Regional Institutions And Governance In The European Union:

Regional Institutions and Governance in the European Union José Magone, 2003-08-30 European integration has profoundly changed the relationship between national and subnational governments and has led to the emergence of the Europe of the Regions This edited volume highlights some of the problems involved in the integration of the three main levels of governance in the European Union the regional national and supranational level The contributors address recent developments in various regions and examine the way these regions have adjusted to the growing importance of the European Union s multilevel governance system Among the issues discussed are the emergence and institutionalization of new regional political systems such as those of Scotland Wales and Flanders the channels available to the regions for influencing the EU policy process in relation to their constituencies and horizontal projects of integration among regions which make the whole multilevel governance system more flexible as well as more complex *European Union and New Regionalism* Mario Telò, 2018-02-06 This title was first published in 2001 This is a collection of papers that look at the structure of the global economy and its changing paradigms over the years The contributors look at how the classic concept of state autonomous sovereign and freed of all constraint never really reflected the reality of the international scene despite the role it has played in realist and neo realist theory for many decades Instead they consider that the political social and economic characteristics originally attributed to states seem increasingly to be expressed through regional constructs The papers in this volume show that even within regionalism there are a variety of different models that exist and examine five of those models the European Union Mercosul Mercosur the North American Free Trade Area NAFTA the Association of South East Asian Nations ASEAN and the South African Development Community SADC The Institutions of the European Union Michael Shackleton, 2012-03-22 The book explains functions powers and composition of the EU s institutions including the Council of Europe the Council of Ministers the College of Commissioners the European Commission the European Parliament the Court of Justice of the European Union the European Central Bank the Court of Auditors and OLAF and the Committee of Regions After a historical overview of the attempts at EU institutional reform three chapters examine how different institutions provide political direction manage the Union and integrate interests *The Institutions of the European Union* Dermot Hodson, John Peterson, 2017 This book is the key text for anyone wishing to understand the functions powers and composition of the EU s institutions From the Council of Ministers to the European Central Bank all of the most important organizations are analysed and explained by international experts providing students with everything they need to know *Interorganizational Diffusion in International Relations* Tobias Lenz, 2021 How and under what conditions does the European Union EU shape processes of institution building in other regional organizations This book develops and tests a theory of interorganizational diffusion in international relations that explains how successful pioneer organizations shape institutional choices in other organizations by affecting the institutional preferences and bargaining strategies of national

governments The author argues that Europe's foremost regional organization systematically affects institution building abroad but that such influence varies across different types of organizations Mixing quantitative and qualitative methods it shows how the EU institutionally strengthens regional organizations through active engagement and by building its own institutions at home

The Developing Place of Portugal in the European Union Jose Magone, 2017-12-02 After decades of isolation and a turbulent transition to democracy Portugal's integration into the European Union has given political economic social and cultural stability to a country that had to overcome the trauma of losing an empire This volume clearly is a major contribution to the study of how Portugal became part of the European Union as a political system and its development towards Europeanization and domestication Magone first lays a theoretical framework for the study of Europeanization and discusses political parties the political system and Portuguese society in terms of Europeanization He then examines public administration how the European Union and the OECD impacted on the modernization agenda and includes a discussion of the national EU policy coordination Magone also considers the Portuguese Euro elite and how they interacted with the Portuguese presidency and the processes of decision making going on among the different levels of the governance system of the European Union He highlights a case study of the Portuguese presidency of the European Union which took place in the first half of 2003 In addition Magone discusses the impact of the EU structural funds on Portugal and scrutinizes Portuguese foreign and defense policies in particular its reconstructed foreign policy which was clearly instrumental in achieving the independence of East Timor He reviews the growing integration of Portugal into the emerging structures of the Common Foreign and Security Policy CFSP concluding with the challenges that Portugal will face in the future in the education health and business sectors An interesting finding is the growing alienation of the population from the political class who clearly make all the decisions in relation to the European Union without proper consultation of the population through referenda In sum this book is vital to understand one of the oldest nation states of the world Jos M Magone is senior lecturer

Britain and European Integration Since 1945 David Gowland, Arthur Turner, Alex Wright, 2009-10-30 This book provides both a comprehensive introduction and a perceptive examination of Britain s relations with the European Community and the European Union since 1945 combining an historical account with political analysis to illustrate the changing and multifaceted nature of British and European politics Few issues in British politics since 1945 have generated such heated controversy as Britain s approach to the process of European integration associated with the European Union The long running debate on the subject has not only played a major part in the downfall of prime ministers and other leading political figures but has also exposed major fault lines within governments and caused deep and rancorous divisions within and between the major political parties This highly contested issue has given rise to bitter campaigning in the press and between pressure groups and it has bemused confused and divided the public at large Key questions addressed include Why has Europe had such an explosive impact on British politics What impelled British policymakers to join the European Community and to undertake one of the radical if not the most radical changes in modern British history What have been the perceived advantages and disadvantages of British membership of the European Union Why has British membership of the European Union rarely attracted a national consensus Engaging with both academic and public debates about Britain and the European Union this volume is essential reading for all students of British history British politics and European politics

The European Union and Interregionalism Mr Mathew Doidge, 2013-03-28 The European Union and Interregionalism is the most comprehensive study of interregionalism to date providing a vigorous analysis of its role and functions in the architecture of global governance and of the place of qualitative differences between regional actors in shaping interregional relationships Regionalism itself is an established phenomenon with regional politics becoming

increasingly institutionalised As a result with the EU as forerunner regions have begun to exert themselves in the external policy space developing networks of relations including prominently interregional relations We have thus seen the emergence of a new governance space at the interregional level banded on one side by sites of global governance and on the other by governance at the regional level Important questions challenging the current literature of these interregional structures include do interregional relationships conform to theoretical expectations and what patterns of engagement and interaction are emerging within the EU s core interregional partnerships and are these replicated elsewhere Exploring interregionalism beyond the core Europe Asia partnerships including the network of relations centred on ASEAN this book should be read by all those engaged in consideration of interregional structures to understand how patterns of EU centred interregional engagement rather than being sui generis are increasingly evident in the broader network of interregional relationships

Place-based Economic Development and the New EU Cohesion Policy Philip McCann, Attila Varga, 2018-02-02 The new EU Cohesion Policy is one of the largest integrated development policies in the Western world and one of the largest of such programmes anywhere in the world The reforms to the EU Cohesion Policy contain many different elements each of which interlink in order to provide a cohesive

overall framework Some of the key elements in the reforms however relate to the conditionalities employed and their effects on policy governance and the control mechanism the smart specialization approach to policy prioritization and resource allocation the underlying place based logic of the policy and the overall results orientation and evaluation emphasis of the policy In each of the areas of the EU Cohesion Policy reforms many different scholars from the fields of regional studies regional science and economic geography have played important roles in shaping the new policy and the chapters here highlight these increasing interactions between the policy and academic spheres of debate The collection of essays in this book each deal with specific aspects of these critical elements of the Cohesion Policy reforms In particular they examine some of the strengths and weaknesses of these individual elements and allowing for a better understanding of the origins and backgrounds of many of the ideas underpinning these reforms This book was previously published as a special issue of *Regional Studies* *The Oxford Handbook of Global Policy and Transnational Administration* Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state *The Oxford Handbook of Comparative Regionalism* Tanja A.
