## **Regional Foreign Policies In Rus:**

**Russian Foreign Policy** Nikolas K. Gvosdev, Christopher Marsh, 2013-08-22 In a truly contemporary analysis of Moscow's relations with its neighbors and other strategic international actors Nikolas K Gvosdev and Christopher Marsh use a comprehensive vectors approach dividing the world into eight geographic zones Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues oil and energy defense policy economic policy the role of international institutions and the impact of major interest groups or influencers demonstrating that Russia formulates multiple sometimes contrasting foreign policies Providing rich historical context as well as exposure to the scholarly literature *Russian Foreign Policy Interests and Sectors* offers an incisive look at how and why Russia partners with some states while it counter balances others *Russian Foreign Policy* Eric Shiraev, Konstantin Khudoley, 2018-12-12

Written by two leading scholars this cutting edge textbook provides a comprehensive re evaluation of Russian foreign policy in the 21st century covering its historical development key institutions and actors and processes principles and strategies It integrates domestic and global perspectives to give a more rounded and balanced assessment of Russia's place in the world This text will be essential reading on Russian foreign policy modules as well as on broader courses on Russian government and politics It can also be used as supplementary reading on more general comparative politics and foreign policy modules which use Russia as a key case study *Russia's Foreign Policy* Andrei P. Tsygankov, 2013-02-14 Now fully updated and revised this clear and comprehensive text explores the past quarter century of Soviet Russian international relations comparing foreign policy formation under Gorbachev Yeltsin Putin and Medvedev Drawing on an impressive mastery of both Russian and Western sources Andrei P Tsygankov shows how Moscow's policies have shifted with each leader's vision of Russia's national interests He evaluates the successes and failures of Russia's foreign policies explaining its many turns as Russia's identity and interaction with the West have evolved The book concludes with reflections on the emergence of the post Western world and the challenges it presents to Russia's enduring quest for great power status along with its desire for a special relationship with Western nations **Eurasian Regionalisms and Russian Foreign Policy** Mikhail A.

Molchanov, 2016-03-03 Bridging foreign policy analysis and international political economy this volume offers a new look at the problem of agency in comparative regional integration studies It examines evolving regional integration projects in the Eurasian space defined as the former Soviet Union countries and China and the impact that Russian foreign policy has had on integration in the region Mikhail Molchanov argues that new regionalism in Eurasia should be seen as a reactive response to contemporary challenges that these developing states face in the era of globalization Regional integration in this part of the world treads the unknown waters and may not simply repeat the early steps in the evolution of the European Union The question of a hegemonic leadership in particular as exercised by a country that spearheads regional integration efforts animates much of the discussion offered in the book Moreover Eurasian regionalisms are plural phenomena because of

complementary and competing projects that engage the same or partially overlapping groups of countries By combining foreign policy studies with an examination of the international political economy of regionalism in Eurasia the author furthers our understanding of new regionalism both theoretically and empirically *Russian Foreign Policy and the CIS* Nicole J. Jackson, 2003-09-04 This book provides a systematic study of Russian foreign policy and the separatist and civil military conflicts in the former Soviet republics following the collapse of the Soviet Union Russian Foreign Policy Olga Olikier, Keith Crane, Lowell H. Schwartz, Catherine Yusupov, 2009-03-09 As Russia's economy has grown so have the country's global involvement and influence which often take forms that the United States neither expects nor likes The authors assess Russia's strategic interests and goals examining the country's domestic policies economic development security goals and worldview They assess implications for U.S. interests and present ways that Washington could work to improve its relations with Moscow The Emergence of Russian Foreign Policy Leon Rabinovich Aron, Kenneth Martin Jensen, 1994 The emergence of a new Russia a post communist European state with a vast store of nuclear arms raises many complex questions What kind of foreign and defense policies will Russia pursue into the 21st century What will be the impact of the loss of the former empire And what are the implications for western policymakers This volume attempts to answer those questions by examining Russia's relations with the Near Abroad the newly independent states on its borders the Commonwealth of Independent States CIS and its Pacific neighbors as well as its peacekeeping role in the former Soviet states In addition the book explores the historic patterns of Russian foreign policy issues of internationalism accommodation Soviet Russia the Soviet legacy institutional mechanisms for policymaking and the effects of domestic policy *The Emergence of Russian Foreign Policy* concludes with a discussion of western perceptions of Russia's evolving national security doctrine and the future of Russian American strategic relations **Understandings of Russian Foreign Policy** Ted Hopf, 2010-11-01 Scholars from Asia Europe and North America working with the support of the Finnish Institute of International Affairs combine their efforts to bring us new insights into how Russia has conducted its foreign affairs since the fall of Communism Drawing on both archival sources and interviews they cover such major issues as Russia's decision to use military force in Chechnya its reactions to NATO expansion and its emergent relations with Japan and East Asia The contributors are Eunsook Chung Henrikki Heikka Ted Hopf Andrea Lopez Hiroshi Kimura Sergei Medvedev and Christer Pursiainen Internal Factors in Russian Foreign Policy Neil Malcolm, 1996 After the turmoil following the collapse of Soviet power post Communist Russia has emerged as an assertively independent force in international affairs Meanwhile an intense debate has been underway in Moscow about Russia's national interests and foreign policy priorities Domestic political conflicts and the close ties with former Soviet partner states have made internal factors particularly important in shaping Russian foreign policy *Internal Factors in Russian Foreign Policy* is the first systematic analysis of the domestic political forces which condition the international behaviour of the new Russian state Four leading specialists

examine in turn the areas of foreign policy thinking and debate how policy is made the public politics of foreign policy and the role of the military They explore the changing domestic alignments associated with recent shifts in Russian foreign policy focusing on the roles played by institutions such as the Security Council and the legislature by military groupings and by emerging economic interests The authors throw new light on the domestic foundations of Moscow's more assertive and self-reliant stance

The New Russian Foreign Policy Michael Mandelbaum, 1998 This book surveys Russia's relations with the world since 1992 and assesses the future prospect for the foreign policy of Europe's largest country Together these essays offer an authoritative summary and assessment of Russia's relations with its neighbors and with the rest of the world since the collapse of the Soviet Union

The Russian Armed Forces at the Dawn of the Millennium, 2000 This anthology is an outgrowth of a conference titled The Russian Armed Forces at the Dawn of the Millennium held at the Collins Center of the Army War College's Center for Strategic Leadership from 7 through 9 February 2000 The genesis for the conference was the realization by several members of the staff of the Collins Center and Army War College faculty that the U.S. led NATO operation in Kosovo resulted in a significant shift of Russian views on the United States and NATO The conference also complemented our general objective of examining the changing environment in which the United States including its armed forces finds itself The conference brought together over 50 individuals from academia and the policy and intelligence communities to examine the current state of the Russian military Focusing primarily on the socio-political dimension of the military but not ignoring the military technical dimension the presentations delivered during the conference looked at Russia's domestic environment the state of the military perceived threats and Russia's capacity to generate responses to those threats DTIC web site

Russian Energy Security and Foreign Policy Adrian Dellecker, Thomas Gomart, 2011-05-03 This book provides an original and thoroughly academic analysis of the link between Russian energy and foreign policies in Eurasia as well as offering an interpretation of Russia's coherence on the international stage seeking to understand Russia and explain its behaviour The authors analyse both energy and foreign policies together in order to better grasp their correlation and gain deeper understanding of broader geopolitical issues in Eurasia at a time when things could go either way towards producers or towards consumers Questioning the concept of energy deterrence which aims to fuel uncertainty in Russia's relations with its partners as well as projecting its overall power on the international scene this provocative volume seeks to stimulate debate on this very important issue Assessing the weight that energy has in Russia's foreign policy and in its pursuit of power on the international stage this book will be of interest to students and scholars of international relations energy politics geopolitics and Russian and Central Asian Studies

**EU-Russian Relations and the Ukraine Crisis** Nicholas Ross Smith, 2016-12-30 This book assesses the competitive and contentious EU Russia relationship in relation to Ukraine from 2010 to 2013 focusing on the important areas of trade energy and security The key issue explored is whether this relationship played any meaningful role in the deterioration of the situation in Ukraine since late 2013

**Politics and Society** Richard Sakwa, 2002-09-11 Sakwa's *Russian Politics and Society* is the most comprehensive study of Russia's post communist political development. It has since its first publication in 1993 become an indispensable guide for all those who need to know about the current political scene in Russia about the country's political stability and about the future of democracy under its post communist leadership. This is the ideal introductory textbook; it covers all the key issues; it is clearly written and it includes the most up to date material available. For this third edition Sakwa has updated the text throughout to include details of Yeltsin's second term and the impact on Russian politics of the rise of his successor Vladimir Putin. It also contains a substantially expanded bibliography and appendices showing election results, chronology, social and demographic figures and recent census data.

*The Foreign Policy of Russia* Robert H. Donaldson, Joseph L. Noguee, 2014-12-18 Now fully updated, this widely respected text traces the lineage and development of Russian foreign policy with the insight that comes from historical perspective. The fifth edition incorporates new and fully updated coverage of issues including relations with the major powers and with other post communist states, international security issues including arms control issues and grounds for sanctions and intervention, and domestic and regional issues related to natural resource politics, human rights, Islamism and terrorism. Chronologically organized chapters highlight the continuities of Russia's behavior in the world since tsarist times as well as the major sources of change and variability over the revolutionary period, wartime alliances and cold war détente, the Soviet collapse and the first post communist decades. The fifth edition incorporates new and fully updated coverage of issues including relations with the major powers and with other post communist states, international security issues including arms control issues and grounds for sanctions and intervention, and domestic and regional issues related to natural resource politics, human rights, Islamism and terrorism. New coauthor Vidya Nadkarni strengthens the book's coverage of issues related to Asia. The basic framework used in the book is a modified realism that stresses the balance of power and the importance of national interest and identifies several factors both internal and external that condition Russian policy. The interpretations are original and based on a mix of primary and secondary sources.

*The Foreign Policy of the Russian Federation* Alexander V. Kozhemiakin, Roger E. Kanet, 2016-07-27 Providing a current assessment of the major developments in Russian foreign policy since the collapse of the Soviet Union at the end of 1991, the book begins with an examination of the emerging trends in Russian policy and the impact of domestic political and economic factors on Russian policy. Succeeding chapters outline the development of Russian policy in the major geographic regions of the world: the new states of the near abroad, Central Europe and the Balkans, the West Asia, the Middle East and the developing countries.

**The "Asian Turn" in Russian Foreign Policy** Anatoly Torkunov, Dmitry Streltsov, Ekaterina Koldunova, 2024-11-01 This book explores the seemingly unstoppable turn away from Europe and towards Asian powers, notably China, on the part of the Russian state in the early 21st century. Ongoing global changes, the growing complexity of international interactions and internal political dynamics in Russia have led to what has become known in Russian official

and expert discourse as the Asian turn or turn to the East The monograph systemically analyzes all key directions of Russia's Asian turn and assesses achievements problems and prospects of Russian strategy in Asia in a wider international context The book might be interesting to those who are professionally studying IR international dynamics in Asia and Russian foreign policy in Asia

Russian Foreign Policy Jeffrey Mankoff, 2011-10-16 Now thoroughly updated this widely praised book provides a thoughtful and balanced examination of the development of Russian foreign policy since the end of the Cold War This edition also places developments of the past two decades into the broader sweep of Russian history Jeffrey Mankoff argues that Russia's more assertive behavior since Vladimir Putin became president in 2000 has resulted from both a deep seated consensus among its elite about Russia's identity and interests as well as a favorable convergence of events including the persistence of high energy prices and the check on U S power resulting from the wars in Iraq and Afghanistan Because these factors are the result of long term trends the author argues that there is little reason to expect that the election of Dmitry Medvedev will fundamentally alter Russian foreign policy behavior Presenting an evenhanded treatment of controversial issues Mankoff analyzes Russia's interactions with major global actors including the United States the European Union the Commonwealth of Independent States and China Despite Moscow's often harsh rhetoric and the deployment of Russian forces against Georgia in 2008 the author convincingly demonstrates that there is little reason to fear a return to a Cold War like standoff with the West Instead he argues today's Russia is more interested in restoring what its leaders consider to be its rightful place among the world's major powers rather than in directly challenging the West Thoroughly researched and knowledgeable this book will be invaluable for all readers interested in Russia

Explaining Russian Foreign Policy Behavior Alexander Sergunin, 2016-03-22 This book aims to explain the reasons behind Russia's international conduct in the post Soviet era examining Russian foreign policy discourse with a particular focus on the major foreign policy schools of Atlanticism Eurasianism derzhavniki realpolitik geopolitics neo Marxism radical nationalism and post positivism The Russian post Soviet threat perceptions and national security doctrines are studied The author critically assesses the evolution of Russian foreign policy decision making over the last 25 years and analyzes the roles of various governmental agencies interest groups and subnational actors Concluding that a foreign policy consensus is gradually emerging in contemporary Russia Sergunin argues that the Russian foreign policy discourse aims not only at the formulation of an international strategy but also at the search for a new national identity Alexander Sergunin argues that Russia's current domestic situation defined by numerous socio economic inter ethnic demographic environmental and other problems dictates the need to abandon superpower ambitions and to rather set modest foreign policy goals

**Towards a Russia of the Regions** Martin Nicholson, 2020-11-25 Russia's state system has changed significantly since 1991 but the question of how the country should be governed has not been answered Russia's constitutional framework is weak and inherently flawed and the balance of political and economic power between the centre and the regions is ill defined In the absence of a firm

constitutional settlement regional elites have consolidated power restricting the growth of local democracy and frustrating attempts at grass roots economic reform This book argues that establishing an effective and regulated relationship between the centre and the regions requires greater decentralisation but devolution need not threaten Russia's integrity if it is transparent and based on a greater respect for the rule of law
