The Queer Coming of Age Film Genre Brad Windhauser, 2024-10-15 In *The Queer Coming of Age Film Genre* Brad Windhauser argues for the existence of this genre and using a genre and queer theory lens investigates how the initial classic cluster of this genre's films represent the unique issues experienced by queer people including trans non binary and intersex individuals coming of age in society in the mid to late 90s As society evolved the book posits so too did the ways in which these films explored additional factors influencing the queer coming of age experience such as race and economic status in the genre's second stage Windhauser explores how this genre depicts the way queer people often engage with the coming of age process earlier than their cis het peers due to their queer identity but also how this process can extend beyond adolescence into emerging adulthood and adulthood itself Ultimately the book demonstrates how these films have become a tool to both further political goals of queer advocacy and acceptance and to offer guidance to queer people looking to gain a deeper understanding of their own lives and experiences Scholars of film studies genre studies pop culture and queer studies will find this book of particular interest

American International Pictures Rob Craig, 2019-02-15 *American International Pictures* was in many ways the missing link between big budget Hollywood studios poverty row B movie factories and low rent exploitation movie distributors AIP first targeted teen audiences with science fiction horror and fantasy but soon grew to encompass many genres and demographics at times it was indistinguishable from many of the major studios From *Abby Cadabby* to *Zontar* this filmography lists more than 800 feature films television series and TV specials by AIP and its partners and subsidiaries Special attention is given to American International Television the TV arm of AIP and an appendix lists the complete AITV catalog The author also discusses films produced by founders James H Nicholson and Samuel Z Arkoff after they left the company

Uncoding the Digital D. Savat, 2012-11-27 Digital media are having an enormous impact on the world From the seemingly mundane like playing *World of Warcraft* to posting a message on Twitter or Facebook to the operation of financial markets to transformations in science and the economy digital media continue to revolutionize how people live their daily life This book challenges how we understand our relationship with our digital machines and shows how they open up a new capacity for action in the world A capacity for action that we should no longer simply think of in terms of movement and force but also in terms of flow and viscosity A capacity for action that produces a politics of fluids and finds its expression not only in new forms of social control but also in a renewed ability for people to engage with the world and each other

Organizational and Social Perspectives on Information Technology

Richard Baskerville, Jan Stage, Janice I. DeGross, 2013-03-14 The articles in this book constitute the proceedings papers from the IFIP WG 8.2 Working Conference IS2000 The Social and Organizational Perspective on Research and Practice in Information Technology held June 10-12 2000 in Aalborg Denmark The focus of the conference and therefore this book is on the basic aim of the working group namely the investigation of the interrelationships among four major components information systems IS information technology IT organizations and society This basic social and organizational perspective on research and practice in information technology may have evolved substantially since the founding of the group for example increasing the emphasis on IS development The plan for the conference was partially rooted in the early WG 8.2 traditions in which working conferences were substantially composed of invited papers For IS2000 roughly half of the paper presentations were planned to be invited the remaining half were planned to be double blind refereed in response to a Call For Papers Invited papers were single blind reviewed in order to provide the authors with pre publication feedback and comments along with the opportunity to revise their papers prior to its final incorporation in this book **Screen World, 1997**, 1998 Environmental Integration Ton Bührs, 2009-04-09 The environmental challenges facing humankind can most effectively be met through environmental integration incorporating environmental considerations into everyday human thinking behavior and practices at both the individual and collective levels Increasingly people and organizations throughout the world are taking the environment into account but at the same time there is insufficient integration of attitudes policies and programs People and groups have different and often conflicting views and interpretations of what is desirable or required to protect the environment Environmental Integration looks at the ways that governments can play a crucial role in advancing promoting and shaping a singular integrated environmental policy *Korean War Filmography* Robert J. Lentz, 2016-05-01 The Korean experience changed the way Americans viewed war The lack of a clear cut victory inspired filmmakers to try to make sense of fighting another country's civil war and risking American lives for an unpopular cause This filmography details more than 90 English language films Each entry includes complete cast and credit listings a plot synopsis evaluation review snippets and notice of video availability This book places each film in its historical context assesses the essential truthfulness of each film and evaluates its entertainment value and discusses how and why Korean War films differ from other Hollywood war genres Four appendices list the films by chronology production company and studio level of historical accuracy and subject and theme Additional appendices list films with incidental references to the Korean War documentaries on the Korean War and South Korean films about the war Photographs a bibliography and an index are included **The World's Paper Trade Review**, 1914 *Consuming Environments* Mike Budd, Steve Craig, Clayton M. Steinman, 1999 This is an exploration of how much TV people watch why they watch too much and what they see The authors argue that while people may have good reasons for watching television they seem to be unaware that such habits might be harmful to their environmental health The book examines how advertising and media companies have shaped the commercial

content of most television tracing industry motives and operations and their increasing concentration in fewer hands
