Cinematic Appeals Ariel Rogers,2013-10-22 Cinematic Appeals follows the effect of technological innovation on the cinema experience specifically the introduction of widescreen and stereoscopic 3D systems in the 1950s the rise of digital cinema in the 1990s and the transition to digital 3D since 2005 Widescreen films drew the spectator into the world of the screen enabling larger than life close ups of already larger than life actors The technology fostered the illusion of physically entering a film enhancing the semblance of realism Alternatively the digital era was less concerned with manipulating the viewer s physical response and more with generating information flow awe disorientation and the disintegration of spatial boundaries This study ultimately shows how cinematic technology and the human experience shape and respond to each other over time Films discussed include Elia Kazan s *East of Eden* 1955 *Star Wars The Phantom Menace* 1999 *The Matrix* 1999 and Thomas Vinterberg s *Dogme* film *The Celebration* 1998 *Phantom Ladies* Tim Snelson,2014-11-15 Defying industry logic and gender expectations women started flocking to see horror films in the early 1940s The departure of the young male audience and the surprise success of the film *Cat People* convinced studios that there was an untapped female audience for horror movies and they adjusted their production and marketing strategies accordingly *Phantom Ladies* reveals the untold story of how the Hollywood horror film changed dramatically in the early 1940s including both female heroines and female monsters while incorporating elements of women s genres like the gothic mystery Drawing from a wealth of newly unearthed archival material from production records to audience surveys Tim Snelson challenges long held assumptions about gender and horror film viewership Examining a wide range of classic horror movies Snelson offers us a new appreciation of how dynamic this genre could be as it underwent seismic shifts in a matter of months *Phantom Ladies* therefore not only includes horror films made in the early 1940s but also those produced immediately after the war ended films in which the female monster was replaced by neurotic psychotic or hysterical women who could be cured and domesticated *Phantom Ladies* is a spine tingling eye opening read about gender and horror and the complex relationship between industry and audiences in the classical Hollywood era
