**History of Scottish Theology, Volume II** David Fergusson, Mark W. Elliott, 2019 This three volume series provides a critical examination of the history of theology in Scotland from the early middle ages to the close of the twentieth century Volume II begins with the early Enlightenment and concludes in late Victorian Scotland **A People's History of Scotland**

Chris Bambery, 2014-06-17 This corrective history of Scotland reveals the little told stories of freedom fighters and suffragettes offering a passionate case for Scottish Independence A People's History of Scotland looks beyond the kings and queens the battles and bloody defeats of the past It captures the history that matters today stories of freedom fighters suffragettes the workers of Red Clydeside and the hardship and protest of the treacherous Thatcher era With riveting storytelling Chris Bambery recounts the struggles for nationhood He charts the lives of Scots who changed the world as well as those who fought for the cause of ordinary people at home from the poets Robbie Burns and Hugh MacDiarmid to campaigners such as John Maclean and Helen Crawford This is a passionate cry for more than just independence but also for a nation based on social justice *Edward Irving Reconsidered* David Malcolm Bennett, 2014-11-04 Samuel Taylor Coleridge called Edward Irving a minister of Christ after the order of Paul Edward Irving was a great preacher probably the best in Georgian Britain He was also a profound theologian and a caring pastor Yet it is a strange fact of history that this Paul like minister of Christ was eventually removed from the church he had made famous unfairly expelled from his denomination for heresy and at the end of his brief life was demoted in the sect that emerged from his ministry Towards the end of Irving's life charismatic gifts emerged in his church amidst great controversy He had already developed a theological rationale for such gifting and his extensive teaching on spiritual gifts is still widely consulted today Edward Irving was and is a controversial figure It is time that his life ministry and teaching were reconsidered Who was Edward Irving How did he live What made him outstanding What made him so controversial What is his legacy These are the questions answered in *Edward Irving Reconsidered* It is a compelling story as sad as it is powerful **A New History of the Church in Wales** Norman

Doe, 2020-03-05 This book marks the centenary of the Church in Wales following its disestablishment in 1920 Part I provides a historical overview from the Age of the Saints to Victorian times the disestablishment campaign Christianity in Wales since 1920 and broad issues faced over the century Part II explores the constitution bishops and archbishops clergy and laity Part

III examines doctrine liturgy rites of passage and relations with other faith communities Part IV deals with the church and culture education the Welsh language and social responsibility Part V discusses the changing images of the Church and its future Around themes of continuity and change the book questions assumptions about the Church including its distinctive theology and Welshness ecumenical commitment approach to innovation and response to challenges posed by the State and wider world in an increasingly pluralist and secularised Welsh society over the century Political and Legal Perspectives Keith Robbins,2010 Political and Legal Perspectives highlights the impact of political change or democratization on religious reform in Northern Europe *The Doctrine of the Incarnation Opened* Edward Irving,2023-08-31 In *The Doctrine of the Incarnation Opened* an abridgement of Edward Irving's 1792-1834 sermons readers have fresh access to and insightful comment on Irving's distinctive views regarding the person of Jesus Christ The book follows the sermons in a logical progression the goal and method of the incarnation the events of the incarnate life and the death of Christ and the effects of the incarnation For Irving God the Son's assumption of a fallen human nature was of the utmost importance and garnered most attention This view also dominates Irving's soteriology according to which the incarnate Son takes over the human will reforming the very origin of sin and offers obedience to the Father as a sacrifice of praise Irving's radical Christological thought informed the thinking of notable theologians such as John McLeod Campbell Thomas F Torrance and Karl Barth With an introduction by G McFarlane and a critical response by J D Cameron *The Doctrine of the Incarnation Opened* provides an accessible format to engage with Irving's influential thoughts and ideas **Generosity and the Christian Future** George M. Newlands,2008-07-17 Based on the 1995 Henson Lectures delivered in the University of Oxford this study takes as its theme the Christian future and the development of a theology of generosity in response to the challenges likely to face Christian faith in the twenty first century In particular Professor Newlands wishes to explore the suggestion that Christ represents the ultimate generosity of God for humankind This leads him to concentrate on the contribution made by Christian doctrine to public issues and especially the relationship between Christology and human rights The author is centrally concerned that faith should remain in the public square and that the circle of faith should always be outward facing The result is a liberal pluralistic theology which regards the generous love of God in incarnation and reconciliation as a powerful stimulus to imaginative Christian thought and action In its robust portrayal of what Christianity ought properly to look like this book which emerges from the pen of the leading Scottish liberal theologian of his generation will be sure to stimulate and engage a wide variety of readers **Making Christian Decisions** George M. Newlands,2008-07-17 The life of faith in God constantly involves thinking for others acting in concern for other people Reflection upon such action involves Christian ethics As individuals we are concerned with personal ethics in our relationships with other individuals As persons in society and members of the Christian community we are concerned with social ethics with relationships in society as a whole and in Christian responsibility towards all human beings The purpose of this thought provoking book is to provide an account of the

implications of God's love for our response to a number of highly particular and urgent ethical issues in the modern world. In it George Newlands examines the major issues of the Church and the social order: peace and war in a nuclear age, personal relationships, sex and moral values, legal and medical ethical issues, respect for life and respect for persons and the meaning of justice within the conflicting interests of society. What Dr Newlands offers are not authoritative pronouncements on these issues but considered suggestions, and he shows how no area of life is excluded from the reality and the opportunity of making Christian decisions.

*God in Christian Perspective* George M. Newlands, 2008-07-17

In this book George Newlands seeks to work out a modern restatement of a Christian understanding of God: Father, Son and Spirit. Evil on the scale of experience in modern wars and the awareness of the variety of transcendent values in the pluralism of the contemporary world have tended to reinforce intellectual objections to traditional doctrines. If the whole picture must remain partly obscure to us, nevertheless we must continue to reflect on the character and activity of the God of the Christian faith and renew our attempts to describe and state beliefs. In the first part of his study Professor Newlands considers the sources of a Christian understanding of God and analyses the substantive content of the doctrine of God as creator and reconciler of the cosmos as personal self-differentiated transcendent being. The second part reflects on Christology and examines the social and ethical dimensions of the cost of discipleship. Throughout Professor Newlands demonstrates the importance of thinking about God not in unreflecting slogans but with all our intellectual resources.

*Theology of the Love of God* George M. Newlands, 2008-07-17

How can we make theology more constructive? Twentieth-century British discussion about the Christian image of God and myth of the Incarnation has been widely admired for its honesty but criticized as being too insular and too negative. Neither criticism applies to this book, the first major publication to come from the author who is now Professor Emeritus of Divinity at the University of Glasgow. He offers a systematic exposition of the most characteristic Christian doctrine in dialogue with other thinkers around the world and across the centuries. His aspiration is to do for love what eminent German theologians have recently done for faith and hope. He knows well that the idea of the love of God, although so prominent in the Bible, has been under fire in the modern world for many serious reasons, here taken seriously. Talk to God is notoriously complex, he writes, and talk of love notoriously sentimental. But he carefully demonstrates that the tradition that begins in the Bible is still vital enough to help crucially in the new urgent reconstruction of Christian belief. From a more profound theology of the love of God at work in the creation and redemption of man, a renewal of faith and hope would follow.

*The Church of God* George M. Newlands, 2008-07-17

The Church of God is a compact yet comprehensive account of the nature and activity of the Christian Church. George Newlands provides a most reliable guide to the main features of doctrinal development, considering the development of the Church, ministry and sacraments up to the present day and beyond, this to consider requirements for effective ministry of the Church in the future.

**Hilary of Poitiers** George M. Newlands, 2008-07-17

Hilary of Poitiers is perhaps the most neglected of the great Patristic theologians. In particular there

has been little detailed analysis of the biblical interpretation that provides the central strand of his theological mind His work on St Matthew is almost the first extant commentary in the Latin West It is analyzed here with a survey for the first time of the growth of the commentary as a literary form The relation between exegesis and theological method in his later work on the Trinity and the Psalms shows the development of his techniques and their theological consequences The concluding sections provide a critical evaluation of the role of Patristic material in contemporary theology with reference to the still intractable problem of the precise uses of the Bible in theology *Scottish Piety* A. C. Cheyne, 2007 Despite the multiplicity of scholarly works on Scottish church history which have appeared in recent decades very little has been written about what religious men and women would have regarded as their deepest concerns This anthology aims to rectify that omission by gathering together prayers and praises from writings by Scottish Christians since the time of the Reformation The quoted extracts range from William Dunbar and John Knox across the troubled times of the seventeenth and eighteenth centuries to the very recent past The volume concludes with commentary on a prayer by George MacLeod from Iona Throughout the text there is linking and explanatory commentary by the late Professor Cheyne distilling his immense knowledge and love of Scottish religious literature through his humorous and economic style **Nineteenth-Century Religion, Literature and Society** Naomi Hetherington, Clare Stainthorpe, 2020-12-14 This four volume historical resource provides new opportunities for investigating the relationship between religion literature and society in Britain and its imperial territories by making accessible a diverse selection of harder to find primary sources These include religious fiction poetry essays memoirs sermons travel writing religious ephemera unpublished notebooks and pamphlet literature Spanning the long nineteenth century c 1789 1914 the resource departs from older models of the Victorian crisis of faith in order to open up new ways of conceptualising religion Volume four on Disbelief and New Beliefs explores the transformation of the religious landscape of Britain and its imperial territories during the nineteenth century as a result of key cultural and intellectual forces **Celtic Culture** John T. Koch, 2005-12-16 This encyclopedia covers the entirety of the Celtic world both through time and across geography Although emphasizing the areas where Celtic languages and traditions survive into the present the work does not slight the reaches of the Celtic empire which was the largest language and cultural group on earth prior to the rise of Rome In some 1 500 articles many representing original research by the finest Celtic scholars the work covers the Celts from prehistory to the present giving comprehensive treatment to all topics from myth to music religion to rulers literature to language government to games and all topics in between *The Innes Review* , 2002 A journal of Scottish history Our Shadowed Present J. C. D. Clark, 2003 At a time of the widespread rejection of history by politicians and intellectuals Jonathan Clark's new book is a landmark defence of continuity a key account of how public morality civic involvement and our sense of tradition depend on what historians write Dictionary of International Biography ... , 2003 A biographical record of contemporary achievement together with a key to the location of the original biographical notes **The History**

**of Scottish Theology, Volume III** David Fergusson, Mark W. Elliott, 2019 This three volume series provides a critical examination of the history of theology in Scotland from the early middle ages to the close of the twentieth century In Volume Three the long twentieth century is examined with reference to changes in Scottish church life and society
