Regulation Of Information Technology In The European Union

Andrej Savin, Jan Trzaskowski

Regulation Of Information Technology In The European Union:

Regulation of Information Technology in the European Union Terry Broderick, 2000-11-08 Information technology is continuing to transform global communications and the world economy with innovative products and services In this dynamic environment events tend to be market driven and it may be difficult for the regulators to keep up At the same time there is a need for public authorities to promote effective competition within a clear coherent and predictable framework This useful reference work summarizes the major rules and policies for information technology at the European level It describes the institutional framework and general policies for the information society examines the detailed rules for external trade competition and intellectual property and discusses the Internet and electronic commerce It provides an excellent overview of the subject as well as a good starting point for additional research on particular issues This unique work will be of great value for practising lawyers corporate counsel business executives consultants academics and government or trade association officials

Regulating eTechnologies in the European Union Tanel Kerikmäe, 2014-07-10 The EU strategy 2020 includes ambitious plans for e regulation that could improve Europe s competitiveness However the European states have very different legal frameworks in this field This book introduces flagship initiatives and provides a detailed overview and analysis of the current standards and latest developments offering practical insights and guidelines for practitioners and policy makers alike Further as it discusses the main areas of e regulation it can serve as a useful platform for university education in light of the growing need for new kinds of specialists i e IT lawyers The book concentrates on fields that are directly affected by e regulation such as cyber security databases computer programs e governance IP and competition law and informatics

The European Union REACH Regulation for Chemicals Lucas Bergkamp, 2013-10 Wide reaching and subject to few exceptions the EU s new chemical regulatory programmes known as REACH impose obligations on all chemical companies including manufacturers importers distributors and product suppliers This book addresses the key regulatory issues management and practical challenges associated with the REACH regulations

Specialized

Administrative Law of the European Union Herwig C. H. Hofmann, Gerard C. Rowe, Alexander H. Türk, 2018-11-30 This volume deals with the law governing the administrative implementation of European Union public policy Much of this law is specific to individual policy sectors The volume provides a study of such specialized administrative law for more than twenty sectors This cross sectoral approach allows for detailed comparisons of EU administration in diverse policy fields It identifies situations where legal structures and approaches may be unnecessarily duplicated thus indicating where a comprehensive general system could be advantageous for both Union law and policy achievement The comparative nature of the study also draws attention to policy fields which have proven to be testing grounds for approaches adopted subsequently in other areas In addition the work highlights the distinctive highly networked and strongly cooperative character of EU administration as a reflection of and a foundation for the operative nature of the European Union as a whole

Handbook on European data

protection law Council of Europe, European Union Agency for Fundamental Rights, 2018-04-15 The rapid development of information technology has exacerbated the need for robust personal data protection the right to which is safeguarded by both European Union EU and Council of Europe CoE instruments Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance communication interception and data storage This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law It provides an overview of the EU s and the CoE s applicable legal frameworks It also explains key case law summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights In addition it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever evolving field
