sheep displaced Gaelic Scots who had to either live elsewhere become crofters or emigrate The development of crofting communities dependant on growing potatoes and the lives of the people who lived in them is an essential part of this book While focused on Mull and Iona it is a fascinating story about the hardship that tenants experienced throughout Scotland Disease that decimated potato crops in 1846 caused famine starvation and great poverty People lost their livelihoods and were evicted from their homes Evictions starvation and government policy led to an upsurge in emigration Until economic conditions improved during the Crimean War emigration played a key role in the salvation of a starving population

The Centennial Cure Meaghan Elizabeth Beaton,2017-01-01 This book examines the intersection of state policy cultural development and commemoration during Canada s 1967 centennial celebrations It explores four initiatives that were undertaken in Nova Scotia to mark this anniversary and demonstrates one province s response to Lamontagne s appeal to stem Canada s cultural poverty These initiatives also reflected those larger social cultural economic and political transformations that took place in postwar Nova Scotia Further they help us understand the province s experience within the broader context of the development of modern Canadian cultural and social history
