*The Psychological Metaphor Behind SCOTT*

*PILGRIM VS THE WORLD (The Movie) 2010* Charly Santos, The applied science of psychology in movies series anime etc is far beyond what one might imagine and represents a powerful double edged sword for the psyche and soul of the viewer if they fail to discern deeply everything being presented in each scene character and dialogue regarding this science For instance if the viewer has deep psychological wounds that remain unidentified and unhealed and they unconsciously project them onto the characters of their favorite series anime or movie Their psyche and subconscious will now justify and reinforce thoughts emotions and behavioral patterns that lead them to repeat the same poor outcomes due to those unrecognized wounds further entrenching them The psychological themes portrayed on screen slow down the viewer s awareness to unexpected levels making it even harder to later learn about the true emotional root of their pain This phenomenon is known in psychology as negative priming Based on a thorough and concise analysis of this movie each of its aspects will be explored in this book its scenes dialogues and significant contexts explaining them practically and directly These elements which may have imprinted themselves on the viewer s psyche to their detriment will now be turned in their favor This approach is not limited to this particular movie but can be applied to any movie series or anime the viewer encounters afterward Thus scenes codes symbols and dialogues that once seemed irrelevant to the plot will now be observed with the eyes of newfound awareness These elements which were subconsciously affecting the viewer s psychological progress will now achieve the opposite healing And the psychological truth in movies will set you free Jesus Scott Pilgrim vs The World 2010 is a masterpiece that implicitly shows us how to heal our deepest psychological wounds such as childhood traumas attachment issues and ghosting It subtly reveals the path to achieving true self love through its plot characters and the visual and narrative metaphors embedded in musical battles The movie guides us through conquering both our inner world filled with mental and emotional challenges and the external world It liberates us from the negative destiny we often create for ourselves and teaches us how to identify and overcome the influence of narcissistic psychopaths like Gideon Graves or Envy Adams Scott Pilgrim the film uncovers the deepest psychological secrets used in movies series anime etc secrets that have never been revealed before If we learn how to interpret them the film can guide us toward healing and achieving true self love However if we fail to understand its message we risk remaining stuck in the same psychological wounds indefinitely Both Scott and Ramona burdened by childhood wounds of abandonment and rejection embark on premature relationships ghosting bad karma disappointments and traumas all of which they ultimately conquer completely In this first installment of a two part analysis we will delve into the psychological themes while the second part will focus on the hidden spiritual aspects found in every dialogue character symbol and scene These elements play on three levels literal psychological and spiritual and they will blow your mind and soul once their secrets are revealed
