Tales and Novels — Volume 2 Maria Edgeworth, 2018-04-18 Excerpt PREFACE Some author says that a good book needs no apology and as a preface is usually an apology a book enters into the world with a better grace without one I however appeal to those readers who are not gluttons but epicures in literature whether they do not wish to see the bill of fare I appeal to monthly critics whether a preface that gives a view of the pretensions of the writer is not a good thing The author may overvalue his subject and very naturally may overrate the manner in which it is treated but still he will explain his views and facilitate the useful and necessary art which the French call reading with the thumb We call this hunting a book a term certainly invented by a sportsman I leave the reader to choose which he pleases whilst I lay before him the contents and design of these volumes
