Picture-Writing of the American Indians Garrick Mallery, 2021-05-20 In Picture Writing of the American Indians Garrick

Mallery presents a comprehensive examination of the visual language utilized by various Native American tribes. Through meticulous analysis of pictographs and symbols, Mallery uncovers the unique narrative structures and cultural significance embedded in these forms of communication. His scholarly approach is enriched by detailed illustrations which not only serve to enhance the text but also aim to place these tribal expressions within their historical and cultural contexts effectively bridging the gap between art and linguistics. Mallery's work aligns with the 19th-century fascination with ethnography, offering insights into the semiotic systems of indigenous Americans that underscore their complex societies and worldviews. Garrick Mallery, an influential figure in the field of anthropology and linguistics during the late 19th century, contributed significantly to the understanding of Native American cultures. His career was shaped by his interest in preserving indigenous languages and symbols, leading him to explore the intersections of art and communication. Mallery's work is not only a testament to his scholarly rigor but also reflects a deep respect for the unique cultural identities of the tribes he studied. For readers interested in the intricate tapestry of Native American heritage, Mallery's *Picture Writing of the American Indians* is an indispensable resource. Deafening Modernism Rebecca Sanchez, 2015-10-02 *Deafening Modernism* tells the story of modernism from the perspective of Deaf critical insight. Working to develop a critical Deaf theory independent of identity-based discourse, Rebecca Sanchez excavates the intersections between Deaf and modernist studies. She traces the ways that Deaf culture, history, linguistics, and literature provide a vital and largely untapped resource for understanding the history of American language, politics, and the impact that history has had on modernist aesthetic production. Discussing Deaf and disability studies in these unexpected contexts highlights the contributions the field can make to broader discussions of the intersections between images, bodies, and text. Drawing on a range of methodological approaches, including literary analysis and history, linguistics, ethics, and queer cultural and film studies, Sanchez sheds new light on texts by T. S. Eliot, Ezra Pound, Gertrude Stein, William Carlos Williams, Charlie Chaplin, and many others. By approaching modernism through the perspective of Deaf and disability studies, *Deafening Modernism* reconceptualizes deafness as a critical modality, enabling us to freshly engage topics we
