Voice and Vision: A Creative Approach to Narrative

Film and DV Production Mick Hurbis-Cherrier, 2007-03-13 Voice Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools, techniques and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line producing aspects of production, Voice Vision places creativity, visual expression and cinematic ideas front and center. After all, every practical decision a filmmaker makes like choosing a location, an actor, a film stock, a focal length, a lighting set up, an edit point or a sound effect is also an expressive one and should serve the filmmaker's vision. Every decision, from the largest conceptual choices to the smallest practical solutions, has a profound impact on what appears on the screen and how it moves an audience. In Practice sidebars throughout Voice Vision connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual narrative or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges. **Consumerism on TV** Alison Hulme, 2016-03-09 Presenting case studies of well-known shows including Will and Grace, Birds of a Feather, Sex and the City and Absolutely Fabulous as well as reality television, this book examines the transformations that have occurred in consumer society since its appearance and the ways in which these have been

constructed and represented in popular media imagery. With analyses of the ways in which consumerism has played out in society, Consumerism on TV highlights specific aspects of the changing nature of consumerism by way of considerations of gender, sexuality and class as well as less definable changes such as those to do with the celebration of ostentatious greed or the righteousness of the ethical shopper. With attention to the highly delineated consumer field in which shopping as an

embedded practice of everyday life is caught between escapism and politics authors explore a variety of themes such as the extent to which consumerism has become embedded in forging identity the positing of consumerism as a form of activism the visibility of the gay male consumer and invisibility of the lesbian consumer and the re stratification of consumer types along class lines An engaging invitation to consider whether the positioning of consumerism through on screen depictions is indicative of a new type of non philosophical politics of choice a form of marketised a political pragmatism this book will appeal to scholars and students of sociology and cultural and media studies with interests in class consumption and gender
