The Book of Scottish Poems J. Ross, 2017-02-19 Excerpt from *The Book of Scottish Poems Ancient and Modern* Having prefaced the subject by an Historical Introduction the Editor has here simply to indicate some of the principles to which he has adhered and the considerations by which he has been influenced in the practical carrying out of the prospectus in which this exposition of the Poetry of Scotland was announced To exhibit Scottish poetry as an exponent of the breadth and depth of the national character was laid down as the leading aim of the work But while holding that its influence as a purifying consolidating and consecrating element is the main use of national poetry and that this consideration from a general and popular point of view should govern his treatment of it the Editor has not been indifferent to its linguistic bearings In the selection of poems and specimens simplicity adherence to nature and the predominance of character are features to which due deference has been paid but no rigid rule dispensing with the constant exercise of the judgment was adopted Poetical merit has been the leading consideration but the space given to each author is not to be taken as our estimate of their relative merits for in the cases of Burns Scott and Campbell their unmutated popularity is our reason for giving them a merely formal recognition About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
