Lost Moon The Perilous Voyage Of Apollo 13:

Lost Moon Jim Lovell,Jeffrey Kluger,1994 The untold story of the American moon shot that almost ended in a fatal catastrophe told by the flight s commander offers a chronicle of courage heroism and adventure **Apollo 13** Jim Lovell,Jeffrey Kluger,2000 The story of the American moon shot that almost ended in a fatal catastrophe told by the flight s commander offers a chronicle of courage heroism and adventure *Apollo 13* James Lovell,Jeffrey Kluger,2019-02-12 NATIONAL BESTSELLER Astronaut Jim Lovell and coauthor Jeffrey Kluger s harrowing account of the Apollo 13 disaster Serving as the basis for Ron Howard s blockbuster Apollo 13 the book reveals true details not shown in the movie Thrilling and evocative you feel as though you re alongside Lovell in the lunar module Written with all the color and drama of the best fiction Apollo 13 tells the full story of the moon shot that almost ended in catastrophe Minutes after a mid flight explosion the three astronauts are forced to abandon the main ship for the lunar module a tiny craft designed to keep two men alive for just two days As the hours tick away the narrative shifts from the crippled spacecraft to Mission Control from engineers searching desperately for a way to fix the ship to Lovell s wife and children praying for his safe return The entire nation watches as one crisis after another is met and overcome By the time the ship splashes down in the Pacific we understand why the heroic effort to rescue Lovell and his crew is considered by many to be NASA s finest hour Inspiring and astonishing the story of Apollo 13 is a timeless tribute to the enduring American spirit and sparkling individual heroism *The Apollo 13 Mission* Donald B. Lemke,2006 In graphic novel format tells the dramatic story of the rescue of the Apollo 13 astronauts *The Apollo 13 Mission* Judy L. Hasday,2001 A biography of the young star of the movie E T who survived her troubled early years and has gone on to become a successful actress and movie producer *Danger in Space* Henry M. Holden,2012-07-01 Soaring through space at 25 000 per hour Apollo 13 was on course for the Moon Suddenly the three astronauts aboard the spacecraft heard a loud bang A strong vibration rumbled through the crew cabin There had been an explosion in the oxygen tank More than 200 000 miles from Earth Apollo 13 was in grave danger The astronauts had planned to land on the Moon but now they had a new mission survival Author Henry M Holden delivers the gripping details of how three astronauts with the help of NASA scientists on Earth turned a story of disaster into one of triumph *Past Imperfect* Mark C. Carnes,1996-11-15 Essays that consider how classic movies have reflected history include the writings of such noted historians as Paul Fussell Antonia Fraser and Gore Vidal *Calculated Risk* George Leopold,2016-06-15 Unlike other American astronauts Virgil I Gus Grissom never had the chance to publish his memoirs Killed along with his crew in a launch pad fire on January 27 1967 Grissom also lost his chance to walk on the moon and return to describe his journey Others went in his place The stories of the moon walkers are familiar Less appreciated are Grissom s contributions The international prestige of winning the Moon Race cannot be understated and Grissom played a pivotal and enduring role in securing that legacy for the United States Indeed Grissom was first and foremost a Cold Warrior a member of the first group of Mercury

astronauts whose goal it was to beat the Soviet Union into space and eventually to the moon Drawing on extensive interviews with fellow astronauts NASA engineers family members and friends of Gus Grissom George Leopold delivers a comprehensive and corrective account of Grissom's life that places his career in the context of the Cold War and the history of human spaceflight Calculated Risk The Supersonic Life and Times of Gus Grissom adds significantly to our understanding of that tumultuous and ultimately triumphant period in American history Selecting the Mercury Seven Colin Burgess,2011-08-17 The names of the seven Mercury astronauts were announced in April 1959 amid a flurry of publicity and patriotism This work provides biographical details of all thirty two finalists for the seven coveted places as America's pioneering astronauts All of the candidates were among the nation's elite pilots involved in testing new supersonic aircraft capabilities Most had served as wartime fighter and bomber pilots some were test pilots on top secret and sophisticated aviation projects while others were fleet admirals prisoners of war and proposed pilots for spaceflight programs such as the Dyna Soar X 20 The names of all 32 finalists have been kept secret until very recently Selecting the Mercury Seven also relates the history and difficulties behind the initial choice of candidates The lives motivations military careers and achievements of the unsuccessful twenty five finalists are explored first in fully authorized biographies Test pilots for the U S Navy Air Force and Marine Corps each man has a fascinating and very different story to tell All thirty two men had to endure meticulous demeaning and brutal week long medical examinations at the Lovelace Clinic in New Mexico This was followed by another torturous week at the Wright Aeromedical Laboratory in Ohio where they were subjected to extreme fitness and physiological testing the sole purpose of which was to sort out the Supermen from the near supermen The final part of the book examines the accomplishments and spaceflights of the seven successful candidates bringing their amazing stories right up to date Space Politics and Policy E. Sadeh,2006-04-11 Space Politics and Policy An Evolutionary Perspective provides a comprehensive survey of Space Policy This book is organized around two themes Space Policy is evolutionary in that it has responded to dramatic political events such as the launching of Sputnik and the Cold War and has undergone dynamic and evolutionary policy changes over the course of the space age Space Policy is an integral part of and interacts with public policy processes in the United States and abroad The book analyzes Space Policy at several levels including historical context political actors and institutions political processes and policy outcomes It examines the symbiotic relationships between policy technology and science provides a review and synthesis of the existing body of knowledge in Space Policy and identifies Space Policy trends and developments from the beginnings of the space age through the current era of the twenty first century **Navigating Feedback at Work, Home, and Everywhere Else** Brian Byrd, M.D.,Ken Gire,2025-02-10 In the bestselling book Thanks for the Feedback The Science and Art of Receiving Feedback Well by Douglas Stone Sheila Heen the authors wrote We receive a deluge of feedback from bosses colleagues friends family yet it rarely improves performance The problem is that we've focused all of our attention and training on the feedback giver Instead it is the feedback receiver

who decides whether to make use of the feedback and improve Navigating Feedback at Work Home and Everywhere Else focuses entirely on the receiver of difficult feedback How you respond to that feedback determines to a large extent your destiny Seriously your destiny Seriously Using video clips from top business consultants and interactive journaling author Brian Byrd will walk you through the skills necessary to embrace difficult feedback in a way that will not only improve your personal life but also your professional life Brian Byrd invites you on a journey to the rest of your life which could very well lead to the years that become the best of your life **Air Force Magazine** ,1995-07 **Book Lust** Nancy Pearl,2009-09-29 What to read next is every book lover s greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of litterateurs with What If All name the city Read the Same Book has devised reading lists that cater to every mood occasion and personality These annotated lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl s enthusiasm and taste shine throughout

Leadership Dispatches Michael Useem,Howard Kunreuther,Erwann Michel-Kerjan,2015-03-11 On February 27 2010 Chile was rocked by a violent earthquake five hundred times more powerful than the one that hit Haiti just six weeks prior The Chilean earthquake devastated schools hospitals roads and homes paralyzing the country for weeks and causing economic damage that was equal to 18 percent of Chile s GDP This calamity hit just as an incumbent political regime was packing its bags and a new administration was preparing to take office For most countries it would have taken years if not decades to recover from such an event Yet only one year later Chile s economy had reached a six percent annual growth rate In Leadership Dispatches Michael Useem Howard Kunreuther and Erwann Michel Kerjan look at how the nation s leaders in government business religion academia and beyond facilitated Chile s recovery They attribute Chile s remarkable comeback to a two part formula consisting of strong national leadership on the one hand and deeply rooted institutional practices on the other Coupled with strategic deliberative thinking these levers enabled Chile to bounce back quickly and exceed its prior national performance The authors make the case that the Chilean story contains lessons for a broad range of organizations and governments the world over Large scale catastrophes of many kinds from technological meltdowns to disease pandemics have been on the rise in recent years Now is the time to seek ideas and guidance from other leaders who have triumphed in the wake of a disaster In this vein Leadership Dispatches is both a remarkable story of resilience and an instructive look at how those with the greatest responsibility for a country company or community should lead **Scheherazade Cat - The Story of a War Hero** Stephanie C. Fox,2017-01-01 We humans are capable of great good In the time that our species has been on Earth we have done remarkable things to improve the human condition But a dark and horrible side of our nature often comes to the surface in the form of military conflict With sad regularity our leaders become filled with greed intolerance and lust for power resulting in bloodshed and cruelty that has become more and more horrible as our methods of

killing become more efficient Indeed war is the most hideous of human experiences and is tragically a regular feature of our history However in the midst of wartime horror sometimes people and events come together and give some hope that in the end the positive aspects of human nature will triumph over our evil side Scheherazade Cat The Story of a War Hero is an example of how love loyalty and kindness can shine through the darkness of war and restore faith in the human spirit This is the true story of Lieutenant David Haines a United States Army chemical weapons officer and Scheherazade a calico kitten from Failaka Island Kuwait He met her while performing a mission there during the Persian Gulf War Scheherazade was playing with a small bomb during this meeting but fortunately it did not detonate Seeing this alerted Lt Haines to the presence of other mines allowing his squad to retreat safely Recognizing that this encounter may have saved his life and those of his men the soldier adopted Scheherazade and brought her to America This is a simple tale about a chance encounter but it is also a heartwarming lesson that showing kindness and loyalty to a small creature in the midst of extreme danger brings out the best in us For this reason the message of this book is a positive one that demonstrates the value of compassion and goodness **A History of Government Public Relations in the United States** Mordecai Lee, 2025-07-09

This book presents a history of public relations in the modern American administrative state Because government agencies have a democratic obligation to be open and transparent the practice of public relations by government is qualitatively different from that in business administration and nonprofit management The duty of government agencies to engage in public relations largely emerged during the Progressive era 1890 1920 It evolved significantly under President Franklin Roosevelt He wanted citizens to know about New Deal programs they qualified for During World War II federal PR encouraged civic participation in the war effort By the 1990s the media's traditional coverage of government faded requiring agencies to communicate in new ways Government PR continued evolving in the 21st century to take advantage of advances in technology This book relates to political science American history public administration and communication PR It is intended as a textbook by researchers and for academic libraries **Revolution 3.0** Ute Fendler, Katharina Fink, Nadine Siegert, Ulf Vierke, 2019-08-29 From the visual politics of the FRELIMO liberation script in Mozambique via the brooms and spoons of Le Balai Citoyen in Burkina Faso to the updating of images from past revolutions on Twitter and Facebook often in the diaspora images play a key role in the envisioning of futures and social utopia And more than that Revolutions understood as moments of radical social and cultural change are driven by images as empirical investigations on and offline show But what actually constitutes the seismographic power of images and the sustainability of icons from past ruptures in terms of radicalism such as the portraits of Burkina Faso's and Mozambique's first presidents Thomas Sankara and Samora Machel What possibilities do images offer and what is cut and edited in the process of creating a new image How do the visual tactics of analogue and digital protesters alike constitute alter and create visual and multi media archives This book brings together a wide range of papers by international researchers and artists focusing on the relationship of images and revolution mostly

in the African context Images in various artistic media such as photography art in public space performance fashion are discussed but also the relation of visual culture and politics in Mozambique Angola and Burkina Faso among others With contributions from Stefanie Alisch Petrus Amuthenu Ana Balona de Oliveira Ute Fendler Katharina Fink Ra Gandra Goldendean Jensen Lee Innocent Onejoon Che Lu s Carlos Patraquim Marco Russo Nadine Siegert Serubiri Moses Johan Thom Drew Thompson Fabio Vanin Ulf Vierke

Me and I Nabendu Ghosh,2017-04-15 A story that breaks the barriers of space and time They all had the same question for Mukul Why didn t you recognize us And why did you look so dark Mukul was perplexed The day had started as any other Sunday morning would with him going out to meet his aunt his friends and his mentor Noni Kaku of the Telescope But when everyone including his own parents insisted that he was lying about his whereabouts Mukul had to look around for the imposter And he found Lukum who had travelled light years to meet his intergalactic twin Little did Mukul know that he had set out on the longest Sunday of his life How would this all end And where Written by Nabendu Ghosh path breaking novelist screenwriter and film director this racy story about a parallel universe has been translated by his grandson Devottam Sengupta Fusing human curiosity about space with a futuristic vision it delivers it all with a suspenseful gobsmaacking punch

What the Small Gray Visitor Said Stephanie C. Fox,2020-08-26 It isn t often that a visitor from outer space gets stranded on Earth but it happens every so often When it does it s an accident No one intends to get stranded anywhere after all This visitor is female a botanist and a telepath The alien carries a Small Gray environmental suit with her She is looking for plants that can be grown on her own planet s severely depleted ecosystem The alien has just uprooted one when she finds herself stuck on Earth during a planet wide pandemic It is a spring day when Arielle an author and editor for hire spends her morning as she usually does writing editing blogging drinking coffee and sitting with her cat while looking out the back windows into her yard She gets up to stretch and takes a walk around her beautiful garden to enjoy some sunshine smell a few iris blossoms and survey her berries and herbs Suddenly she sees something under her honeysuckle bush At first she thinks it is discarded plastic litter that has blown around the area and she picks it up in disgust only to see that it is gray as light as a feather and definitely not plastic It has a face or rather a face covering Arielle glances up to find herself face to face with a stranded visitor the owner of the suit she is holding She takes her in after her husband a scientist tests them both for the virus The

tests come back negative of course The aliens anticipating microbes that are not endemic to their own world have immunized themselves against Earth s pathogens before venturing out of their ship Find out what happens next and what the Small Gray Visitor said while she was here
