespread delusion that the horizons and frontiers of science can be ignored The Remarkable Wisdom of Solomon Henry Madison Morris, 2001

Verse by verse commentary of Proverbs Ecclesiastes and Song of Solomon Much research and detail on the life of Solomon is presented An in depth study for the serious student of the Bible Isn't it amazing that a man who had 700 wives and 300 concubines and ruled a country for 40 years still had time to write three of the most profound books of the Bible Proverbs Ecclesiastes and Song of Solomon all show marks of divine inspiration and each can be a blessing to the reader but why would God choose a man who turned to idolatry to write these books Dr Henry Morris author of the commentaries Treasures in the Psalms and The Remarkable Record of Job addresses the enigma of Solomon and presents a verse by verse commentary on his writings Having studied

the Bible for 60 years Dr Morris wisdom is also quite remarkable as you will quickly learn as you read *The Remarkable Wisdom of Solomon* *Jesus Christ Is Lord* Peter Toon, 2020-07-20 Is Jesus Christ really Lord of the twentieth century world where scientific achievement is worshiped economic pressures control daily life and permissive attitudes set low moral standards In answer to this vital question Peter Toon challenges today's narrow and shallow view of Christ as Lord Exploring the meaning of Lordship as written in the New Testament and the implications of Christ's ascension as proclaimed in creeds for many centuries Toon presents a broader more powerful view of Jesus as Lord of the nations Lord of the church Lord of the universe and Lord of the Christian's life For everyone concerned about the complex pressures and powerful forces that work to deny the Lordship of Jesus Christ in today's world Toon affirms that the Lord of the cosmos human history and the church is my Lord because by faith I am united in him

The Beginning of All Things Hans Kng, 2008-06-06 In an age when faith and science seem constantly to clash can theologians and scientists come to a meeting of minds Yes maintains the intrepid Hans K ng as he brilliantly argues here that religion and science are not mutually exclusive but complementary Back cover

models allow By bringing a philosophical perspective to an issue often dominated by theologians and scientists this text redresses an imbalance in the discussion around divine action It will therefore be of keen interest to scholars of Philosophy and Religion the Philosophy of Science and Theology Christian Eschatology and the Physical Universe David Wilkinson, 2010-05-27 Does matter matter The scientific picture of the end of the physical Universe has undergone dramatic changes since the turn of the 21st century with its future characterized by accelerated expansion and futility Yet Christian theology has been largely silent on this despite the interest in eschatology in popular culture and in theology itself What can Christian theology learn from and contribute to the scientific picture of the future of the Universe Can the biblical narratives of creation and new creation have a fruitful dialogue with scientific discoveries David Wilkinson shows what a fruitful dialogue this can be Critiquing the folk eschatology of the Left Behind series the misguided faith of the scientific optimists and the lack of scientific engagement of the theologians of hope Wilkinson argues for a rediscovery of the theological theme of new creation and the centrality of bodily resurrection
