Douglas, 2019-11-14 Bertrand de Jouvenel 1903 1987 was one of the great political thinkers of the twentieth century but he left few disciples The essays contained in this volume have been selected because they serve to clarify elaborate and expand upon the themes of his three masterworks On Power Sovereignty and The Pure Theory of Politics De Jouvenel's thought stands apart from the main branches of twentieth century political philosophy and is largely independent of schools and ideologies By drawing on an older more persuasive philosophical tradition stretching from Plato to Rousseau de Jouvenel sought to restore political science to its ancient function the explanation of political things With directness and originality his work addresses questions that go to the heart of the political science enterprise exploring its nature its mission and its attitude to theory facts and values In the realm of political practice de Jouvenel shares common ground with his contemporaries while remaining essentially independent He shares with the left a deep concern for reducing human misery and ecological depredation and a belief in the need for government directed economic planning On the other hand he shares the right's abiding suspicion of state power and its belief in the superiority of the market as the presumptive method for economic decision making De Jouvenel's refreshing freedom from ideological blinders makes him worthy of comparison to Orwell but his ambition stretches beyond the novelistic in that he attempts to develop a theory of the good state resting upon a clear sighted understanding of the true nature of political behavior Graced with a brilliant introduction by Dennis Hale and Marc Landy this volume serves as an ideal introduction to de Jouvenel's thought It will be of interest to political scientists historians and sociologists **The nature of politics** John Donald Bruce Miller, 1971 **Human Nature in Politics** Graham Wallas, 1929 *Nature, Politics, and the Arts* Hermione de Almeida, 2015-03-18 This interdisciplinary book honors Columbia professor and New York intellectual Carl Woodring Chapters on Romantic and Victorian literary culture written by leading scholars in the field join in conversation with Woodring's teachings on literature and visual art and his commentaries on American culture A multiple authored chapter of postscripts on the aesthetic range of Woodring's intellectual interests across cultural disciplines his contributions to English studies and his informing influence on several generations of scholars and their areas of interest follows A chapter from Woodring's unpublished autobiography on his childhood in small town America then concludes the volume with an ironic retrospection on intercultural origins Topics addressed among the chapters include portraiture and self fashioning landscape art physiognomy and caricatures radical print ephemera illustrated picaresque verse social and political satire traditions of the sublime in art and literature transatlantic influences and aesthetics chaos theory and the laws of thermodynamics the Caribbean slave trade revolutionary history Napoleonic wars the politics of multicultural communities gender and race

Ann Tibbetts, 2009-11 Fresh powder falls On an Indian sand world In this desert hiding place Where skinny pines meet up With turning lagoons and sandstone walls As you journey through the canyons An unmolested world begins to speak And you begin to see as if from the dust An all seeing eye brings to light An unseen world A Light That Passes By is a masterful collection of poetry that draws on nature politics and spirituality as subjects for reflection Through her poetry author Jenny Tibbetts shares her inexplicable desire to feel closer to her Savior Jesus Christ Her writing packs a powerful message of virtue and truth and describes Jesus as the greatest friend we shall ever have These poems speak of wonder at the miraculous handiwork of God the creator and express an insatiable love for the bounty and beauty of nature Tibbetts writing is influenced by a deep reverence and respect for the country she lives in and is filled with a spirit of passion and patriotism A Light That Passes By beautifully and boldly comments on some of the current issues of our day appealing to the spiritual actualities of God within all things Jenny Tibbetts holds nothing back from the light of the truth and will inspire readers to greater heights of awareness The Nature of Politics John Donald Bruce Miller, 1962

Polity Craig L. Carr, 2007-03-29 Students of politics frequently confuse politics with current events and the activities of political actors Lost in this view is a deeper understanding of politics that emphasizes the need for governmental management of many facets of social life It proceeds first by illustrating the need for civil organization in complex social settings and then by examining the way political culture informs the nature and degree of the political organization appropriate for a polity Focusing specifically on U S political culture the work explores American political inheritance in order to expose the enduring ideals and fundamental commitments of American political life This permits a review of American liberalism with its characteristic emphasis upon individual freedom and basic human equality The nature of constitutionalism and democracy are also explored in order to examine their fit with traditional American liberal ideals But politics is also about change and the work concludes with a discussion of the challenges the U S must face as the demands of political management generate pressures that might seem to erode or compromise the ideals of American political culture
