Los Dominados Y El Arte De La Resistencia By James C Scott:

Los dominados y el arte de la resistencia James C. Scott, 2003-04 Con base en un conocimiento profundo de la historia y la literatura James C Scott ofrece una propuesta original para el estudio de las relaciones de poder Parte de un hecho incuestionable que los actores de la vida social y la política no reducen sus intervenciones al escenario público Por el contrario los temas de mayor importancia se dirimen fuera del alcance del adversario y los mecanismos con que los dominados ocultan o disimulan sus propósitos resultan vitales aun en situaciones de relativa estabilidad Esta obra ha suscitado el replanteamiento de las nociones de subordinación y resistencia hegemonía cultura popular y movimientos sociales Est considerada como una de las mayores contribuciones teóricas al debate contemporáneo sobre las relaciones de poder

Domination and the Arts of Resistance James C. Scott, 2008-10-01 Play fool to catch wise proverb of Jamaican slaves Confrontations between the powerless and powerful are laden with deception the powerless feign deference and the powerful subtly assert their mastery Peasants serfs untouchables slaves laborers and prisoners are not free to speak their minds in the presence of power These subordinate groups instead create a secret discourse that represents a critique of power spoken behind the backs of the dominant At the same time the powerful also develop a private dialogue about practices and goals of their rule that cannot be openly avowed In this book renowned social scientist James C Scott offers a penetrating discussion both of the public roles played by the powerful and powerless and the mocking vengeful tone they display off stage what he terms their public and hidden transcripts Using examples from the literature history and politics of cultures around the world Scott examines the many guises this interaction has taken throughout history and the tensions and contradictions it reflects Scott describes the ideological resistance of subordinate groups their gossip folktales songs jokes and theater their use of anonymity and ambiguity He also analyzes how ruling elites attempt to convey an impression of hegemony through such devices as parades state ceremony and rituals of subordination and apology Finally he identifies with quotations that range from the recollections of American slaves to those of Russian citizens during the beginnings of Gorbachev's glasnost campaign the political electricity generated among oppressed groups when for the first time the hidden transcript is spoken directly and publicly in the face of power His landmark work will revise our understanding of subordination resistance hegemony folk culture and the ideas behind revolt

Resistance in the Iberian Worlds from the Fifteenth to the Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities

demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com [Interacting Francoism](#) José M. Faraldo, Gutmaro Gómez Bravo, 2023-06-23 The book presents various investigation into 20th century European dictatorships with its focus on Franco's dictatorship and the Spanish Civil War Francisco Franco's dictatorship in Spain 1936-1939-1975-1978 was a modern form of authoritarianism with a strong totalitarian period like many other dictatorships of the time Francoism occupies a place in history alongside other different dictatorships of its age and a comparative analysis might prove to be a powerful tool in order to understand how in the middle of the 20th century such a repressive and authoritarian form of political control emerged One of the most forgotten fascisms which at the same time was influenced by and influenced other dictatorships there are many aspects of the transnational connections of Francoism that remain under researched Following this methodology thus an attempt is made to situate Francoism in the context of the other dictatorships of the time in an attempt to transcend explanations centered on the nation The chapters cover groundbreaking topics such as the Spanish Civil War as one of the first total wars or Spanish fascism in context as one of the main European totalitarianisms The chapters always have more than one dimension they speak of interrelation entanglement collaboration and diffusion and in general put the different dictatorships essentially Francoism diverse Fascisms and Communism in context and comparison *Reseña de "Los dominados y el arte de la resistencia. La verdadera historia del laberinto Gabriela Vallejo Cervantes,2002

Alguien de lava Fabio Morábito,2002 Detenerse a observar es la actividad predilecta del poeta Fabio Morábito En la quietud en el silencio en la atención total se gesta el poema La persona a la que alude el título de este libro Alguien de lava es ese testigo detenido y que como la lava está por petrificarse que mira las cosas que suceden Y las cosas no es una mera generalización sino al contrario es las cosas mismas los objetos las menudencias con que la vida se adereza Los poemas de Morábito comienzan con lo particular el microscopio y poco a poco se esponjan se expanden con la ayuda de una sabiduría dátil y terminan en lo universal el telescopio

El azul en la flama David Huerta,2002 El azul en la flama nueva estación de uno de los itinerarios poticos más deslumbrantes y sentidos de nuestra viva tradición es el pulido testimonio de un viaje hacia adentro hacia afuera en el que el oficio ha sabido aliar con maestría los imperios de la razón y los sentidos La mirada lúcida de David Huerta descubre paisajes autosuficientes en inusitados lugares abre ventanas en los muros que la costumbre y el discurso lógico levantan con terquedad y que por parecerse tanto a lo que hemos convenido en llamar realidad ni siquiera intuimos que estaban ahí

Los rituales del caos Carlos Monsiváis,2001 Si además de la realidad algo se opone a lo uniforme son las crónicas urbanas de personajes y creencias Así por ejemplo este auge de lo diverso admite la convivencia divertida o resignada contradictoria y complementaria de Luis Miguel y el Niño Fidencio de El Santo el enmascarado de Plata y el Metro de Sting y los coleccionistas de pintura virreinal Lo antes mencionado en un sentido digamos que positivo apunta al caos en esta oportunidad no la alteración de las jerarquías sino la gana de vivir como si las jerarquías no estuviesen aquí sobre uno y dentro de uno Y el caos en el sentido de marejada del relajo y suefio de la trascendencia usa también de esas fijeza en el tumulto que llamamos rituales Aunque no se perciba en las grandes ciudades las jerarquías se mantienen rígidas y al mismo tiempo las jerarquías pierden su lugar y se deshacen en la trampa de los sentidos en el embotellamiento de seres automviles pasiones circunstancias Y mientras esto acontece son los rituales esa última etapa de permanencia los que insisten en la fluidez de lo nacional En la más intensa de las transformaciones concebibles las ceremonias objeto de estas crónicas aportan las últimas pruebas de continuidad

Tlapalería Elena Poniatowska,2003 Ocho cuentos breves envolventes cautivantes de principio a fin se reúnen en este volumen reflejando estados anímicos reflexionando sobre los miedos ansiedades pasiones la desilusión se cuele como un mal venéreo atraviesa dolorosamente las páginas esas páginas tan llenas de presencia humana tan perfumadas a México el hermoso irreflexivo alborotado y profundo México La droga el amor la soledad el engaño perros alcachofas que se muerden en un rito sensual que aliviana el sufrimiento de las vidas mal vividas son tantas las imágenes tantos los sonidos los personajes que huelen y respiran como si uno pudiese tomarlos extraerlos ya con cuerpo de nervio y sangre y huesos desde las letras palabras y frases de cada una de las ocho historias

Escritos paulinos Carlos Gil Arbiol,2024-02-12 Las cartas escritas por Pablo o por sus discípulos suponen la mitad del Nuevo Testamento Su

importancia en el naciente cristianismo así como en la creación del canon bíblico fue sobresaliente. Su historia de composición nos descubre la vida de los primeros creyentes en Jesús en su riqueza pluralidad y complejidad. Conocer estas obras en sus dimensiones histórica literaria y teológica es esencial para poder interpretarlas adecuadamente en el siglo XXI. Estudiantes de teología de historia de filosofía y de exégesis entre otros encontrarán en este libro un acceso razonado y justificado a uno de los textos más influyentes de la humanidad.

La dimensión popular de la política en los orígenes del mundo contemporáneo
Pedro Rújula, 2025-09-08

La participación popular constituye uno de los elementos más novedosos de la política contemporánea. A partir de la Revolución francesa la sociedad europea experimenta un proceso de politización acelerado que termina transformando la naturaleza misma de la política. Las clases populares irrumpieron como un actor clave en el equilibrio institucional para dar origen a un nuevo espacio político mucho más participativo que ir construyéndose al hilo de los acontecimientos y en el que se forjaron las primeras nociones políticas de aquellos que acababan de llegar siguiendo la estela de proclamas y banderas. Además la política no llegaba sola sino acompañada de la acción y de la necesidad. No era tanto ideología o ideario como ideas asociadas a momentos que requieren la intervención. La política ofrecía justificación y explicaciones para lo que estaba sucediendo y daba sentido a las acciones en las que los individuos se venían implicados. Lo político en tiempos de guerra y de revolución lo invade todo porque en contextos confusos y agitados como aquellos las acciones se cargaban rápidamente de significación política. De este periodo de formación del espacio político contemporáneo trata este libro y en particular de la manera en que las clases populares transitaban por él concentrando la atención en tres grandes ejes: la guerra, el patriotismo y el pueblo que ofrecen la posibilidad de identificar la política popular en un momento de gestación y reconocer como políticos comportamientos que de antemano no estaban definidos como tales.

Soy de nación campesino
Elissa J. Rashkin, 2023-12-11

El agrarismo en el estado de Veracruz fue uno de los más importantes movimientos sociales en México durante las primeras décadas del siglo XX. Como tal fue un rico manantial de representaciones culturales que a su vez revelan la formación y la transformación de identidades campesinas en un contexto altamente conflictivo. Con el fin de revalorar las memorias fragmentadas de esta experiencia este libro examina diversas fuentes: solicitudes de tierra y otros documentos oficiales, prensa y publicaciones campesinas, corridos, sones y danzas junto con el contexto performativo del fandango, memorias y testimonios de participantes y textos literarios que se acercaban a la experiencia agrarista de la época. A través de estos artefactos la autora explora el movimiento campesino como vanguardia rural que radicaliza el campo en diversos actos de expresión y de autorrepresentación. Partiendo de la heterogeneidad del agrarismo y de sus participantes introduce debates teóricos sobre discurso y performance así como planteamientos en torno a la construcción de la memoria colectiva, proceso que abarca la selección y el olvido. De este modo el libro aborda al campesinado veracruzano como actor social imbricado en procesos de construcción cultural, sujeto clave de la historia mexicana regional y revolucionaria.
