confines of the academy showing us how a collection of poets popularizers critics surrealists neo Freudians and iconoclast savants shaped anthropology's imagination David Price St Martin's University Washington ANTHROPOLOGY IN THE PUBLIC ARENA This detailed survey of the evolution of anthropology in Britain is also a spirited defence of the public as well as professional role of the discipline The author argues for a broader vision of the value of anthropological knowledge that allows for the creative contributions of popular scientists and literary figures who often capture the public imagination and add much to our knowledge of human social relations Informed by original archival research and engaging narratives of the larger than life personalities of public intellectuals the author reveals the contributions of neglected but crucial figures such as John Layard Geoffrey Gorer Robert Graves and the originators of Mass Observation today's online repository of anthropological data MacClancy is guided by the notion that anthropology's continued dynamism requires an alliance of interests popular and academic that will recover marginalized studies and recognize the value of contributions from outside the university research community Its synthesis of diverse topics illuminates an anthropology that enriches the popular cultural discourse and serves as a versatile tool for exploring pressing issues of social organization and development The reframed narrative of British anthropological history that emerges is as integral to the future of the subject as it is informative about its past *Humphrey Jennings and British Documentary Film: A Re-assessment* Philip C.

Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings's film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible He shows for the first time exactly how Jennings's artistic expression was influenced by the fundamental intellectual social and cultural changes that shook British society during the first decades of the twentieth century Combining biography social history and international artistic thought the book offers a fascinating insight into Jennings his work the wider British documentary film movement and the interaction between art and propaganda Bringing together assessments of his tragically short life and his films this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s **Surrealism and the Exotic** Louise

Tythacott,2003-09-02 Surrealism and the Exotic is the story of the obsessive relationship between surrealist and non western culture Describing the travels across Africa Oceania Mexico and the Caribbean made by wealthy aesthetes it combines an insight into the mentality of early twentieth century collectors with an overview of the artistic heritage at stake in these adventures Featuring more than 70 photographs of artefacts exhibitions and expeditions in progress it brings to life the climate of hedonism enjoyed by Breton Ernst Durkheim and Mauss It is an unparalleled introduction to the Surrealist movement and to French thought and culture in the 1920s and 1930s Max Ernst and Alchemy M. E. Warlick,2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst s work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst s works as it affirms his standing as one of Germany s most significant artists of the twentieth century Minerals Yearbook ,1988 Picasso Arianna Stassinopoulos Huffington,1988 A biography of the twentieth century painter discussing his many relationships with women his children his philosophies and his work **Farewell to the Muse: Love, War and the Women of Surrealism** Whitney Chadwick,2017-11-14 A fascinating examination of the ambitions and friendships of a talented group of midcentury women artists Farewell to the Muse documents what it meant to be young ambitious and female in the context of an avant garde movement defined by celebrated men whose backgrounds were often quite different from those of their younger lovers and companions Focusing on the 1930s 1940s and 1950s Whitney Chadwick charts five female friendships among the Surrealists to show how Surrealism female friendship and the experiences of war loss and trauma shaped individual women s transitions from someone else s muse to mature artists in their own right Her vivid account includes the fascinating story of Claude Cahun and Suzanne Malherbe in occupied Jersey as well as the experiences of Lee Miller and Valentine Penrose at the front line Chadwick draws on personal correspondence between women including the extraordinary letters between Leonora Carrington and Leonor Fini during the months following the arrest and imprisonment of Carrington s lover Max Ernst and the letter Frida Kahlo shared with her friend and lover Jacqueline Lamba years after it was written in the late 1930s This history brings a new perspective to the political context of Surrealism as well as fresh insights on the vital importance of

female friendship to its progress
