Imaginations of female rule and the imaginative strategies of women rulers What is the gender of political power What happens to the history of sovereignty when we reconsider it from a gender perspective Political sovereignty has been a major theme in European thought from the very beginning of intellectual reflection on community Philosophy and political theory historiography theology and literature and the arts have often in dialogue with one another sought to represent or recalibrate notions of rule Yet whatever covenant was imagined sovereign rule has consistently been figured as a male prerogative While in depth studies of historical women rulers have proliferated in the past decades these have not systematically explored how all women rulers throughout the entirety of European culture have had to operate in a context that could not think power as female except in grotesque terms Strategic Imaginations demonstrates that this constitutive tension can only be brought out by studying women s political rule in a comparative and longue dur e manner The book offers a collection of essays that brings together studies of female sovereignty from the Polish Lithuanian to the British Commonwealth and from the Middle Ages to the genesis of modern democracy It addresses historical figures and takes stock of the rich yet unsettling imagination of female rule in philosophy literature and art history For all the variety of geographical social and historical contexts it engages the book reveals surprising resonances between the strategies women rulers used and the images and practices they adopted in the context of an all pervasive skepticism toward female rule **The Oxford Handbook of Politics and**

Performance Shirin Rai,Milija Gluhovic,Silvija Jestrovic,Michael Saward,2021 While political scientists and political theorists have long been interested in social and political performance and theatre and performance researchers have often focused on the political dimensions of the live arts the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored This volume brings together leading scholars in the fields of Politics and Performance drawing on experts across the fields of literature law anthropology sociology psychology and media and communication as well as politics and theatre and performance to map out and deepen the evolving interdisciplinary engagement Organized into seven thematic sections the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that to a large extent they also share a common communicational base and language *Watching the Watchers* H. Bochel,A. Defty,J. Kirkpatrick,2014-09-09 This study offers the first detailed examination of the varied means by which parliament through its committees and the work of

individual members has sought to scrutinise the British intelligence and security agencies and the government's use of intelligence

Norms, Storytelling and International Institutions in China Xiaoyu Lu, 2021-02-15 This book is a political ethnography of norm diffusion and storytelling through international institutions in China. It is driven by intellectual puzzles and realpolitik questions: are we converging or diverging on values? Do emerging powers reinforce or reshape the existing international order? Are international institutions socialising emerging powers or being used to promote alternative norms? This book addresses these questions through fieldwork research over three years at the United Nations Development Programme in China, the first international development agency to enter post-reform China in 1979. It provides a crucial case to study the everyday practices of norm diffusion in emerging powers and highlights the central role of storytelling in translating and contesting normative scripts. The book selects norms in human rights, rule of law and development cooperation to analyse how translators and brokers innovatively use stories to advocate and how these normative stories move back and forth between local/global spaces and orders. A fascinating ethnography that tells us much about international institutions and China's changing role in the world of interest both to China specialists and theorists of international relations. Rana Mitter, Director of the University of Oxford China Centre, University of Oxford, UK. Through pioneering ethnographic research, Xiaoyu Lu's outstanding book makes a major contribution to our understanding of norm diffusion and the ways in which China is shaping and is shaped by international development norms. Lu's richly textured analysis shows how norm translators use case studies, personal stories and other narratives to negotiate between global and local normative orders and to facilitate the day-to-day processes of norm diffusion. Amy King, Associate Professor, Strategic and Defence Studies Centre, Australian National University, Australia. An intricate account of the everyday politics in international development institutions that will enrich our understanding of emerging powers and their roles in global development. Emma Mawdsley, Director of the Margaret Anstee Centre for Global Studies, University of Cambridge, UK.

Organizational Ethnography Sierk Ybema, Dvora Yanow, Harry Wels, Frans H. Kamsteeg, 2009-08-20 Just as newspapers do not typically engage with the ordinary experiences of people's daily lives, so organizational studies has also tended largely to ignore the humdrum everyday experiences of people working in organizations. However, ethnographic approaches provide in-depth and up-close understandings of how the everydayness of work is organized and how in turn work itself organizes people and the societies they inhabit. Organizational Ethnography brings contributions from leading scholars in organizational studies that serve to unpack an ethnographic perspective on organizations and organizational research. The authors explore the particular problems faced by organizational ethnographers, including questions of gaining access to research sites within organizations, the many styles of writing organizational ethnography, the role of friendship relations in the field, problems of distance and closeness, the doing of at-home ethnography, ethical issues, standards for evaluating ethnographic work. This book is a vital resource for organizational scholars and students doing or writing ethnography in the fields of business and management, public

administration education health care social work or any related field in which organizations play a role

The Grammar of Politics and Performance Shirin M Rai, Janelle Reinelt, 2014-12-05 This volume brings together important work at the intersection of politics and performance studies While the languages of theatre and performance have long been deployed by other disciplines these are seldom deployed seriously and pursued systematically to discover the actual nature of the relationship between performance as a set of behavioural practices and the forms and the transactions of these other disciplines This book investigates the structural similarities and features of politics and performance which are referred to here as grammar a concept which also emphasizes the common communicational base or language of these fields In each of the chapters included in this collection key processes of both politics and performance are identified and analyzed demonstrating the critical and indivisible links between the fields The book also underlines that neither politics nor performance can take place without actors who perform and spectators who receive evaluate and react to these actions At the heart of the project is the ambition to bring about a paradigm change such that politics cannot be analyzed seriously without a sophisticated understanding of its performance All the chapters here display a concrete set of events practices and contexts within which politics and performance are inseparable elements This work will be of great interest to students and scholars in both International Relations and Performance Studies

The Collaborative Constitution Aileen Kavanagh, 2023-10-26 In this book Aileen Kavanagh offers a fresh account of how we should protect rights in a democracy Departing from leading theoretical accounts which present the courts and legislature as rivals for constitutional supremacy Kavanagh argues that protecting rights is a collaborative enterprise between all three branches of government the Executive the legislature and the courts On a collaborative vision of constitutionalism protecting rights is neither the solitary task of a Herculean super judge nor the dignified pronouncements of an enlightened legislature Instead it is a complex dynamic and collaborative endeavour where each branch has a distinct but complementary role to play whilst engaging with each other in a spirit of comity and mutual respect Connecting constitutional theory with the practice of protecting rights in a democracy this book offers an innovative understanding of the separation of powers grounded in the values and virtues of constitutional collaboration

Deliberation Naturalized Ana Tanasoca, 2020-08-13 Democratic theory's deliberative turn has hit a dead end It is unable to find a good way to scale up its small scale formally organized deliberative mini publics to embrace the entire community Some turn to deliberative systems for a way out but none have found in that a credible way of deliberatively involving the citizenry at large Deliberation Naturalized offers an alternative way out one we have been using all along The key sites of democratic deliberation are citizens everyday political conversations networked across the community Informal networked deliberation is how all citizens actually deliberate together directly or indirectly That is how public opinion emerges in civil society Networked deliberation satisfies the classic deliberative desiderata of inclusion equality and reciprocity albeit differently than standard mini publics Reconceptualizing democratic deliberation in those

terms highlights some real threats to the networked mode of deliberative democracy such as polarization message repetition and pluralistic ignorance Deliberation Naturalized assesses the extent of each of those threats and proposes ways of protecting real existing deliberative democracy against them By focusing on the mechanisms underpinning everyday democratic deliberation among ordinary citizens Deliberation Naturalized offers a truly novel approach to deliberative democracy

Europe, Discourse, and Institutions Cristian Nitoiu, Nikola Tomic, 2014-07-25 This book focuses on how discourse and various narratives contribute to the construction of the European Union as a political actor thus seeking to challenge the more established approaches to the study of the Union It sheds light on the way discourses about the European Union are created perpetuated and then translated into policy outcomes Most of the contributions attempt to account for the differences that usually arise between discourse and policy practices The methods employed range from more traditional variants of discourse analysis to other more radical versions that emphasize power or to critical or differential reading of policy narratives and ethnography Policy areas such as trade enlargement foreign policy and the European Neighbourhood Policy ENP are discussed while a particular interest is awarded to the European Parliament and the Commission In doing so the contributions shed light on the role discourse plays in relation to policies institutional practices and value representations at the European level Moreover the authors analyse the different actors and structures that create and perpetuate discourses within the EU highlighting new insights that a focus on discourse can bring to the field of European Union studies This book was published as a special issue of Perspectives on European Politics and Society
