Marie Tribe of Chippewa Indians United States. Congress. House. Committee on Resources, 2004 **An Account of Ingham County from Its Organization** Frank N. Turner, 1924 **Our Hidden Settlement** Mona Ballge Miron, 2023-08-07 My journey goes back in time to Burton Michigan s history when it was still the Atherton Settlement 1835 1855 Genesee County was formed in 1836 Michigan wasn t even a state until 1837 This was an exciting time for new families to settle here finding land of their own for the first time freedom of religion and new adventures I ll be going through the yearly traditions behind the holidays and inventions along the way I hope you enjoy my historical journey Learning about the settlers on Thread River was a lot of fun how they made the Atherton Trail the four Atherton families working together to survive the cold winters They built strong shelters saved food and wood for the winter with the help of the natives In 1835 the Atherton Settlement was established the Atherton families built a strong community over the next twelve months with thirty families They built their homes barns wagons three churches a mill and a trading post The first school in the settlement was founded in 1836 the

Atherton School was a one room schoolhouse built on the corner of Atherton Trail and Center Road where the Burton Memorial Library sits now Betsey Atherton was the first teacher Throughout my research we have a lot to be thankful for especially the four Atherton men that were brave enough to stay and never give up on the settlement As more people joined the settlement for the next 20 years some had military backgrounds and mostly coming from New York With all manner of trades to prosper as the community when more schools were needed the farmers would build one in each area for the children 1855 Atherton Settlement combined with other farms to become Burton Township the second largest township but without a post office so HIDDEN *History of Ottawa County, Michigan* ,1882 *Company Towns of Michigan's Upper Peninsula* Christian Holmes,2015-06-15 In the company towns of Michigan s Upper Peninsula a worker s boss did extra duty as landlord store owner and constable The on site mill manager in Simmons a town named after the furniture maker even ran a successful baseball team Built around iron mines and lumber concerns and directed by prominent entrepreneurs like Henry Ford these industrial hamlets once lined the shores of Lakes Michigan and Superior Author Christian Holmes uncovers rich stories of struggle and celebration as he explores the vestiges of these vanished communities and their lasting legacy in the identity of the Upper Peninsula **Economic and Social Beginnings of Michigan** George Newman Fuller,1916

History of Kent County, Michigan ,1881 Proceedings ,1971 Transcript of Proceedings ,1970 Large Lakes Max M. Tilzer,Colette Serruya,2012-12-06 The vast majority of the world s lakes are small in size and short lived in geological terms Only 253 of the thousands of lakes on this planet have surface areas larger than 500 square kilometers At first sight this statistic would seem to indicate that large lakes are relatively unimportant on a global scale in fact however large lakes contain the bulk of the liquid surface freshwater of the earth Just Lake Baikal and the Laurentian Great Lakes alone contain more than 38% of the world s total liquid freshwater Thus the large lakes of the world accentuate an important feature of the earth s freshwater reserves its extremely irregular distribution The energy crisis of the 1970s and 1980s made us aware of the fact that we live on a spaceship with finite that is exhaustible resources On the other hand the energy crisis led to an overemphasis on all the issues concerning energy supply and all the problems connected with producing new energy The energy crisis also led us to ignore strong evidence suggesting that water of appropriate quality to be used as a resource will be used up more quickly than energy will Although in principle water is a renewable resource the world s water reserves are diminishing in two fashions the effects of which are multiplicative enhanced consumption and accelerated degradation of quality **Federal Register** ,2006-08 **Eugenical News** ,1927
