The Crucifixion and the Qur'an Todd Lawson, 2014-10-01 The first book to examine the controversial Qur'anic phrase which divides Christianity and Islam According to the majority of modern Muslims and

Christians the Qur'an denies the crucifixion of Jesus and with it one of the most sacred beliefs of Christianity. However, it is only mentioned in one verse: "They did not kill him and they did not crucify him; rather, it only appeared so to them" and, contrary to popular belief, its translation has been the subject of fierce debate among Muslims for centuries. This innovative work is the first book devoted to the issue, delving deeply into largely ignored Arabic sources which suggest that the origins of the conventional translation may lie within the Christian Church. Arranged along historical lines and covering various Muslim schools of thought from Sunni to Sufi, *The Crucifixion and the Qur'an* unravels the crucial dispute that separates the World's two principal faiths. **Between the Ideal and the Real** Akeel Abbas, 2024-06-04 *Between the Ideal and the Real* describes why Iraq's state building and democratic transformation failed by offering a very new and unusual perspective away from the usual blame assigned to the US that has become part of the conventional wisdom about Iraq and the Middle East. Although the book acknowledges US failings in Iraq, the main argument it presents is that the main causes of failure lie in a problematic alliance between Iraqi Shiite Islamist parties and the clerical establishment in Najaf led by Ayatollah Sistani. To appreciate this new perspective, the book takes you into the history of Iraqi Shiism both as a set of doctrinal and theological beliefs about the world and a lived experience by ordinary Iraqi Shias. The book argues that this understanding hindered Shias from embracing many products of modernity such as nationalism, individualism, humanism, and democratic rule by consolidating a primordial group identity that ties people to the past, a particular kind of past based on doctrinal supremacy and historical victimhood. Combined, the two have the negative effect of depriving ordinary Iraqi Shias of a personal sense of agency and contributing to a general spirit skeptical of difference. The book also documents people's push back against this restrictive approach to reality in a variety of contexts. Based on extensive historical and doctrinal research into the distant past of Shiism, the book links the past to the present by examining the unfortunate consequences that grow out of the insistence to allow pre-modern values determine the modern experience of life. **The Nuṣayrī-'Alawīs** Yaron Friedman, 2010 Friedman offers new and updated research on the Nusayr Alaw sect, today a leading group in Syria, covering a variety of aspects and focusing on the Middle Ages. A century after Dussaud's *Histoire et religion des Nusayris* (1900), he reviews the history and religion of the sect in the light of old documents used by orientalists in the nineteenth century, documents that became available in the twentieth century, and later sources of the Nusayr Alaw sect published most recently in Lebanon. Also studied in depth for the first time is the question of the identity of the sect through the Alaw-Sunn-Shi triangle. **Kitāb Fī Al-ālāt Al-falakīyah** François Charette, 2003-01-01 This study of mathematical instrumentation in the Mamluk world contains the edition and translation of a unique, richly illustrated treatise and provides a fascinating historical account of several instrument models that were thus far unknown or inadequately documented. **Studies in the History of the Exact Sciences in Honour of David Pingree** Jan P.
