Scottish Capital On The American Credit Frontier:

Scottish Capital on the American Credit Frontier William Gerald Kerr, 1976 This is an unusual frontier epic chronicling the West of credits and debits collateral and interest Capital was one of the most needed commodities in Texas and the West and Scottish financiers provided vital and massive amounts W G Kerr brings to this economic history a voluminous knowledge of Anglo Scottish financial activities in the U S capturing the capital cattle and properties and the men who owned and managed them

Scots in the North American West, 1790-1917 Ferenc Morton Szasz, 2000 Scots trappers dominated the fur trade often proving more loyal to clan than to trading company or nation Relying on centuries of experience raising livestock for British markets Scottish investors and managers became highly visible in the post Civil War western cattle industry with thriving outfits such as the Swan Land and Cattle Company in Wyoming They introduced new breeds to western ranching such as the Aberdeen Angus that remain popular today Similarly Scots herders dominated the western sheep industry running herds of over 100 000 animals Andrew Little s sheep ranch in Idaho was so famous that a letter addressed simply Andy Little USA found its intended recipient

The History of Foreign Investment in the United States to 1914 Mira Wilkins, 1989 From the colonial era to 1914 America was a debtor nation in international accounts owing more to foreigners than foreigners owed to us By 1914 it was the world s largest debtor nation Mira Wilkins provides the first complete history of foreign investment in the United States during that period The book shows why the United States was attractive to foreign investors and traces the changing role of foreign capital in the nation s development covering both portfolio and direct investment The immense new wave of foreign investment in the United States today and our return to the status of a debtor nation once again the world s largest debtor nation makes this strong exposition far more than just historically interesting Wilkins reviews foreign portfolio investments in government securities federal state and local and in corporate stocks and bonds as well as foreign direct investments in land and real estate manufacturing plants and even such service sector activities as accounting insurance banking and mortgage lending She finds that between 1776 and 1875 public sector securities principally federal and state securities drew in the most long term foreign investment whereas from 1875 to 1914 the private sector was the main attraction The construction of the American railroad system called on vast portfolio investments from abroad there was also sizable direct investment in mining cattle ranching the oil industry the chemical industry flour production and breweries as well as the production of rayon thread and even submarines In addition there were foreign stakes in making automobile and electrical and nonelectrical machinery America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts

Foreign Banks and Global Finance in Modern China Ghassan Moazzin, 2022-07-07 Explores how foreign banks financially connected modern China to international capital markets and the global economy

Jute and empire Gordon T Stewart, 2017-03-01 Dundee had an interesting role to play in the jute trade but the main player in the story of jute was Calcutta This book follows

the relationship of jute to empire and discusses the rivalry between the Scottish and Indian cities from the 1840s to the 1950s and reveals the architecture of jute's place in the British Empire. The book adopts significant fresh approaches to imperial history and explores the economic and cultural landscapes of the British Empire. Jute had been grown spun and woven in Bengal for centuries before it made its appearance as a factory manufactured product in world markets in the late 1830s. The book discusses the profits made in Calcutta during the rise of jute between the 1880s and 1920s; the profits reached extraordinary levels during and after World War I. The Calcutta jute industry entered a crisis period even before it was pumelled by the depression of the 1930s. The looming crisis stemmed from the potential of the Calcutta mills to outproduce world demand many times over. The St Andrew's Day rituals in Calcutta begun three years before the founding of the Indian Jute Mills Association. The ceremonial occasion helps the reader to understand what the jute wallahs meant when they said they were in Calcutta for the greater glory of Scotland. The book sheds some light on the contentious issues surrounding the problematic if ever intriguing phenomenon of British Empire. The jute wallahs were inextricably bound up in the cultural self images generated by British imperial ideology.

American Frontier and Western Issues Roger L. Nichols, 1986-10-08

The Investment Frontier John D. Haeger, 1981-01-01. The American West did not grow in isolation from the East. On the contrary New York financiers and other eastern entrepreneurs were crucial to America's western economic development providing the necessary capital and expertise to transform the West into a productive part of the nation's economy. This thesis is powerfully demonstrated by John Denis Haeger in this study concerning the Old Northwest the present day states of Ohio Michigan Indiana Illinois and Wisconsin during the years 1815-1840. The result of years of research in manuscript collections and government documents the book provides a comprehensive picture of early land speculators examining their investments in farm lands town lots banks and transportation improvements as well as their influence on western businessmen and institutions. It also explores their political and economic affairs on the East Coast since these matters dramatically affected the scope of their western investments. Historians' generalizations about nonresident investors or eastern speculators have previously assumed a common type and business method when in fact easterners possessed varying economic goals and utilized different business strategies. To demonstrate this Haeger compares and contrasts the promoter Charles Butler and the conservative speculators Isaac and Arthur Bronson key figures among New York's financial elite whose careers and strategies are for the first time described in detail. The activities of these investment pioneers whose every move was calculated to return profits challenge the traditional images of westward expansion as a largely unplanned and spontaneous movement of people and capital.
