Regions In The History Of Central Europe:

Regions in Central Europe Sven Tägil,1999 The subject of Euro regions is topical and controversial but those of Central Europe have been neglected by scholars Central Europe is demarcated variously according to geographical political economic and cultural criteria The subjective term region and its theoretical implications are considered in the opening chapters The empirical section ranges in time from the appearance of the German stern duchies in the Middle Ages to cross border cooperation in the Oder area today and geographically from Baden Wurttemberg in the west to Transylvania Carpatho Ruthenia and the Kaliningrad enclave in the east The authors all highlight the complex problems of local identity and the centrality of culture in shaping notions of the region *Transregional Connections in the History of East-Central Europe*

Katja Castryck-Naumann,2021-10-25 Transregional connections play a fundamental role in the history of East Central Europe This volume explores this connectivity by showing how people from eastern and central parts of Europe have positioned themselves within global processes while in turn also shaping them The contributions examine different fields of action such as economy arts international regulations and law development aid and migration focusing on the period between the middle of the nineteenth century and the end of the Cold War The authors uncover spaces of interaction and emphasize that internal and external entanglements have established East Central Europe as a distinct region Understanding the connectedness of this subregion is stimulating for the historiography of East Central Europe as it is for the field of global history Regional and International Relations of Central Europe Zlatko Sabic,P. Drulák,2012-09-18 Focused on the role of Central Europe in international politics at the turn of the 20th century the authors take stock of the knowledge about the discipline of IR enhance the visibility of scholars from Central Europe and fill the void which has emerged after several researches on Central Europe were completed in the 1990s **Domains and Divisions of European History** Johann P. Arnason,Jóhann Páll Árnason,Natalie Doyle,2010-01-01 The patterns of unity and division that define Europe as a historical region have been discussed in many seminal works but the complex set of questions behind its domains and divisions merits a more sustained debate The disappearance of the cold war the enlargement of the European Union and core issues of historical sociology all require an exploration of the structures and boundaries of historical formations as well as the question of European unity This volume tackles the topic of the divisions that have shaped European history head on as leading scholars in the field negotiate such issues as regional identity geographical boundaries divisional labeling and post cold war European unity

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2010-09-29 Types and stereotypes is the fourth and last volume of a path breaking multinational literary history that incorporates innovative features relevant to the writing of literary history in general Instead of offering a traditional chronological narrative of the period 1800 1989 the History of the Literary Cultures of East Central Europe approaches the region s literatures from five complementary angles focusing on literature s participation in and reaction to key political events literary periods and genres the literatures of cities and sub regions literary institutions and figures of representation The main objective of the project is to challenge the self enclosure of national literatures in traditional literary histories to contextualize them in a regional perspective and to recover individual works writers and minority literatures that national histories have marginalized or ignored Types and stereotypes brings together articles that rethink the figures of National Poets figurations of the Family Women Outlaws and Others as well as figures of Trauma and Mediation As in the previous three volumes the historical and imaginary figures discussed here constantly change and readjust to new political and social conditions An Epilogue complements the basic history focusing on the contradictory transformations of East Central European literary cultures after 1989 This volume will be of interest to the region s literary historians to students and teachers of comparative literature to cultural historians and to the general public interested in exploring the literatures of a rich and resourceful cultural region

Central Europe in the High Middle Ages Nora

Berend, Przemysław Urbańczyk, Przemysław Wiszewski, 2013-12-19 This groundbreaking comparative history of the early centuries of Bohemia, Hungary and Poland sets the development of each polity in the context of the central European region as a whole. Focusing on the origins of the realms and their development in the eleventh and twelfth centuries, the book concludes with the thirteenth century when significant changes in social and economic structures occurred. The book presents a series of thematic chapters on every aspect of the early history of the region, covering political, religious, economic, social and cultural developments, including an investigation of origin myths that questions traditional national narratives. It also explores the ways in which west European patterns were appropriated and adapted through the local initiatives of rulers, nobles and ecclesiastics in central Europe. An ideal introduction to the essential themes in medieval central European history, the book sheds important new light on regional similarities and differences.

A European Memory? Małgorzata Pakier, Bo

Stråth, 2010 An examination of the role of history and memory is vital in order to better understand why the grand design of a United Europe with a common foreign policy and market yet enough diversity to allow for cultural and social differences was overwhelmingly turned down by its citizens. The authors argue that this rejection of the European constitution was to a certain extent a challenge to the current historical grounding used for further integration and further demonstrates the lack of understanding by European bureaucrats of the historical complexity and divisiveness of Europe's past. A critical European history is therefore urgently needed to confront and re-imagine Europe not as a harmonious continent but as the outcome of violent and bloody conflicts both within Europe as well as with its Others. As the authors show, these dark shadows of Europe's past must be integrated and the fact that memories of Europe are contested must be accepted if any new attempts at a United Europe are to be successful.

Susan C. Pearce,Eugenia Sojka,2021-03-05 This book weaves together research on cultural change in Central Europe and Eurasia notably Bosnia and Herzegovina Kazakhstan Latvia Poland Russia and Ukraine Examining massive cultural shifts in erstwhile state communist nations since 1989 the authors analyze how the region is moving in both freeing and restrictive directions They map out these directions in such arenas as LGBTQ protest cultures new Russian fiction Polish memory of Jewish heritage ethnic nationalisms revival of minority cultures and loss of state support for museums From a comparison of gender constructions in 30 national constitutions to an exploration of a cross national artistic collaborative this insightful book illuminates how the region s denizens are swimming in changing tides of transnational cultures resulting in new hybridities and innovations Arguing for a decolonization of the region and for the significance of culture the book appeals to a wide interdisciplinary readership interested in cultural change post communist societies and globalization **A History of Modern Political Thought in East Central Europe** Balázs Trencsenyi,Michal Kopeček,Luka Lisjak Gabrijelčič,Maria Falina,Mónika Baár,2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond **Medieval East Central Europe in a Comparative Perspective** Gerhard Jaritz,Katalin Szende,2016-05-12 Medieval East Central Europe in a Comparative

Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts. The chapters compare conditions within East Central Europe as well as between East Central Europe, the rest of the continent and beyond. Including 15 original chapters from an interdisciplinary team of contributors, this collection begins by posing the question: What is East Central Europe, with three specialists offering different interpretations and presenting new conclusions. The book is then grouped into five parts which examine political practice, religion, urban experience, and art and literature. The contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies, enemies, or subjects in particular ways. They point out themes and structures from town planning to religious orders that did not function according to political boundaries and for which the inclusion of East Central European territories was systemic. The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes. It will be essential reading for students and scholars of medieval East Central Europe.

Central Europe Lonnie Johnson, 1996-10-31

Throughout the Cold War era, the Iron Curtain divided Central Europe into a Communist East and a democratic West, and we grew accustomed to looking at this part of the world in bipolar ideological terms. Yet many people living on both sides of the Iron Curtain considered themselves Central Europeans, and the idea of Central Europe was one of the driving forces behind the revolutionary year of 1989, as well as the deterioration of Yugoslavia and its ensuing wars. Central Europe provides a broad overview and comparative analysis of key events in a historical region that encompasses contemporary Germany, Poland, the Czech Republic, Slovakia, Austria, Hungary, Slovenia, and Croatia. Starting with the initial conversion of the pagan peoples of the region to Christianity around 1000 A.D. and concluding with the revolutions of 1989 and the problems of post-Communist states today, it illuminates the distinctive nature and peculiarities of the historical development of this region as a cohesive whole. Lonnie R. Johnson introduces readers to Central Europe's heritage of diversity, the interplay of its cultures, and the origins of its malicious ethnic and national conflicts. History in Central Europe, he shows, has been epic and tragic. Throughout the ages, small nations struggled valiantly against a series of imperial powers: Ottoman Turkey, Habsburg Austria, imperial Germany, czarist Russia, Nazi Germany, and the Soviet Union, and they lost regularly. Johnson's account is present-minded in the best sense: in describing actual historical events, he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today. Indeed, the constant interplay of reality and myth, the processes of myth-making and remembrance, animates much of this history. Since the fall of the Iron Curtain in 1989, the unanticipated problems of transforming post-Communist states into democracies with market economies, the wars in the former Yugoslavia, and the challenges of European integration have all made Central Europe the most dynamic and troubled region in Europe. In *Central Europe*, Johnson combines a vivid and panoramic narrative of events, a nuanced analysis of social, economic, and political developments, and a thoughtful portrait of those myths and memories that have lives of their
