The American Catalogue, 1901 American national trade bibliography **AB Bookman's Weekly**, 1999 Ghost Ship
Mary Higgins Clark, 2012-10-01 Thomas loves his summer visits to his grandmother's on Cape Cod. He spends his days wondering about the sailing ships of the past and imagining their stories. One afternoon after a night of terrible thunderstorms, Thomas finds deep in the sands a weathered old-fashioned belt buckle. When he picks it up, a boy his own age appears before him. His name is Silas Rich, a cabin boy from a ship called the Monomoy that sailed almost 250 years ago. As Silas tells his tale, suddenly the world of sailing ships is very near indeed. Crothers, 2014-08-13 This book describes the intricacies of the construction and fabrication more than 150 years ago of masts and yards installed in American merchant vessels, particularly those spars which were built or composed of multiple pieces bound together by iron bands. These were referred to as made spars as opposed to spars constructed from a single tree. It also contains instructions for developing the shape and proportions of various spars. Very little information is available on this subject. Generally the external sizes of individual spars can be found, but intimate details are sorely neglected. In addition, the book includes the spacing and location of masts in a ship and the rake, and it discusses the types of wood that are most desirable in the construction of spars. **The American Catalogue**, 1941 Hoping to avoid the worry of caring for a valuable object, Miss Teaberry gives away the locket her cat finds in the garden, only to find herself enmeshed in a situation of escalating chaos. **Rulership in 1st to 14th century Scandinavia** Dagfinn Skre, 2019-12-16 This book seeks to revitalise the somewhat stagnant scholarly debate on Germanic rulership in the first millennium AD. A series of comprehensive chapters combines literary evidence on Scandinavia's politics, kings, and other rulers with archaeological, documentary, toponymical, and linguistic evidence. The picture that emerges is one of surprisingly stable rulership institutions, sites, and myths, while control of them was contested between individuals, dynasties, and politics. While in the early centuries Scandinavia was integrated in Germanic Europe, profound societal and

cultural changes in 6th century Scandinavia and the Christianisation of Continental and English kingdoms set northern kingship on a different path The pagan heroic warrior ethos essential to kingship was developed and refined only to recur overseas embodied in 9th 10th century Vikings Three chapters on a hitherto unknown masonry royal manor at Avaldsnes in western Norway excavated 2017 concludes this volume with discussions of the late medieval peak of Norwegian kingship and its eventual downfall in the late 14th century This book's discussions and results are relevant to all scholars and students of 1st millennium Germanic kingship politics and societies **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1898 **Bibliography of Nautical Books** ,1998
